**December 17, 2012**

***To the Honorable Mayor, Members of the City Council and  
the Citizens of the City of Calhoun, Georgia:***

The ***Comprehensive Annual Financial Report*** (CAFR) of the City of Calhoun for the fiscal year ended June 30, 2012, is submitted herewith. This report was prepared by the City's finance department and is intended to fulfill the requirements for audit prescribed by state laws for general-purpose local governments and to fulfill Single Audit requirements of Federal and State governments. Management assumes full responsibility for the completeness and reliability of the information contained in this report, based on a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

R. M. Dobbs & Company, Certified Public Accountants, has issued an unqualified ("clean") opinion of the City of Calhoun's financial statements for the fiscal year ended June 30, 2012. The independent auditor's report is located at the front of the financial section of this report. Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

## ***INTRODUCING THE CAFR***

The CAFR is presented in three sections: introductory, financial, and statistical. The introductory section includes this transmittal letter, the City's organizational chart, and a list of elected and appointed officials. The financial section includes the MD&A, the basic financial statements and required supplementary information. The statistical section includes selected financial and demographic information generally presented on a multi-year basis.

This report includes all funds of the City. The City provides a full range of services. These services include public safety (police, fire, and animal control), construction and maintenance of roads and infrastructure, recreational and park activities. This report includes two component units: the Calhoun Board of Education and the Downtown Development Authority both of which meet the component unit criteria as set forth in GAAP. The City is financially accountable for the local support required for the City's independent school system. The activity of the Downtown Development Authority is immaterial and is, therefore, not presented on the face of the statements.

Also included in this report are the following enterprise funds: the water and sewer system fund, the electric system fund, the telecommunications fund, the Fields Ferry Golf Course fund, and the solid waste fund. In addition, the City provides economic development support through the revolving loan fund and the hotel-motel tax fund.

## ***PROFILE OF THE GOVERNMENT***

The City of Calhoun, incorporated in January 1852, is located in the northern portion of the state on I-75, and per the 2010 census is the 7th fastest growing city in the county and the fastest growing city in our state. The City of Calhoun occupies a land area of approximately 13 square miles and serves a residential population of approximately 15,650 and a service delivery population of approximately 55,000. The City of Calhoun is empowered to levy a property tax on both real and personal properties located within its boundaries. It is also empowered by state statute to extend its corporate limits by annexation, as deemed appropriate by the Mayor and Council.

The City of Calhoun operates under a Mayor, Council, City Administrator and General Manager form of government. Policy making and legislative authority are vested in the Mayor and Council, consisting of five members. The Mayor and Council are responsible for, among other things, passing of ordinances, zoning, adopting the budget, appointing committees, hiring the City Administrator, General Manager, and City Attorney, and for appointing the heads of various departments of the City government. The City Administrator and General Manager are responsible for carrying out the

policies and ordinances adopted by the Mayor and Council and overseeing the day-to-day operations of the government. The Mayor and Council are elected on a non-partisan basis; they serve four-year, staggered terms, with two Council members elected every two years and the Mayor elected every four years. The Mayor and Council members are elected at large. However, the Council members are elected for specific Council posts; therefore, candidates seeking office declare a post number when qualifying.

The annual budget serves as the foundation for the City of Calhoun's financial planning and governmental control. All departments and agencies of the City of Calhoun are required to submit requests for appropriation to the Administrator and the Manager by the deadline established in the budget calendar approved by the Mayor and Council. The City Administrator and the General Manager use these requests as the starting point for developing a proposed budget. They present the first budget draft to the Mayor and Council at a work session in April of each year. A public hearing on the refined first draft is held in early May of each year. Following the hearing, a second draft is prepared, if necessary, and is reviewed by the Mayor and Council in a second work session. The second public hearing on the final draft is held in early June and is adopted by the Mayor and Council in late June of each year. The appropriated budget is prepared by fund, function and department. Department heads may make transfers of appropriations within divisions of a department, as approved by the budget officers, the Administrator and Manager. However, transfers from department to department and fund to fund require approval of the Mayor and Council. The annual budget also includes the City's long-term financial planning efforts in the form of a five year capital plan for each department.

### ***MAJOR INITIATIVES***

#### ***Utility division:***

In May 2003, the City of Calhoun purchased "Big Springs" from the Forster H. Bates Estate at a cost of \$4,025,000, funded with a temporary bank loan and subsequently with permanent financing via a bond issue. The purchase will eventually allow the City to add over six million gallons of raw water per day to its system when permitted by the state. The bond issue was closed in July 2003 and the temporary bank loan was paid in full in fiscal 2004. The piping to connect the spring to the water system was budgeted for fiscal 2005, in the amount of \$655,969. Changes in EPD requirements increased the scope and price of the project, and it was delayed. The project was listed as a primary project on the SPLOST Referendum that was successfully passed by 83% of those citizens voting in November 2005. The engineering began in fiscal 2006 and the construction phase was completed in fiscal 2010. Additional land and buildings were purchased in fiscal year 2010 for approximately \$1 million dollars that will enhance the Utilities ability to utilize this spring. The filtration portion of the project was started in fiscal year 2011 with a loan from GEFA that had 30% forgiveness through the federal ARRA funding. The project is estimated to be completed in fiscal year 2013 after an additional GEFA loan is obtained.

The Water and Sewer fund refunded their 2001 Water and Sewerage Bonds and a GEFA note during fiscal 2012 at 1.935%, with a net present value savings of \$431,895.

In September 2002 the City of Calhoun entered into an intergovernmental agreement with Pickens County for Calhoun to sell and deliver water at wholesale rates to their border. The agreement included a minimum of one half million gallons per day and a maximum of one and one half million gallons per day at an original price of \$1.40 per one thousand gallons. The City of Calhoun began to deliver water in December 2004 and continue to do so. A similar agreement was entered into with the City of Chatsworth Waterworks Commission, City of Chatsworth, Georgia. The City began delivering water in January 2007 following extension of the Pine Chapel water line to the Chatsworth, Murray County border. The City of Calhoun began billing for sales in April 2007 and bills quarterly thereafter.

The Telecommunications department continues to research for new technologies that will increase efficiency, reduce cost and increase customer satisfaction. As a result, additional services may be offered and service areas can be expanded. The Telecommunications department hired a GIS manager in fiscal year 2008 and subsequent to year end a technician was hired. We have made substantial progress towards fully implementing a state of the art GIS system. We were able to accomplish this due to the economic slowdown allowing us to utilize existing personnel in getting the information into the system.

The City of Calhoun Electric fund performed work on major projects for fiscal year 2012 of approximately \$350,000 that included construction at the new high school, construction on underground primary wiring at local manufacturing facilities and GDOT intersection improvements. The City has voted and signed contracts obligating the City to participate in the expansion of two additional generating units at Plant Vogtle. Our allotted capacity will secure a future power resource in 2016. An additional five year Inter Participant Transfer (IPT), facilitated through MEAG, was executed in early 2011 to bridge electric generation needs until Plant Vogtle becomes commercially operable. These transactions should accommodate the community's power needs for the next 30 to 35 years.

Long-term financial planning: The City advance refunded their 2003 Water Bonds and three GEFA loans in the period subsequent to the audit for a present value savings in excess of \$496,000.

***General Government Division:***

***Public Safety:***

***Police:***

The City of Calhoun Police Department case load remains average to last year with various types of property crimes, domestic disturbances, false alarms, and traffic related incidents being the highest in numbers. Violent crime statistics are similar to other southeastern municipalities which range in 1% from the past year. 2012 was another year without a traffic accident fatality. This is due to a concentrated effort by the patrol and traffic units controlling speeding, DUI's and other driving infractions. The DUI arrests are up this year due to the concentrated efforts of our department in conjunction with the Governor's Office of Highway Safety.

Department of Justice and COPS grant monthly drawdown's of federal grant funds are being used to fund two patrol officers salaries and fringe benefits totaling approximately \$100,500 for this year.

In fiscal year 2012, the police department conducted major emergency training scenarios at the Calhoun High School. Our school's safety is a national concern and comprehensive drills provided opportunities for public safety officials, teachers, administrators, students and parents to be part of a lock down process. The Police Department received a \$600,000 grant through the Department of Justice to "Secure Our Schools." This grant is provided to make sure our City Schools are secure and safe for our young people. Our Traffic Unit continues to educate our teenagers through the Teen Ride with Pride Program, which is through the University of Georgia.

The police department continued to work as a partner with the Federal Bureau of Investigation's (F.B.I.) Safe Streets Program that provides Calhoun with assets such as manpower, equipment, technical, and legal expertise for operations primarily associated with gang activity, drugs, illegal immigration, and forgery. Several federal cases worked by our department provided shared funds that were used to furnish and re-model a new office building for the Special Operations Division. This year we continue to partner with the Federal Alcohol Tobacco and Firearms division, where one of our officers is sworn as Federal Agent and is being provided with a vehicle and fuel, at no cost to the City. Successful cases through this agency have also provided shared funds to assist the department without using City budget funds.

***Fire:***

The Calhoun Fire Department has an ISO 4 rating for property and casualty insurance purposes. The department is also currently building a training center located at Station #2. This center will consist of a live fire burn building and training tower, along with other training props. This is being built per ISO recommendations in the last review. The fire department has hired a Chief of Training to coordinate the department training and use of the site. These two additions will have a direct impact of helping to potentially lower the ISO rating for property and casualty insurance purposes for the City of Calhoun.

The number of structure fires within the City of Calhoun continued to decline this year, while the total number of calls continues to increase due to increased medical call requests. Fire call reduction is due in part to fire inspections, fire codes, fire prevention classes, and fire resistant building materials. While the fire department's primary mission is life safety thru fire prevention and suppression, they also service other emergency areas. Situations involving search and rescue, EMS/medical calls, vehicle accidents, industrial accidents, hazardous materials incidents and conditions (leaks, spills, toxic materials, and hazardous materials), severe weather and other incidents have caused the department to broaden its scope of operations, response, and expertise.

The fire prevention division continues to have contact hours with over 2500 students per school year in the City school system in grades pre-k through 5<sup>th</sup> grade and in the Health Occupations and Construction Trades classes at Calhoun and Gordon Central High Schools. The department also participates in many other public safety education events and classes throughout the year with local businesses, industries, daycares and churches.

The Calhoun Fire Department and the Joint Special Operations Team (surrounding area fire departments in GEMA Region 6) now have a trained team of 72 personnel each with 420 hours of Search and Rescue training (and many hours of annual refresher training) available to serve this community in case of a major catastrophic event. This GSAR (Georgia Search and Rescue) team and equipment along with a fully trained Haz-Mat team with a full line of Hazardous Mitigation Equipment, along with water search and rescue equipment, is all located at the Special Operations building at Station #2 on Richardson Road and is available and ready to serve this community in case of almost any type event.

**Public Works:**

Street Department operations during fiscal year 2012 included paving on E. Line Street from the red light at N. Wall Street to Fain Cemetery and on Curtis Parkway from the red light at Hwy. 53 to Dogwood Drive. These two streets were paved through a joint agreement with Gordon County. The State LMIG Program Contractor paved on E. Line Street and Dewspod Road from Fain Cemetery to the red light at Curtis Parkway. City funds paved several large sections of the parking lot at the soccer field on Mauldin Road.

West Calhoun, a CDBG grant project, was completed during this fiscal year. Work has been started on the Transportation Enhancement Grant Project, Streetscape Phase III, that included design and engineering from Hicks Street north to Line Street and on the east side of Wall Street. Planning and purchasing of some of the supplies was done during 2010 and construction began in the spring of 2011. We anticipate completing this project in fiscal 2013.

**Recreation:**

Participation programming remained steady despite continued economic hardship. The City maintains a 58.5 acre park off of McDaniel Station road that connects to the existing Palmer Memorial Park. The Recreation Department operates and maintains nine softball and baseball fields, a gymnasium, four soccer fields, two football fields, fifteen tennis courts, a pool, 2 pavilions, walking trails, and the largest playground in Northwest Georgia. The Recreation Department worked to maintain an excellent source of programs on a tight budget. Several tournaments were hosted by the department in the spring and early summer to bring in additional income. The Calhoun Recreation Department is continuing to provide quality programs and activities for the citizens of Calhoun and Gordon County.

The Recreation Department began construction of a restroom/concession/pavilion facility at the new Recreation Complex. The facility will service the football field and walking trail and the pavilion area will be available for parties, reunions and special events. This facility is scheduled to be completed in fiscal 2013.

The City's public Golf Course, Fields Ferry, faced a challenging year but continued to offer an eighteen hole championship course to the surrounding population. Strong internal management and maintenance of the course allowed them to weather a continued overall downturn in the industry attributed to overbuild, weather, and economic recession that continued into fiscal 2012. The City maintained a Golf Advisory Commission, composed of businessmen active in the sport that met with Golf Management quarterly to review activity and to make recommendations on rates, budget projections, and to review financial reports. The Advisory Commission, established in 1991, continues to advise the Mayor and Council.

The Golf Course was in the process of having new greens and irrigation installed at year-end and it was completed by mid-August, 2012. Some new golf carts will be purchased in fiscal 2013.

Annexations requests continue to decline because of the slowdown in development due to the economy.

**FINANCIAL INFORMATION**

**Budgeting Controls:** Budgets have been adopted and appropriated at the fund level for each City governmental fund. Budgetary control is maintained by continued review of the budget-to-actual reports by the finance department and each department head and full fund reports to the Mayor and Council quarterly. Budget amendments were made after presentation to the Mayor and Council for consideration for governmental funds. The City's budgetary accounting basis for proprietary funds is modified accrual, with all revenues and expenditures budgeted on an accrual basis except for line items for capital outlay and debt payments. The City's budgetary accounting basis for governmental funds is modified accrual. All encumbrances are cancelled at the fiscal year end. Unexpended appropriations lapse at year-end for budgetary purposes and are subject to re-appropriation in the following year.

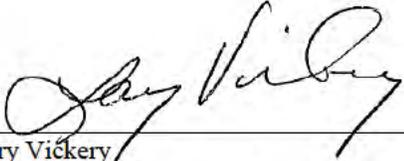

**Long-term Financial Planning:** The Water and Sewer fund plans to refinance three GEFA loans and one of our bond issues in the coming year to maximize savings on the low interest rates available. Capital leases are also being handled between City funds to save on interest costs as well.

**Awards:** The Government Finance Officers Association of the United States and Canada (GFOA) awarded the Certificate of Achievement for Excellence in Financial Reporting to the City of Calhoun for its comprehensive annual financial report for the fiscal year ended June 30, 2011. The Certificate of Achievement is the highest form of recognition in the area of governmental accounting and financial reporting, and its attainment represents a significant accomplishment by a government and its management. In order to be awarded this achievement, a governmental unit must publish an easily readable and efficiently organized comprehensive annual financial report that satisfies both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe the current CAFR continues to meet the program requirement.

**Acknowledgments:** We wish to express our gratitude and appreciation to the members of the finance department and the Director of Finance of the City of Calhoun for her diligent work on this year's CAFR. We would also like to acknowledge the interest and support of the Mayor and Council in the financial affairs of the City of Calhoun.

Respectfully Submitted,

## INDEPENDENT AUDITOR'S REPORT

To the Honorable James F. Palmer, Mayor  
and Members of the City Council  
City of Calhoun, Georgia

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of City of Calhoun, Georgia, as of and for the year ended June 30, 2012, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of City of Calhoun, Georgia's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Calhoun, Georgia, as of June 30, 2012, and the respective changes in financial position, and, where applicable, cash flows thereof and the budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 17, 2012, on our consideration of the City of Calhoun, Georgia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 14 through 21 and page 32 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of

inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Calhoun, Georgia's financial statements as a whole. The introductory section, combining and individual major and nonmajor fund financial statements, budgetary comparison schedules for nonmajor funds, and statistical section, are presented for purposes of additional analysis and are not a required part of the financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the financial statements. The combining and individual major and nonmajor fund financial statements, budgetary comparison schedules for nonmajor funds, the schedule of expenditures of federal awards and project cost schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

## **MANAGEMENT'S DISCUSSION & ANALYSIS**

## **MANAGEMENT'S DISCUSSION AND ANALYSIS**

Within this section of the City of Calhoun, Georgia (the City) annual financial report, the City's management is pleased to provide this narrative discussion and analysis of the financial activities of the City for the fiscal year ended June 30, 2012. The City's financial performance is discussed and analyzed within the context of the accompanying financial statements and disclosures following this section.

### **Financial Highlights**

- The City's assets exceeded its liabilities by \$191,351,211 (net assets) for the fiscal year reported.
- Total net assets are comprised of the following:
  - (1) Capital assets, net of related debt, of \$141,219,316 includes property and equipment, net of accumulated depreciation, and reduced for outstanding debt related to the purchase or construction of capital assets.
  - (2) Net assets of \$19,122,020 are restricted by constraints imposed from outside the City such as debt covenants, grantors, laws, or regulations.
  - (3) Unrestricted net assets of \$31,009,875 represent the portion available to maintain the City's continuing obligations to citizens and creditors.
- The City's governmental funds reported total ending fund balance of \$37,898,851 this year. This compares to the prior year ending fund balance of \$41,528,928 showing a decrease of \$3,630,077 during the current year. Unreserved fund balance of \$7,369,140 for fiscal year 2012 shows a \$24,356,873 decrease from the prior year.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$3,409,176 or 32% of total general fund expenditures
- Overall, the City continues to maintain a strong financial position, in spite of the economic slowdown.

The above financial highlights are explained in more detail in the "financial analysis" section of this document.

### **Overview of the Financial Statements**

This Management Discussion and Analysis document introduces the City's basic financial statements. The basic financial statements include: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the basic financial statements. The City also includes in this report additional information to supplement the basic financial statements.

#### ***Government-wide Financial Statements***

The City's annual report includes two government-wide financial statements. These statements provide both long-term and short-term information about the City's overall financial status. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in accrual accounting and elimination or reclassification of activities between funds.

The first of these government-wide statements is the *Statement of Net Assets*. This is the government-wide statement of position presenting information that includes all of the City's assets and liabilities, with the difference reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City as a whole is improving or deteriorating. Evaluation of the overall health of the City would extend to other nonfinancial factors such as diversification of the taxpayer base or the condition of City infrastructure, in addition to the financial information provided in this report.

The second government-wide statement is the *Statement of Activities*, which reports how the City's net assets changed during the current fiscal year. All current year revenues and expenses are included regardless of when cash was received or paid. An important purpose of the design of the statement of activities is to show the financial reliance of the City's distinct activities or functions on revenues provided by the City's taxpayers.

**MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)  
For the Fiscal Year Ended June 30, 2012**

**City of Calhoun, Georgia**

Both government-wide financial statements distinguish governmental activities of the City that are principally supported by taxes from business-type activities that are intended to recover all or a significant portion of their costs through user fees and charges. Governmental activities include general government, public safety, public works, health and welfare, culture and recreation, housing and development and education. Business-type activities include the electric and water and sewer systems, the golf course, telecommunications and solid waste.

The government-wide financial statements are presented on pages 24-25 of this report.

***Fund Financial Statements***

A fund is an accountability unit used to maintain control over resources segregated for specific activities or objectives. The City uses funds to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statements, fund financial statements focus on the City's most significant funds rather than the City as a whole. Major funds are separately reported while all others are combined into a single, aggregated presentation. Individual fund data for non-major funds is provided in the form of combining statements in a later section of this report.

The City has three kinds of funds:

*Governmental funds* are reported in the fund financial statements and encompass the same functions reported as governmental activities in the government-wide financial statements. However, the focus is very different with fund statements providing a distinctive view of the City's governmental funds. These statements report short-term fiscal year accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of governmental programs and the commitment of spendable resources for the near-term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. Both the governmental fund balance sheet and the governmental fund operating statement provide a reconciliation to assist in understanding the differences between these two perspectives. In addition, the budgetary comparison statement for the general fund is included in the basic financial statements.

The basic governmental fund financial statements are presented on pages 28-32 of this report.

Individual fund information for nonmajor governmental funds is found in combining statements and the individual fund statements in a later section of this report.

*Proprietary funds* are reported in the fund financial statements and generally report services for which the City charges customers a fee. The five City proprietary funds are classified as enterprise funds. Enterprise funds essentially encompass the same functions reported as business-type activities in the government-wide statements. Services are provided to customers external to the City organization for electric, water and sewer utilities, the golf course, telecommunications and solid waste management.

The basic enterprise fund financial statements are presented on pages 33-36 of this report.

*Fiduciary funds* are reported only in the basic financial statements on pages 37-38 and in the supplementary financial statements. This category reports an agency fund to account for flow of resources through the municipal court, a cemetery trust fund, and a trust fund for the City's pension fund.

***Notes to the Basic Financial Statements***

The accompanying notes to the financial statements provide information essential to a full understanding of the government-wide and fund financial statements. The notes to the financial statements begin on page 40 of this report.

***Other Supplementary Information***

In addition to the basic financial statements and accompanying notes, this report also presents certain supplementary information concerning the City's budget presentations. Budgetary comparison schedules are included as supplementary information for special revenue funds, debt service funds, and capital project funds, where applicable. These schedules demonstrate compliance with the City's adopted and final revised budget. As discussed, the City reports major funds in the basic financial statements. Combining and individual statements and schedules for non-major funds are presented in a subsequent section of this report beginning on page 78.

**Financial Analysis of the City as a Whole**

The City's net assets at fiscal year end are \$191,351,211. The following table provides a summary of the City's net assets:

**Summary of Net Assets**

	<b>Governmental Activities</b>		<b>Business-type Activities</b>		<b>Total</b>		<b>% of Total 2011</b>
	<b>2012</b>	<b>2011</b>	<b>2012</b>	<b>2011</b>	<b>2012</b>	<b>2011</b>

Unrestricted	7,912,027	7,232,639	23,097,848	22,718,371	31,009,875	29,951,010	16%
<b>Total net assets</b>	<b>\$ 78,496,736</b>	<b>\$ 75,003,163</b>	<b>\$ 112,854,475</b>	<b>\$ 110,409,049</b>	<b>\$ 191,351,211</b>	<b>\$ 185,412,212</b>	<b>100%</b>

The City continues to maintain a high current ratio. The current ratio compares current assets to current liabilities and is an indication of the ability to pay current obligations. The current ratio for governmental activities is 17.6 to 1 at June 30, 2012 as compared to 21.2 to 1 at June 30, 2011. The current ratio for business-type activities at June 30, 2012 is 2.6 to 1 compared to 2.5 to 1 in the prior year. For the City overall, the current ratio at June 30, 2012 is 4.9 to 1 as compared to 5.2 to 1 at June 30, 2011.

The City reported positive balances in net assets for both governmental and business-type activities. Net assets increased \$3,493,572 for governmental activities and by \$2,445,426 for business-type activities.

Approximately 66% of the governmental activities' net assets are invested in capital at June 30, 2012 as compared to 70% at June 30, 2011. The City uses these capital assets to provide services to its citizens. With business-type activities, the City

**MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)**  
**For the Fiscal Year Ended June 30, 2012**

**City of Calhoun, Georgia**

spent 80% of its net assets on capital in fiscal 2012 and 79% in 2011. Capital assets in the business-type activities provide utility services, but they also generate revenues for these funds.

The following table provides a summary of the City's changes in net assets:

	Governmental Activities		Business-type Activities		Total		% of Total 2012
	2012	2011	2012	2011	2012	2011

**GOVERNMENTAL REVENUES**

The City is heavily reliant on business and franchise taxes and local option sales taxes to support governmental operations. Business license and franchise taxes provided 18% of the City's total governmental revenues, which was comparable to the prior year. Sales taxes provided 14% of total governmental revenues versus 13% in fiscal year 2011. This includes SPLOST revenues for business-type activities that is included in revenue in the governmental funds and then transferred out to the water fund for approved projects. Property taxes and charges for services and fines are also important revenue sources (excluding grants and contributions) providing 6% and 9% of total revenues, respectively. Total General Fund revenues are

**MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)**  
**For the Fiscal Year Ended June 30, 2012**

**City of Calhoun, Georgia**

4% higher than the fiscal year 2011 amount. The City earned \$52,642 in investment earnings in fiscal year 2012 to support governmental activities. This is down from earnings of \$95,043 in fiscal year 2011 because of the continued decline in interest rates. Capital grants relate primarily to SPLOST funds for water and fire projects. They are available for projects specified in the respective referendum.

**GOVERNMENTAL FUNCTIONAL EXPENSES**

This table presents the cost of each of the City's programs, including the net costs (i.e., total cost less revenues generated by the activities). The net costs illustrate the financial burden placed on the City's taxpayers by each of these functions.

	<b>Total Cost of Services</b>		<b>Net Cost of Services</b>	
	<b>2012</b>	<b>2011</b>	<b>2012</b>	<b>2011</b>
General government	\$ 810,234	\$ 776,593	\$ 681,565	\$ (1,763,186)
Judicial	373,132	370,600	373,132	370,600
Public safety	6,536,010	6,613,869	4,850,290	5,454,221
Public works	2,840,555	3,049,832	697,710	2,929,608
Health and welfare	53,383	58,247	53,383	58,247
Culture and recreation	1,633,489	1,696,938	829,330	976,622
Housing and economic development	941,496	970,940	794,717	748,929
Education	909,436	516,728	(2,801,722)	(2,230,056)
Interest	1,871,332	523,229	1,871,332	523,229
<b>Total</b>	<b>\$ 15,969,067</b>	<b>\$ 14,576,976</b>	<b>\$ 7,349,737</b>	<b>\$ 7,068,214</b>

Public safety expenses make up 41% of the governmental activities expenses. This compares to 45% in fiscal year 2011. The public works function is the second largest cost, making up 18% of governmental activities expenses, compared to 21% in fiscal year 2011.

Approximately 26% of gross program costs for public safety functions were recovered from public safety revenues, primarily fines and forfeitures. This compares to 18% in the prior year.

Note that the education function reports excess of revenues over expenses. This presentation may be misleading, although required. Program revenue in the education function is from intergovernmental ESPLOST revenue restricted for debt service. Debt principal payments have been eliminated from the statement of activities and charged against the liability in the statement of net assets, causing the education function to appear to have a \$2.8 million dollar net revenue. It is anticipated that once the debt is paid, education will have a net loss because of depreciation expense.

**BUSINESS-TYPE ACTIVITIES**  
**Revenues vs. Costs**

The operating revenues for all enterprise funds, including the internal service fund, were \$3,059,870 or 6% more than 2011 and total operating expenses were \$5,059,709 or 12%, more than fiscal year 2011. Within the total business-type activities of the City, these activities reported \$5,131,970 in operating income compared to operating income of \$7,131,809 in the prior year, or a decrease of 28%. After transfers in and out between other funds and other non-operating items, these funds reported a net change in net assets of \$2,445,426 compared to a net change in net assets of \$5,015,377 in 2011.

**MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)  
For the Fiscal Year Ended June 30, 2012**

**City of Calhoun, Georgia**

Each specific fund reported the following change in operating income or (loss):

	<u>Amount Change</u>	<u>%</u>
Water and sewerage fund	\$ 139,203	4%
Electric system fund	(2,164,605)	(61%)
Field Ferry Golf Course fund	(133,126)	(52%)
Telecommunications fund	13,243	9%
Solid waste fund	173,717	361%

**Water and Sewerage Fund** – One of the major funds is the water and sewerage fund. The operating revenues increased 4% and operating expenses increased 4% in fiscal year 2012, resulting in an increase in operating income from 2011 of approximately 4%.

Personal services have increased by \$105,193 or 4%. This is due to a partial replacement of the personnel that were lost during the hiring freeze that was in place, forcing many departments to operate under-staffed.

Supplies increased from the prior year by \$296,777 or 12%. Supplies were drastically cut in fiscal 2011 due to the extreme situation that the economy was in. During this fiscal year, certain items had to be purchased and supplies increased to a more normal amount for the City.

Contractual Services increased \$116,542 or 17%. This primarily represents the additional costs we incurred in repair and maintenance in fiscal 2012.

**Electric Fund** - The other major enterprise fund is the electric system fund. The charges for services for this fund have increased 8% or \$2,468,974 over fiscal year 2011. There were 35,330,566 more kilowatts sold in 2012 than in 2011, which reflects a 9% increase. The price per kilowatt is adjusted monthly so this is very close to the percentage increase in revenues.

Contractual services have increased by \$494,808 or 42%. We had technical and consulting fees greater than in the prior year. Our repairs and maintenance on the equipment exceeded the prior year and rental equipment was needed. Contract labor was utilized on some projects and tree trimming when it was deemed cost effective over employees and there were education expenses on employees that had been needed. Due to the increased sales volume, franchise fees increased accordingly.

Supplies have increased by \$4,074,832 or 18% from the prior year. This is due to the increased amount of power that must be purchased to satisfy demand. The increase is due to industrial sales primarily, and the margin is very slim on those.

Capital contributions have increased by \$218,755 over the prior year of \$39,546, which was shown in Intergovernmental Revenues. The EECBG grant had just started in fiscal 2011 and the bulk of the work was done in fiscal 2012 when it was finalized.

Transfers out during fiscal year 2012 increased by \$576,990, which represents 25%. Approximately \$185,000 of this increase comes from work the Electric fund did on the buildings of the City that was funded by the EECBG grant. The balance of the increase is due to the increased sales, thus creating increased transfers to the General fund.

**Financial Analysis of the City's Funds**

**Governmental Funds**

As discussed, governmental funds reported in the fund statements have a short-term, inflow and outflow of spendable resources focus. This information is useful in assessing resources available at the end of the year in comparison with upcoming financing requirements. Governmental funds reported ending fund balances of \$37,898,851. Of this year-end total, \$3,409,176 is unassigned indicating availability for continuing City service requirements. There is \$3,959,964 committed for working capital and contingencies. Legally restricted fund balances for program purposes are \$1,976,361, restricted for capital projects is \$18,016,233 and \$10,129,701 was restricted for debt service. Amounts equal to prepaid assets of \$407,416 are nonspendable for current expenditures.

**MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)  
For the Fiscal Year Ended June 30, 2012**

**City of Calhoun, Georgia**

The total ending fund balances of governmental funds show a decrease of \$3,630,077 or 11% from the prior year. This decrease is due to the \$8.5 million dollars spent on the new high school and middle school complex this year.

***Major Governmental Funds***

***General Fund*** - The general fund is the City's primary operating fund and the largest source of day-to-day service delivery. The general fund's fund balance increased by \$955,500 in fiscal year 2012.

General fund revenue increased \$ 387,809 or 4% from the prior year. Sales tax revenue increased 7% or \$155,054 because of a small upswing in the economy. Other taxes increased over the prior year by \$111,118 since the insurance premium tax collected by the state increased. Intergovernmental revenues increased \$135,190 due to additional grants received.

Total general fund expenditures increased \$27,878 when compared to the prior year. Public works had an increase of \$237,633 or 13%. This was due to work done on the Streetscape III project, additional asphalt purchased for paving projects and the cost of the streetlights going back to normal pricing with the Utilities. General government expenditures decreased \$106,467 or 11% from fiscal 2011. There was a land acquisition in the prior year. Principal retirement was \$118,704 less than the prior year due to the lease on the police fleet being paid off June 2011.

Transfers into the General fund increased \$105,347 or 4% due to the increase in Electric revenues causing a corresponding increase in transfers to the General fund. There was also a decrease in Transfers out of the General fund of \$128,128 or 15%. This was due to fewer transfers having to be made to the Solid Waste and Recreation funds.

The general fund's unassigned and committed ending fund balance represents the equivalent of 70% of annual expenditures, as compared to 60% at June 30, 2011.

***2011 School Bond Capital Project Fund*** – This fund issued \$21 million in bonds during the prior fiscal year to start the construction of a new high school/middle school complex. An additional \$12 million in bonds will be issued in the following fiscal year to assist in finishing the project. Construction on the new school is recorded out of this fund.

***2011 School Bond Debt Service Fund*** – This governmental fund accounts for the issuance of bonds and the construction of a new high school and middle school. Currently, interest only is being paid on the bonds and principal payments will start in year 2022. Citizens have approved an E-SPLOST to fund the payments on these bonds during the term of the SPLOST. Renewals on the E-SPLOST will be voted on as each term expires until all such debt is paid.

***The Proprietary Funds***

The proprietary fund statements share the same focus as the government-wide statements, reporting both short-term and long-term information about financial status. Therefore, the analysis is presented above.

**Budgetary Highlights**

***The General Fund*** – There were several budget amendments done during this fiscal year, including amendments within the department and Council approved amendments between departments. Revenues were \$91,766 less than the final budget and 99% of final budgeted revenues were met. The primary decrease in revenues was in collection of property taxes. Budget amendments increased General fund revenues by \$228,956 and accounted for additional LOST, insurance premium taxes and miscellaneous other items.

The City spent 91% of the final authorized budgeted expenditures. General government expenditures actual was \$988,384 less than budget primarily due to projects that were postponed, transfers to other funds that were not required and wage and benefit savings. The budget amendments to increase general government, in the General Fund, \$171,869 were primarily to budget for the renovations to the Bailey building and the new fueling station.

**MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)  
For the Fiscal Year Ended June 30, 2012**

**City of Calhoun, Georgia**

**2011 School Bond Capital Project Fund** –There was one budget amendment done during this fiscal year to establish a project length budget for this project and record planned additional expenditures and financing. Since this is a project length budget, no budget comparison is provided.

**2011 School Bond Debt Service Fund** – There was a budget amendment to this fund to allow for interest to be paid on the 2011 bonds that were issued for the building of the new high school/middle school complex. Revenues were \$1,136,150 more than the final budget and 132% of final budgeted revenues were met. This was due to transfers coming in from another school fund to aid in paying school debt that were not anticipated.

The City spent 53% of the final authorized budgeted expenditures. Expenditures actual was \$1,674,269 less than budget due to a \$1.6 million addition to fund balance budgeted since revenues were anticipated to be greater than expenses.

**Capital Assets and Debt Administration**

***Capital Assets***

The City's investment in capital assets, net of accumulated depreciation, for governmental and business-type activities as of June 30, 2012, was \$51,462,689 and \$89,756,627 respectively. This was an decrease in net investment of 2% for governmental activities and an increase of 2% for business-type activities. See Note 3-E for additional information about changes in capital assets during the fiscal year and amounts outstanding at the end of the year.

At June 30, 2012, the depreciable capital assets for governmental activities were 43% depreciated. These assets were 40% depreciated in the prior year. For the City's business-type activities, 41% of the asset values were depreciated at June 30, 2012, which is comparable to the 40%, which was depreciated at June 30, 2011. Consistent percentages are a positive financial indicator.

***Long-term Debt***

At the end of the fiscal year, the City had two types of bonds outstanding, notes payable, capital leases, claims, landfill closure costs, and a pension liability. See Note 3-H for additional information about the City's long-term debt.

**Economic Conditions Affecting the City**

The City continues to feel the effects of the economic downturn, as is the nation. With the downturn in the housing market, the City was given the opportunity to stabilize growth by improving development standards and long-term efforts. The existence of a local technical college has allowed for the training and retraining of many in the work force for jobs where higher levels of education and technical skills are required or in areas where more jobs are available. Local option sales tax revenues, an indicator of consumer spending, showed a slight upswing from the previous year. There has been some plant expansion and industrial growth, which has been very positive for the City. The City does continue to get industrial prospects who inquire about the possibility of locating here, as close accessibility to Atlanta is attractive. The City of Calhoun has positioned itself very well for growth, due to capacity for expansion in the areas of water, sewer and electricity.

**Contacting the City's Financial Management**

This financial report is designed to provide a general overview of the City's finances, comply with finance-related laws and regulations, and demonstrate the City's commitment to public accountability. If you have questions about this report or would like to request additional information, contact the Director of Finance, Andrea K. Bramlett at 700 W. Line Street, Calhoun, GA 30701, (706) 602-5840, [abramlett@calnet-ga.net](mailto:abramlett@calnet-ga.net).

---

<b>Total Governmental Fund Balances</b>	\$	37,898,851
-----------------------------------------	----	------------

**Amounts reported for governmental activities in the statement of net assets are different because:**

Capital assets used in governmental activities are not current financial resources and therefore are not reported in the funds (exclusive of internal service funds' capital assets).

Cost of capital assets	\$ 109,213,042	
Less accumulated depreciation	<u>(35,470,729)</u>	73,742,313

Other long-term assets are not available to pay for current-period expenditures and therefore are deferred in the funds.

Property taxes	905,405	
Intergovernmental	54,768	
Cemetery lot sales	15,177	
Fines	<u>982,647</u>	1,957,997

Interfund receivables and payables between governmental funds are reported on the governmental fund's balance sheet but eliminated on the government-wide statement of net assets.

Interfund receivables	(168,916)	
Interfund payables	<u>168,916</u>	-

Bond issuance costs are reported as expenditures in the governmental fund financial statements but capitalized on the government-wide statement of net assets.

226,720

Liabilities not due and payable in the current period are not reported in the governmental fund balance sheets but are reported on the government-wide statement of net assets.

Bonds	(33,503,584)	
Capital leases	(467,673)	
Pension	(524,836)	
Claims	(80,106)	
Compensated absences	(278,551)	
Accrued interest	<u>(474,395)</u>	<u>(35,329,145)</u>

<b>Net Assets Of Governmental Activities</b>	<b>\$</b>	<b><u><u>78,496,736</u></u></b>

See accompanying notes to the basic financial statements

**City of Calhoun, Georgia**  
**Reconciliation of the Governmental Funds' Statement of Revenues, Expenditures**  
**and Changes in Fund Balances to the Statement of Activities**  
**For the Fiscal Year Ended June 30, 2012**

**Net Changes In Fund Balances - Total Governmental Funds** \$ (3,630,077)

**Amounts reported for governmental activities in the  
statement of activities are different because:**

Governmental funds report capital outlays as expenditures on the governmental fund type operating statement. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capitalized capital outlay exceeded depreciation expense in the current period.

Depreciation expense	\$ (2,443,500)	
Capital outlay	9,087,136	6,643,636

The cost of capital assets that are sold are reported in the government-wide statement of activities but not reported at the fund financial reporting level. (42,551)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues at the fund financial reporting level.

Property taxes:		
Deferred @ 6/30/12	905,403	
Deferred @ 6/30/11	(1,088,515)	(183,112)
Intergovernmental:		
Deferred @ 6/30/12	54,768	
Deferred @ 6/30/11	(43,415)	11,353
Cemetery lot sales:		
Deferred @ 6/30/12	15,177	
Deferred @ 6/30/11	(15,777)	(600)
Fines:		
Deferred @ 6/30/12	982,647	
Deferred @ 6/30/11	(789,295)	193,352

Elimination of transfers between governmental funds, including net effect of transfers recorded for capital assets moved between governmental and enterprise funds.

Transfers in	(1,715,803)	
Transfers out	1,715,803	-

Repayment of long-term debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of activities. 1,098,439

Amortization of bond issuance costs and bond premiums are reported on the government-wide statement of activities but not reported on the fund financial reporting level. (32,568)

Some expenses reported in the statement of activities, do not require the use of current financial resources and therefore, are not reported as expenditures in governmental funds. The change in the current year expenses are as follows:

Accrued interest		
Liability @ 6/30/12	(474,395)	
Liability @ 6/30/11	10,876	(463,519)
Compensated absences		
Liability @ 6/30/12	(278,551)	
Liability @ 6/30/11	302,402	23,851
Claims		
Liability @ 6/30/12	(80,106)	
Liability @ 6/30/11	85,728	5,622
Pension liability		
Liability @ 6/30/12	(524,836)	
Liability @ 6/30/11	394,583	(130,253)

**City of Calhoun, Georgia**  
**Notes to the Basic Financial Statements**  
**For the Fiscal Year Ended June 30, 2012**

The City of Calhoun, Georgia (The City) is a municipal corporation governed by an elected mayor and four-member council.

**Note 1 - Summary of Significant Accounting Policies**

The financial statements of the City have been prepared in conformity with accounting principles generally accepted in the United States (GAAP) as applied to governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for governmental accounting and financial reporting. The City also applies private sector standards issued on or before November 30, 1989, to its governmental and business-type activities at the government-wide financial reporting level to the extent that those standards do not conflict with or contradict guidance of the GASB. The City applies private sector standards to its enterprise funds at the fund reporting level, provided they do not conflict with or contradict GASB pronouncements.

The most significant of the City's accounting policies are described below.

**1-A. Reporting Entity**

The reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the City consists of all funds, departments, boards and agencies that are not legally separate from the City.

Component units are legally separate organizations for which the City is financially accountable. The City is financially accountable for an organization if the City appoints a voting majority of the organization's governing board and (1) the City is able to significantly influence the programs or services performed or provided by the organizations or (2) the City is legally entitled to or can otherwise access the organization's resources; the City is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the City is obligated for the debt of the organization. Component units also may include organizations that are fiscally dependent on the City in that the City approves the budget, levies their taxes or issues their debt.

A blended component unit, although a legally separate entity, is, in substance, part of the City's operations. The fund types of such component units are blended with the fund types of the City. A brief description of the blended component unit follows:

**Calhoun Recreation Authority** (Recreation Authority) – The Recreation Authority is governed by a seven-member board consisting of six members appointed by the City Council and one member from the elected City Council. Although it is legally separate from the City, the Recreation Authority is reported as if it were part of the City because its purpose is to finance golf course construction or other recreation activities. Bonds or other debt issued by the Recreation Authority are secured by a lease agreement with the City and will be retired through lease payments from the City.

Financial statements of the Calhoun Recreation Authority are included in the City's basic financial statements within the governmental debt service fund. Information may be obtained at City Hall, City Administrator's Office, 226 South Wall Street, Calhoun, Georgia.

The component unit columns included on the government-wide financial statements identifies the financial data of the City's discretely presented component units. They are reported separately to emphasize that they are legally separate from the City. A brief description of the discretely presented component units follows:

**City of Calhoun, Georgia, Board of Education** (School District) – The School Board is authorized within the City of Calhoun, Georgia's charter to regulate the operations of the system of public schools for the City of Calhoun. The School District consists of five members elected by the citizens of the City. However, the School District is fiscally dependent upon the City of Calhoun because the City Council must approve the annual budget, levy the necessary property taxes and approve any debt issuances. Separately issued financial statements for the School District may be obtained at the School District's administrative offices, 308 Barrett Road, NW, Calhoun, Georgia.

**Downtown Development Authority** (Development Authority) – The Development Authority is a public body, corporate and politic, and was created upon the adoption and approval of the Development Authorities Law of the State of Georgia. The Mayor and City Council appoint all members of the Development Authority. To date, the only activities associated with the Development Authority relate to property deeded by the City to the Development Authority, which was sold in fiscal 2004. Financial statements of the Downtown Development Authority, if material, are required to be in the City's basic financial statements as a discretely presented component unit. This is in accordance with a determination made for such entities by the Georgia Department of Audits

**City of Calhoun, Georgia**  
**Notes to the Basic Financial Statements**  
**For the Fiscal Year Ended June 30, 2012**

and Accounts. Specific information relative to these activities may be obtained at City Hall, City Administrator's Office, 226 South Wall Street, Calhoun, Georgia.

**1-B. Basis of Presentation**

The City's basic financial statements consist of government-wide statements, which include aggregated fund data and fund financial statements, which provide a more detailed level of financial information.

**Government-wide Financial Statements** - The government-wide financial statements include a statement of net assets and a statement of activities. These statements report financial information for the City as a whole. The primary government and the discretely presented component units are presented separately within these financial statements with the focus on the primary government. All City funds, excluding the fiduciary activities and component units that are fiduciary in nature, are included at the government-wide reporting level. Individual funds are not displayed but the statements distinguish governmental activities, generally supported by taxes and City general revenues, from business-type activities, generally financed in whole or in part with fees charged to external customers.

The statement of net assets presents the financial position of the governmental and business-type activities of the City and its discretely presented component units at year-end. This statement is presented in a classified format.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the City's governmental activities and for each identifiable activity of the business-type activities of the City. Direct expenses are those that are specifically associated with a function and therefore clearly identifiable to that particular function. The City does not allocate indirect expenses to functions in the statement of activities.

The statement of activities reports the expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. Program revenues include: (1) charges for services which report fees and other charges to users of the City's services and fines; (2) operating grants and contributions which finance annual operating activities including restricted investment income; and (3) capital grants and contributions which fund the acquisition, construction, or rehabilitation of capital assets. These revenues are subject to externally imposed restrictions to these program uses. For identifying to which function program revenue pertains, the determining factor for *charges for services* is which function *generates* the revenue. For *grants and contributions*, the determining factor is to which functions the revenues are *restricted*.

Taxes and other revenue sources not properly included with program revenues are reported as general revenues of the City. The comparison of direct expenses with program revenues identifies the extent to which each governmental function and each identifiable business activity is self-financing or draws from the general revenues of the City.

**Fund Financial Statements** - During the year, the City segregates transactions related to certain City functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the City at this more detailed level. Fund financial statements are provided for governmental, proprietary, and fiduciary funds.

Major individual governmental and enterprise funds are reported in separate columns with composite columns for nonmajor funds. Fiduciary funds are reported by type.

**Fund Accounting** - The City uses funds to maintain its financial records during the year. A fund is a fiscal and accounting entity with a self-balancing set of accounts. The City uses three categories of funds: governmental, proprietary and fiduciary.

**Governmental Funds** - Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Fund liabilities are assigned to the fund from which they will be liquidated. The City reports the difference between governmental fund assets and liabilities as fund balance. The following are the City's major governmental funds:

**City of Calhoun, Georgia**  
**Notes to the Basic Financial Statements**  
**For the Fiscal Year Ended June 30, 2012**

**General Fund** - The general fund accounts for and reports all financial resources not accounted for and reported in another fund.

**School Bond Debt Service Fund** – This governmental fund accounts for the debt payments on school bonds and the accumulation of resources from ESPLOST revenue to make debt payments.

**2011 School Bond Capital Project Fund** – This governmental fund accounts for the issuance of bonds and the construction of a new high school and middle school.

**Proprietary Funds** - Proprietary fund reporting focuses on the determination of operating income, changes in net assets, financial position and cash flows. The City's proprietary funds are classified as enterprise funds. The following are the City's major enterprise funds:

**Electric System Enterprise Fund** – This major enterprise fund is used to account for the operations of the City's electric distribution system.

**Water and Sewerage System Enterprise Fund** - This major enterprise fund is used to account for the operations of the county-wide water treatment distribution system and wastewater treatment, primarily within the City limits.

**Internal Service Fund** – This fund provides support services to the various City departments.

**Fiduciary Funds** - Fiduciary fund reporting focuses on net assets. The City's fiduciary funds include its single employer pension trust fund, cemetery trust fund, and an agency fund. The pension trust fund is the "City Charter Unfunded Retirement Plan." The cemetery trust fund is a perpetual care trust held for the future maintenance of the cemeteries. The agency fund accounts for the activity of traffic and municipal ordinance violations resulting in fines for offenses occurring with the City. This fund is custodial in nature (assets equal liabilities) and does not involve measurement of results of operations.

***1-C. Measurement Focus***

**Government-wide Financial Statements** - The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the City are included on the statement of net assets. The statement of activities reports revenues and expenses.

**Fund Financial Statements** - All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the governmental fund statements.

Like the government-wide statements, all proprietary fund types are accounted for on a flow of economic resources measurement focus on both financial reporting levels. All assets and all liabilities associated with the operation of these funds are included on the statements of net assets. The statements of changes in fund net assets present increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the City finances and meets the cash flow needs of its proprietary activities.

The City's pension trust fund uses the flow of economic resources at the fund reporting level. The statement of changes in fiduciary net assets includes additions and deletions to the pension trust fund's net assets. The agency fund does not have a measurement focus.

**City of Calhoun, Georgia**  
**Notes to the Basic Financial Statements**  
**For the Fiscal Year Ended June 30, 2012**

**1-D. Basis of Accounting**

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. At the fund reporting level, governmental funds use the modified accrual basis of accounting and fiduciary funds use the accrual basis of accounting. Proprietary funds use the accrual basis of accounting at both reporting levels. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

**Revenues – Exchange Transactions** - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded when the exchange takes place and in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the City, the phrase “available for exchange transactions” means expected to be received within 60 days of the balance sheet date.

**Revenues - Non-exchange Transactions** - Non-exchange transactions in which the City receives value without directly giving equal value in return, include sales tax, property taxes, grants, and donations. On an accrual basis, revenue from sales taxes is recognized in the period in which the taxable sale takes place. Revenue from property taxes is recognized in the fiscal year for which the taxes are levied. (Note 3-C) Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the City must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the City on a reimbursement basis. On a modified accrual basis, all revenue from non-exchange transactions also must be available (i.e., collected within 60 days) before it can be recognized.

Under the modified accrual basis, the following primary revenue sources are considered to be susceptible to accrual: property taxes, sales taxes, franchise taxes, insurance premium taxes, fines, interest and charges for services.

**Deferred/Unearned Revenue** - Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

On governmental fund financial statements (i.e., on the modified accrual basis), receivables that will not be collected within the available period have been reported as deferred revenue (i.e., they are measurable but not available) rather than as revenue.

Property taxes, fines and the sale of cemetery plot receivables not collected within 60 days of year-end have been recorded as deferred revenue at the fund reporting level. Grants and entitlements received before the eligibility requirements are met (e.g., cash advances) also are recorded as deferred revenue at both reporting levels.

Deferred revenue for governmental fund types is reclassified as “*unearned revenue*” on the government-wide statement of net assets.

**Expenses/Expenditures** - On the accrual basis of accounting, expenses are recognized at the time they are incurred. On the modified accrual basis, expenditures generally are recognized in the accounting period in which the related fund liability is incurred and due, if measurable.

**1-E. Assets, Liabilities and Fund Equity**

**1-E-1 Cash, Cash Equivalents, and Investments**

Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the City.

Investments are stated at fair value based on quoted market prices.

**City of Calhoun, Georgia**  
**Notes to the Basic Financial Statements**  
**For the Fiscal Year Ended June 30, 2012**

Georgia law authorizes the City to invest in the following type of obligations:

- Obligations of the State of Georgia or of any other states
- Obligations of the United States Government
- Obligations fully insured or guaranteed by the United States Government or governmental agency
- Obligations of any corporation of the United States Government
- Prime bankers' acceptances
- The State of Georgia local government investment pool (i.e., Georgia Fund I)
- Repurchase agreements
- Obligations of the other political subdivisions of the State of Georgia

Notwithstanding these provisions of state statutes, local retirement system funds may be invested and reinvested subject to all terms, conditions, limitations, and restrictions imposed by the laws of Georgia upon domestic life insurance companies in making and disposing of their investments.

State statutes require all deposits to be collateralized by depository insurance, obligations of the United States or certain obligations guaranteed by the U. S. Government, obligations of the State of Georgia or bonds of public or development authorities, counties, or municipalities of the State of Georgia. The acceptable collateral pledged in the City's name is composed of bonds of U. S. Government agencies and bonds of the State of Georgia and its public authorities, counties and municipalities.

It is the City's policy that any investment or deposit in excess of the Federal Deposit Insurance Corporation (FDIC) insured amount must be secured by 110% of an equivalent amount of State or U.S. Obligations.

***1-E-2 Receivables***

All trade and property tax receivables are reported net of an allowance for uncollectibles, where applicable. Unbilled utility charges are accrued as receivables and revenue at June 30, 2012. The delinquent taxes receivable account represents past years of uncollected tax levies. The allowance for estimated uncollectibles is estimated at .76% of the tax digests for fiscal years ended June 30, 2008-2012, in addition to 100% of the receivable for all fiscal years prior to 2008.

***1-E-3 Interfund Balances***

On the fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables." These amounts are eliminated in the governmental and business-type activities columns of the statement of net assets, except for any net residual amounts due between governmental and business-type activities, which are reclassified and presented as internal balances.

***1-E-4 Consumable Inventories***

On the government-wide statement of net assets, inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used (i.e., the consumption method).

On the fund financial statements, inventories are stated at lower of cost or market for proprietary funds with cost determined on a first-in, first-out basis. Inventories of the proprietary funds are expensed when consumed.

***1-E-5 Prepaid Items***

Payments made to vendors for services that will benefit periods beyond June 30, 2012, are recorded as prepaid items at both reporting levels using the consumption method by recording an asset for the prepaid amount and reflecting the expenditure/expense in the year in which services are consumed. At the fund reporting level, an equal amount of fund balance is reserved as this amount is not available for general appropriation.

***1-E-6 Restricted Assets***

Restricted assets represent resources segregated as required by bond ordinances, lease agreements and policies of the City.

**City of Calhoun, Georgia**  
**Notes to the Basic Financial Statements**  
**For the Fiscal Year Ended June 30, 2012**

**1-E-7 Capital Assets**

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in governmental funds. The City reports these assets in the governmental activities column of the government-wide statement of net assets but does not report these assets in the governmental fund financial statements. Capital assets utilized by enterprise funds are reported both in the business-type activities column of the government-wide statement of net assets and in the enterprise funds' statement of net assets. The City owns and reports all School District land and buildings.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The City maintains a capitalization threshold of five thousand dollars and twenty thousand dollars for infrastructure expenditures. The City's infrastructure consists of roads, curbs and gutters, sidewalks, bridges, drainage, traffic signals, water and sewer lines and the electric distribution systems. Improvements to capital assets are capitalized. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are expensed. Interest incurred during the construction of capital assets utilized by the enterprise funds is capitalized.

All reported capital assets are depreciated except for land and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the City's historical records of necessary improvements and replacement. Depreciation is computed using the straight-line method over the following useful lives:

Asset Class	Estimated Lives		
	Governmental Activities	Business-type Activities	Component Unit
Buildings	20-50 Years	---	---
Improvements other than buildings	15-25 Years	15-25 Years	---
Buildings, plants, tanks	---	20-50 Years	---
Utility systems	---	20-50 Years	---
Machinery and equipment	5-25 Years	5-25 Years	5-10 Years
Vehicles	4-6 Years	4-6 Years	5-10 Years
Infrastructure	30-60 Years	---	---

At the inception of capital leases at the governmental fund reporting level, expenditures and an "other financing source" of an equal amount are reported at the net present value of future minimum lease payments.

**1-E-8 Compensated Absences**

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means.

Unused vacation leave rights expire at the end of the year in which earned. Unused sick leave benefits are paid annually and therefore do not accumulate. All amounts accrued relative to these benefits are paid in December each year.

All compensated absence liabilities include salary-related payments, where applicable.

The total compensated absence liability is reported on the government-wide financial statements for both governmental activities and business-type activities. Proprietary funds report the total compensated liability in each individual fund at the fund reporting level. Governmental funds report the compensated absence liability at the fund reporting level only "when due."

**City of Calhoun, Georgia**  
**Notes to the Basic Financial Statements**  
**For the Fiscal Year Ended June 30, 2012**

**1-E-9 Accrued Liabilities and Long-term Obligations**

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of these funds. However, compensated absences, claims and unfunded pension benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are “due for payment” during the current year. Bonds and capital leases are recognized as a liability in the governmental fund financial statements “when due”.

**1-E-10 Bond Premiums, Discounts and Issuance Costs**

On the government-wide statement of net assets and the proprietary fund type statement of net assets, bond premiums and discounts are netted against bonds payable and bond issuance costs are reported as deferred charges. On the government-wide and proprietary fund type statement of activities, bond premiums and discounts and bond issuance costs are deferred and amortized over the life of the bonds using the effective interest method.

At government fund reporting level, bond premiums and discounts are reported as other financing sources and uses, separately from the face amount of the bonds issued. Bond issuance costs are reported as debt service expenditure.

**1-E-11 Fund Equity**

Fund equity at the governmental fund financial reporting level is classified as “fund balance.” Fund equity for all other reporting is classified as “net assets.”

**Fund Balance** – Generally, fund balance represents the difference between the current assets and current liabilities. In the fund financial statements, governmental funds report fund classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. A vote by Council is required to be taken to establish any type of restriction on fund balance, modify the restriction or release it. Fund balances are classified as follows:

- **Nonspendable** – Fund balances are reported as nonspendable when amounts cannot be spent because they are either (a) not in spendable form (i.e., items that are not expected to be converted to cash) or (b) legally or contractually required to be maintained intact.
- **Restricted** – Fund balances are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.
- **Committed** – Fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed by formal action of the City Council.
- **Assigned** – Fund balances are reported as assigned when amounts are constrained by the City’s intent to be used for specific purposes, but are neither restricted nor committed. Through resolution, the City Council has authorized the City’s finance committee or the City’s Finance Director to assign fund balances.
- **Unassigned** – Fund balances are reported as unassigned as the residual amount when the balances do not meet any of the above criteria. The City reports positive unassigned fund balance only in the general fund. Negative unassigned fund balance may be reported in all funds.

**Flow Assumptions** – When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the City’s policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the City’s policy to use fund balance in the following order:

- Committed
- Assigned
- Unassigned

**City of Calhoun, Georgia**  
**Notes to the Basic Financial Statements**  
**For the Fiscal Year Ended June 30, 2012**

**Net Assets** - Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt, consists of capital assets, net of accumulated depreciation, plus any outstanding balances of borrowings not yet expended, but restricted for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. All other net assets are reported as unrestricted.

The City applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

**1-E-12 Operating Revenues and Expenses**

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. For the City, these revenues are charges to customers for water and sewerage services, electricity, golf course and associated rental fees, fees for telecommunications services and services for solid waste management. The water and sewer fund also recognizes as operating revenues the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses, including operating grants, investment earnings, interest expense and the gain or loss on the disposition of capital assets.

**1-E-13 Contributions of Capital**

Contributions of capital in proprietary fund financial statements arise from transfers from capital assets of governmental activities, outside contributions of capital assets, tap-on fees to the extent they exceed the cost of the connection to the system, or from grants or outside contributions of resources restricted to capital acquisition and construction.

**1-E-14 Interfund Activity**

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses section in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Transfers between governmental and business-type activities on the government-wide statement of activities are reported as general revenues. Transfers between funds reported in the governmental activities column are eliminated. Transfers between funds reported in the business type activities column are eliminated.

The general fund charges each of the enterprise funds and the recreation fund for specific payroll and other administrative costs that relate to these funds. As interfund reimbursements, these charges are required to be reported "net" as reductions of expenditures in the general fund. These reimbursements are internal accounting adjustments used to reallocate expenditures or expenses to the appropriate fund. The utility internal service fund charges the electric, water & sewerage system, telecom, and general funds various costs that represent operating expenses and the utility internal service fund records these interfund services provided as revenue.

**1-E-15 Estimates**

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States, requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

**1-E-16 Comparative Data**

Comparative total data for the prior year have been presented for individual funds in the fund financial statements in order to provide an understanding of the changes in the financial position and operations of these funds. Certain immaterial amounts presented in the prior year data have been reclassified to provide more comparative date.

**City of Calhoun, Georgia**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2012*

***Note 2 – Stewardship, Compliance and Accountability***

**2-A. Budgetary Information** – Annual appropriated budgets are prepared for all governmental funds except capital project funds.

Project budgets also are adopted for the capital project funds. The budget is prepared on a modified accrual basis with budget items for capital outlay and debt service in all funds. Unspent appropriations lapse at year-end.

The budget officer can make reallocation of budgeted amounts within a department; however, any reallocations between departments within a fund or any increase in the total departmental appropriation within a fund require City Council approval. The City Council amended the original appropriations for fiscal year 2012 for some funds.

***Note 3 - Detailed Notes on All Funds***

**3-A. Deposits and Investments**

The City has adopted investment policies, which address the specific deposit or investment risks presented below.

**Custodial Credit Risk – Deposits** – the custodial credit risk for deposits is the risk that, in the event of a bank failure, the City's deposits may not be recovered. It is the City's policy that any investment or deposit in excess of the FDIC insured amount must be secured by 110% of an equivalent amount of State or U.S. Obligations, with the exception of the Municipal Competitive Trust, pension trust fund and cemetery trust fund.

At June 30, 2012, the carrying amount of the City's deposits, not including cash on hand, was \$46,637,956 and the related bank balances totaled \$47,060,804. All bank balances were covered by Federal Depository Insurance or by collateral held by the City's agent.

Cash on hand at June 30, 2012 was \$6,338.

***Primary Government's Investments***

**Interest Rate Risk** – Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment.

At June 30, 2012, the City's investments included \$16,120,637 held in the First Union MEAG Flexible Operating Trust. The MCT investment is restricted to specific uses, as designated in the operating trust. All of the holdings of the MCT are fixed income (bond) investments and all are either direct obligations of or otherwise guaranteed by the government of the United States or one of its agencies, corporations, or instrumentalities. An institutional US Government Money Market Fund is also used in these accounts and that Fund invests in similar US Government obligations. MCT reports interest rate risk using a duration measure. The pension trust fund is monitored and managed by the Georgia Municipal Association.

**Credit Quality Risk** – Credit quality risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. It is the City's policy to invest in non-negotiable certificates of deposit and money market accounts that are covered by FDIC insurance or pledged collateral. The Council has also authorized investments in the MCT and the pension trust. The municipal competitive trust is not rated.

**Foreign Currency Risk** – The risk that changes in foreign currency exchange rates will adversely affect cash flows or the fair value of hedging derivative instrument or the associated hedged item. The City has not adopted a policy regarding foreign currency risk.

**City of Calhoun, Georgia**  
**Notes to the Basic Financial Statements**  
**For the Fiscal Year Ended June 30, 2012**

**Cash and Investment Reconciliation:**

	Cash and Cash Equivalents	Investments
Fund Reporting Level:		
Governmental Funds - Balance Sheet	\$ 31,773,922	\$ -
Proprietary Fund Type Statement of Net Assets	11,890,502	-
Proprietary Fund Type Statement of Net Assets - Restricted	2,952,332	16,120,637
Fiduciary Fund Type Statement of Net Assets	21,200	-
Total	\$ 46,637,956	\$ 16,120,637

**3-B. Receivables**

Receivables at June 30, 2012, consisted of taxes, interest, accounts (billings for user charges, including unbilled utility receivables), and intergovernmental receivables arising from grants.

Receivables and payables are recorded on the City's financial statements to the extent that the amounts are determined to be material and substantiated not only by supporting documentation, but also by a reasonable, systematic method of determining their existence, completeness, valuation, and in the case of receivables, collectibility.

At June 30, 2012, the amount of allowance for uncollectibles was \$902,986.

**3-C. Property Taxes**

Generally, property taxes attach as an enforceable lien on property as of January 1. The City Council levied property taxes September 26, 2011. Property taxes were billed on October 20, 2011 and were payable on December 31, 2011. The lien date was June 15, 2012.

**3-D. Restricted Assets**

The following are the details of the restricted assets for the enterprise funds:

Cash		
Constuction bonds	\$	38,705
Utility deposits of customers		1,549,819
Water and sewerage debt service		1,363,808
Total Cash		2,952,332

**3-F. Interfund Balances and Transfers**

**Interfund Balances** - Interfund balances at June 30, 2012, consisted of the following amounts and represent charges for services or reimbursable expenses. These remaining balances resulted from the time lag between the dates that (1) interfund goods or services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting period, and (3) payments between funds are made. The City expects to repay all interfund balances within one year.

\* Capital transfer from electric to telecommunications. I have this reflected on the statements immediately after income before contributions and transfers.

funds in accordance with budgetary authorizations; to segregate money for anticipated capital projects; to provide additional resources for current operations or debt service; and to return money to the fund from which it was originally provided once a project is completed.

Historically, the Mayor and City Council appropriate transfers from City Utilities to the General Fund. A four percent franchise fee and an amount representing the lease of assets is transferred monthly. These transfers are intended to offset public safety/works costs which are impacted by the heavy industrial base present within the city limits of Calhoun.

**3-G. Landfill Post-closure Care**

The City's industrial landfill was closed under Georgia Environmental Protection Division (EPD) guidelines in 1992. During that year, eleven ground water monitoring wells and three surface water locators were installed under EPD *Solid Waste Guidelines*. The City has monitored the site and will continue such monitoring, as prescribed by the EPD guidelines. Annual costs associated with these requirements are estimated at \$25,000 each year for the remaining six years of required monitoring. This annual estimate is based on costs experienced during the initial years of required monitoring. The liability for these costs is reported in the solid waste fund. In the future, significant economic inflation or deflation, technology or applicable laws or regulations may change future estimates of the liability. The estimate of post-closure liability may change from year to year and the change in estimate is a component of net income in the year of revision.

**3-H. Long-Term Debt**

The City has issued general obligation bonds to provide funds for the acquisition and construction of major capital facilities, including the renovation and expansion of educational facilities within the City. General obligation bonds are direct obligations and pledge the full faith and credit of the City. The City has issued revenue bonds where the City pledges income derived from the acquired or constructed assets to pay debt service. Also, the City is obligated for notes payable, capital leases, claims, an unfunded pension plan, and landfill post-closure liabilities. Arbitrage rules apply to the tax-exempt debt issued by the City.

**City of Calhoun, Georgia**  
**Notes to the Basic Financial Statements**  
**For the Fiscal Year Ended June 30, 2012**

**Governmental Activities Debt** – The following is a summary of the outstanding debt for the City’s governmental activities.

**Bonds** - On March 9, 2000, the City issued \$4,857,800 in Calhoun Recreation Authority refunding revenue bonds at an interest rate of 4.16%. The City issued the bonds to advance refund \$4,470,000 of the outstanding series 1992 Calhoun Recreation Authority revenue bonds with interest rates ranging between 4.7% and 6.125%. The bonds from the refunded 1992 issue are fully retired. Annual debt service requirements to amortize the 2000 series bonds at June 30, 2012 are as follows:

Fiscal Year	Principal	Interest	Total
2013	\$ 292,300	\$ 75,128	\$ 367,428
2014	307,300	62,656	369,956
2015	316,700	49,677	366,377
2016	330,600	36,213	366,813
2017	343,800	22,185	365,985
2018	361,400	7,517	368,917
Total	<u>\$ 1,952,100</u>	<u>\$ 253,376</u>	<u>\$ 2,205,476</u>

In fiscal 2002, the City issued \$14,995,000, in school general obligation bonds. These bonds bear interest rates ranging from 3% to 5% and mature in December 2021. On February 24, 2003, the City issued an additional \$5,000,000 in school general obligation bonds. The bonds bear interest at rates ranging from 3.5% to 4.25% and mature in October 2021. These bonds are being used to finance construction for the City’s schools and will be repaid, in part, from special sales taxes currently approved and being assessed within the City.

In fiscal 2011, the City issued \$21,000,000 in school general obligation bonds. These bonds bear interest at a rate of 5.12% and mature in September 2025. These bonds are being used to finance construction for the City’s schools and will be repaid, in part, from special sales taxes currently approved and being assessed within the City.

Annual debt service requirements to amortize the school bonds at June 30, 2012 are as follows:

Fiscal Year	Principal	Interest	Total
2013	\$ 695,000	\$ 1,458,089	\$ 2,153,089
2014	765,000	1,429,259	2,194,259
2015	840,000	1,396,766	2,236,766
2016	915,000	1,360,316	2,275,316
2017	1,000,000	1,319,700	2,319,700
2018-2022	6,470,000	5,810,044	12,280,044
2023-2026	21,000,000	2,092,993	23,092,993
Total	<u>\$ 31,685,000</u>	<u>\$ 14,867,167</u>	<u>\$ 46,552,167</u>

**Capital Leases** –In fiscal year 2007, the City entered into a capital lease for a new fleet of police patrol cars. The financing period is 5 years at a 4.03% interest rate. Cost of the patrol cars total \$696,540. In fiscal 2008, the City entered into a capital lease for a fire platform truck in the amount of \$694,872. The financing period is 7 years at an interest rate of 3.58%. In fiscal year 2009, the City entered into a capital lease for a fire pumper truck in the amount of \$392,733 for a period of 7 years at 3.6%.

**City of Calhoun, Georgia**  
**Notes to the Basic Financial Statements**  
**For the Fiscal Year Ended June 30, 2012**

Annual debt service requirements to amortize these capital leases at June 30, 2012 are as follows:

Fiscal Year	Principal	Interest	Total
2013	\$ 161,780	\$ 14,133	\$ 175,913
2014	167,676	8,237	175,913

2016	21,029	158	21,187
Total	<u>\$ 467,673</u>	<u>\$ 25,074</u>	<u>\$ 492,747</u>

The assets acquired through these capital leases are as follows:

Asset	Governmental Activities
Machinery and equipment	\$ 1,784,145
Less: accumulated depreciation	<u>(1,074,997)</u>
Total	<u>\$ 709,148</u>

**Business-type Activities Debt** – The following is a summary of the outstanding debt for the City’s business-type activities.

**Bonds** –On July 15, 2004, the City issued Water and Sewerage Revenue Refunding Bonds, Series 2003 in the amount of \$4,125,000. Proceeds from this issue repaid a temporary loan from March 2004 in the amount of \$4,025,000, used to purchase approximately 100 acres and a spring known as “Big Springs.” This purchase was to provide additional water resources for the future of the City of Calhoun. The issue is a private placement issue and bears interest at a rate of 3.6%.

Maturities and debt service requirements remaining on the bond issue at June 30, 2012 are as follows:

Fiscal Year	Principal	Interest	Total
2013	\$ 200,000	\$ 94,860	\$ 294,860
2014	205,000	87,660	292,660
2015	215,000	80,280	295,280
2016	220,000	72,540	292,540
2017	230,000	64,620	294,620
2018-2022	1,280,000	192,780	1,472,780
2023	<u>285,000</u>	<u>10,260</u>	<u>295,260</u>
Total	<u>\$ 2,635,000</u>	<u>\$ 603,000</u>	<u>\$ 3,238,000</u>

On April 14, 2008, the City issued Water and Sewerage Revenue Refunding Bonds, Series 2008 in the amount of \$4,775,000. Proceeds from this issue prepaid GEFA loans in the amount of \$981,486 with interest rates ranging between 4.8% and 5.12% and will also finance the construction of the automated meter reading system. The issue is a private placement issue and bears interest at a rate of 2.396%. There was a total savings on this refunding of \$130,623. The present value of this savings is \$97,621 and this is 9.95% of the refunded GEFA loans.

**City of Calhoun, Georgia**  
**Notes to the Basic Financial Statements**  
**For the Fiscal Year Ended June 30, 2012**

Maturities and debt service requirements remaining on the bond issue at June 30, 2012 are as follows:

Fiscal Year	Principal	Interest	Total
2013	\$ 1,000,000	\$ 23,960	\$ 1,023,960

On September 28, 2011, the City issued Water and Sewerage Revenue Refunding Bonds, Series 2011 in the amount of \$6,525,000. Proceeds from this issue prepaid GEFA loans in the amount of \$4,955,000 and Series 2001 Bonds in the amount of \$1,570,000 and with interest rates ranging from 4.0% to 5.0%. The present value of the savings on the refunding of the bonds was \$150,723 and it was \$281,172 on the notes for a total of \$431,895 which was 6.7% of the refunded debt. The issue is a private placement issue and bears interest at a rate of 1.935%.

Maturities and debt service requirements remaining on the bond issue at June 30, 2012 are as follows:

Fiscal Year	Principal	Interest	Total
2013	\$ 925,000	\$ 112,423	\$ 1,037,423

	<b>\$ 13,350,751</b>	<b>\$ 3,107,867</b>	<b>\$ 16,458,618</b>

**Landfill Post-closure Care**

As described in detail in note 3-H, the City's industrial landfill was closed under Georgia Environmental Protection Division (EPD) guidelines in 1992. Estimated maturities of the post-closure costs recorded as long-term debt in the solid waste enterprise fund are as follows:

Fiscal Year	Principal	Interest	Total
2013	\$ 23,096	\$ 1,904	\$ 25,000
2014	23,558	1,442	25,000
2015	24,029	971	25,000
2016	24,510	490	25,000
	<b>\$ 95,193</b>	<b>\$ 4,807</b>	<b>\$ 100,000</b>

**City of Calhoun, Georgia**  
**Notes to the Basic Financial Statements**  
**For the Fiscal Year Ended June 30, 2012**

**Changes in Long-term Debt** - Changes in the City's long-term obligations consisted of the following for the year ended June 30, 2012:

	Outstanding 7/1/2011	Additions	Reductions	Outstanding 6/30/2012	Amounts Due in One Year
<b>Governmental Activities</b>					
Revenue bonds	\$ 2,233,900	\$ -	\$ 281,800	\$ 1,952,100	\$ 292,300
School bonds	32,320,000	-	635,000	31,685,000	695,000

The Recreation Authority revenue bonds principal and interest are paid by the general fund transferring resources to the debt service funds. The school bonds principal and interest are paid by the school bonds debt service fund. The governmental activities capital leases are being repaid from the general fund. Claims and pension liabilities are being repaid from the general fund and the water and sewerage funds. Amounts on landfill closure costs are being repaid from the solid waste enterprise fund. Principal and interest payments related to the City's water & sewerage system enterprise fund are financed from income derived from the operation of the water and sewerage system. Governmental compensated absences are primarily repaid from the general fund. Enterprise compensated absences are primarily paid out of the water and sewer fund.

**3-I. Pension Plans**

**Primary Government**

The City participates in four pension plans, three of which became effective July 1, 2004, and which effectively replaced the City of Calhoun Employees' Pension Plan adopted by the City in 1981, as amended in 1996. The fourth plan is the City Charter Unfunded Retirement Plan which includes retired employees who chose to remain in this plan in 1981 when the City of Calhoun Employees' Pension Plan was established.

**Plans Administered through the Georgia Municipal Association**

This plan is a defined benefit plan that covers all full-time City employees (30 hours weekly or more) who have been employed for one year or more, plus current elected officials. The plan goes forward covering service from July 1, 2003, plus it will cover current employees with service prior to July 1, 1981. Normal retirement age will be 65, with 5 years of credited service. Early

**City of Calhoun, Georgia**  
**Notes to the Basic Financial Statements**  
**For the Fiscal Year Ended June 30, 2012**

retirement age will be 55, with 10 years of credited service, and benefits will be lower than those paid to employees retiring at normal retirement age. The benefit formula for regular employees will be 1.5% of wages contributed by the City. The benefit level for elected officials will be \$50 per year of service, with a cap not to exceed 100% of final base wages. The plan will be funded 100% by the City. This plan is not eligible for roll-over.

**Plan Description** - The City's defined benefit pension plan, the City of Calhoun Retirement Plan (the "Plan"), provides retirement and disability benefits and death benefits to plan members and beneficiaries. The Plan is affiliated with the Georgia Municipal Employees Benefit System (the "System"), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for cities in the State of Georgia. The City is assigned the authority to establish and amend benefit provisions of the Plan. The System issues a publicly available financial report that includes financial statements and required supplementary information. The report can be obtained by writing to Georgia Municipal Association, Risk Management and Employee Benefit Services, 201 Pryor Street, SW, Atlanta, Georgia 30303 or by calling (404) 688-0472.

**Funding Policy** - Employees are not required to contribute to the Plan. The City is required to contribute at an actuarially determined rate. The minimum annual contribution requirements of the City are established by Public Retirement Systems Standards Law (Georgia Code Section 47-20-10).

**Annual Pension Cost and Net Pension Obligation** - For 2012, the City's annual pension cost of \$731,077 for the plan was equal to the City's required and actual contributions, based on fiscal year, which differs from the actuarial year. The actuarial valuation date was changed from March 1 to January 1 in fiscal year 2010. The required contribution was determined as part of the January 1, 2012, actuarial valuation using the projected unit credit actuarial cost method. The actuarial assumptions included (a) 7.75% investment rate of return and (b) projected salary increases of 3.5% per year for inflation. The asset valuation method is the sum of actuarial value at the beginning of the year and the cash flow during the year plus the assumed investment return, adjusted by 10% of the amount that the value exceeds or is less than the market value at the end of year. The actuarial value is adjusted, if necessary, to be within 50% of market value for 2009, 44% of market value for 2010, 38% of market value for 2011, 32% of market value for 2012, 26% of market value for 2013, and 20% of market value for 2014 and later years. The remaining amortization period varies for the bases, with a net effective amortization period of 15 years. These amortization periods, if applicable, are closed for this plan year. The amortization method is closed level dollar.

Actuarial Valuation Date	(1) Actuarial Value of Assets	(2) Actuarial Accrued Liability (AAL)	(3) Funded Ratio (1)/(2)	(4) Unfunded AAL/(UAAL) (2)-(1)	(5) Annual Covered Payroll	UAAL as a Percentage of Covered Payroll
3/1/2007	1,841,950	2,988,371	61.6%	1,146,421	9,115,481	12.6%

Schedule of Employer Contributions

Actuarial Valuation Date	Annual Required Contribution	Percentage Contributed	Annual Pension Cost	Percentage Contributed
1/1/2009	757,724	100%	735,285	100%
1/1/2010	756,671	100%	744,457	100%
1/1/2011	742,653	100%	731,077	100%

Participation in this plan is comprised of the following as of the valuation date of January 1, 2011:

Retirees and beneficiaries receiving benefits	37
Terminated plan members entitled to, but not yet receiving benefits	33
Active plan members	258
Total	<u>328</u>

**City of Calhoun, Georgia**  
**Notes to the Basic Financial Statements**  
**For the Fiscal Year Ended June 30, 2012**

**Defined Contribution Plan** – This pension plan is a defined contribution plan, which allowed roll-over of the plan assets at June 30, 2003, from the plan administered by AmSouth Bank in Birmingham, Alabama, which was the City’s primary plan through June 30, 2003. The employees did not make additional contributions to these funds after June 30, 2003; however, the City provided the final matching amount for fiscal year ended June 30, 2003, during fiscal 2004 in the amount of \$371,444. The plan was effective as of July 1, 2003, and upon transfer, the funds were invested at GMA in the Citistreet Program with investments being directed by the employee. No new funds, other than earnings, are paid into the plan. The plan will accept the current life insurance policies, and GMA will administer these as part of the plan. The plan is eligible for rollover at termination or retirement.

**Deferred Compensation Plan** - The third plan is the 457(b) plan of deferred compensation that will be funded 100% by the employees. The plan calls for volunteer contribution up to the levels allowed by the IRS. The cost of the plan will be borne by the participating employees. The funds will be invested under the Citistreet Program at GMA, and the employee will direct such investments. The employee will have a “one-time” opportunity to buy whole life insurance without a physical when joining the plan. The plan is portable and eligible for rollover.

**City Charter Unfunded Retirement Plan - Single Employer Defined Benefit Pension Plan**

**Plan Description. Contribution Information and Funding Policies** - Prior to the adoption of the City of Calhoun Employees' Pension Plan, the City Charter provided that an employee with thirty years of service should be retired and receive a pension at a rate of 60 percent of the highest pay per year. Benefits are funded via annual budget appropriations. The amounts are disbursed on a weekly basis, and are reflected as contributions made and benefits paid in plan financial statements. The Charter did not require payments to beneficiaries. The Charter did not mandate any funding requirements, i.e., employer/employee contributions. Upon the adoption of the new plan, effective July 1, 1981, employees made irrevocable decisions regarding their plan choice. Only current covered employees are eligible for coverage.

Participation in this plan is comprised of the following:

	June 30, 2012
Retirees Currently Receiving Benefits:	
General government	2
Culture and recreation	1
Water and sewerage system	1
Total Retirees Currently Receiving Benefits	4
Active Employees - Fully Vested	---
Active Employees - Nonvested	---
Terminated Employees, entitled to benefits, but not yet receiving benefits	---

**Plan Assets, Annual Pension Cost and Net Pension Obligation** - There are no assets legally reserved for future funding of the obligations associated with this defined benefit plan. All obligations, including administrative costs, of the plan are paid in conjunction with appropriated annual budgets of funds, which experience costs associated with this plan. The plan is reported in the City’s financial statements as a pension trust fund and the actuarial valuation is available as a separate report. A separate audited financial report is not available. Current year annual pension costs for the plan previously provided in the City Charter are shown below. Actuarial valuations are performed annually to determine the pension costs and associated net pension obligation resulting from the "pay as you go" funding called for in the charter. Benefits are recognized when due and payable in accordance with the terms of the plan. Actuarial gains and losses are amortized over a 5 year period under the closed method. The unfunded accrued actuarial liability was restated in 2007 and is also being amortized over a 5 year period. An assumption change occurred in 2008 and is being amortized over a 10 year period. Administrative costs are financed from the fund applicable to each participant. Trend information for the previous years is shown below:

**City of Calhoun, Georgia**  
**Notes to the Basic Financial Statements**  
**For the Fiscal Year Ended June 30, 2012**

Fiscal Year	Pension Costs (ARC Adjusted)	Employer Actual Plan Contributions	% of Pension Costs Contributed	Net Pension Obligation
2012	\$ 113,333	\$ 130,893	115%	\$ 770,647
2011	121,521	149,263	123%	788,207
2010	123,168	167,306	136%	815,949
2009	109,603	171,646	157%	860,087

Projected salary increases	No Active Employees
Inflation	None
Post employment retirement increases	None
Mortality	Unix's Pension 1984 Mortality Table

**City of Calhoun, Georgia**  
**Notes to the Basic Financial Statements**  
**For the Fiscal Year Ended June 30, 2012**

**3-J. Invested in Capital Assets, Net of Related Debt**

Net assets on the government-wide statement of net assets as of June 30, 2012 are as follows:

	Governmental Activities	Business Type Activities
Investments in capital assets, net of related debt:		
Cost of capital assets	\$ 109,213,042	\$ 181,658,678
Less accumulated depreciation	35,470,729	69,299,624
Book value	73,742,313	112,359,054
Less capital related debt, net of deferred refunding amounts, bond premiums and discounts	(33,971,257)	(22,602,427)
Add debt proceeds unspent at fiscal year end	11,691,633	-
Investments in capital assets, net of related debt	\$ 51,462,689	\$ 89,756,627

**Note 4 - Other Notes**

**4-A. Risk Management**

The City maintains liability insurance coverage with traditional carriers for group insurance coverage, public official liability, comprehensive law enforcement liability, commercial auto and uninsured motorists, property, public employee dishonesty, commercial general liability, and public official bond coverage. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Coverage for workers' compensation is provided through the Georgia Municipal Association (GMA) Workers' Compensation Self-Insurance Fund which is a group self-insured program authorized by state statute and administered by GMA. The fund was created in 1982 to provide workers' compensation statutory coverage to local government entities in Georgia. The fund is the largest source of workers' compensation coverage for municipal governments in Georgia with nearly 540 members. Municipalities, municipal authorities and commissions, housing authorities, regional development centers, and municipal school districts are eligible to participate in the fund. The premiums paid by the City to the fund are expensed. Other than normal audits associated with workers' compensation coverage, the risk pool has made no additional assessments to its participants since its formation. However, the legislation permitting the formation of the fund does provide for assessment of the fund's membership if contributions and surplus are not sufficient to meet operating expenses or claim loss expenses.

**4-B. Subsequent Events**

Subsequent to year end, Calhoun Utilities issued \$6,645,000 of bonds to refund \$2,585,000 of the remaining Series 2003 Water Bonds and to refund three GEFA loans with a total outstanding balance of \$4,023,682. These bonds were issued for a term of fourteen years at 2.08% at a total present value savings to the Utilities in excess of \$496,000.

**4-C. Contingent Liabilities**

**Grants** - Amounts received or receivable from grantor agencies are, subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

**Lawsuits** - The City was a defendant in lawsuits at June 30, 2012. In the opinion of City management, the outcome of these contingencies will not have a material effect on the financial position of the City.

**City of Calhoun, Georgia**  
**Notes to the Basic Financial Statements**  
**For the Fiscal Year Ended June 30, 2012**

**MEAG** - The City, together with 47 other cities and one county in the State, has entered into Power Sales Contracts dated March 1, 1976 with the Municipal Electric Authority of Georgia (MEAG) under which the City purchases certain power and energy for resale to its electric system customers. Under the contract entitlement, if the City were unable to purchase budgeted power, MEAG would be obligated to make a good faith effort to sell the power elsewhere. If MEAG were unable to sell the power at a price above its cost, the difference would be an obligation of the City. The contracts are agreements to pay the cost of generating power budgeted for the City. The obligation to pay MEAG certain amounts, whether or not power and energy are received, is a general obligation of the City to which its full faith and credit are pledged. If payments under the Power Sales Contracts are not made from revenues of the electric distribution system, the City is required under the contracts to include in its general revenue or appropriation measures sums sufficient together with other available revenues to make such payments. During the fiscal year, the City purchased electric power under these contracts for a total cost of \$26,731,878 net of off-system sales which reduced costs. Rebates of \$594,584 are reflected in the net power purchases of \$26,137,294.

On February 22, 1999, the City approved a resolution adopting the provisions of a Municipal Competitive Trust agreement between the City and MEAG. MEAG established the Trust for the mutual benefit of MEAG and its wholesale customers (Cities) who elect to become participants. The Trust was created to provide a means to mitigate the expected differential between "after deregulation" market rates for power and the associated costs of generating that power.

The Trust originally created three types of accounts that are held by MEAG in the name of the City. The flexible operating trust account includes funds that are available to the City for operating costs and rate stabilization. As of June 30, 2012, the balance in this account was \$4,241,609. The intermediate flexible operating trust account has a balance of \$83,602 as of June 30 and is somewhat restrictive in nature, but the funds are available for a variety of uses, thus this account is included on the Electric funds books. The City of Calhoun also contributed to the generation trust account which has been established to set aside funds to provide generation for the future. As of June 30, 2012, the balance in this account was \$3,549,824 for a total of \$7,875,035 to be included in current restricted investments in the electric fund.

The funds in the credit support operating account are restricted for use to offset rate increases exceeding certain criteria and for loans for capital improvements that will reduce future operating costs. The funds in the reserve funded debt account can be only applied to charges related to MEAG's bond obligations. The balance of these accounts at June 30, 2012, was \$3,364,829 and \$9,607,796, respectively. Due to the restrictive nature of these funds, neither is shown in the cash balance for the electric fund. The intermediate generation trust account provides a more restricted investment account to provide for future generation and the balance of that account at June 30, 2012 is \$8,245,602. This account has been included in long-term investments on the City's books, but is only available for very restricted purposes.

In March 2008 the City voted and signed contracts for the City to participate in the expansion of two additional generating units at Plant Vogtle thus obligating the City to future debt through MEAG in the purchase of approximately 25 megawatts of capacity. This generation is estimated to cost approximately \$3,140 per kW at present value and is estimated that it will cost approximately \$6,200 in the year 2016. The City has secured power sales agreements with other entities that will cover a substantial portion of this obligation. The City of Calhoun will maintain 10 megawatts through the life of the project and 15 megawatts were sold through a purchased power agreement for twenty years. Our allotted capacity will secure a future power resource in 2016 which should accommodate the community's power needs for the next 30 to 35 years.

**Airport Authority** - On July 8, 1996, the City and Gordon County, GA entered into an equipment purchase agreement with the Calhoun-Gordon County Airport Authority as joint lessees. The agreement was to finance fourteen T-hangars at the local airport. The City and Gordon County entered with the Airport Authority in order to guarantee financing. The lease purchase calls for monthly payments of \$1,750 totaling \$362,250, maturing in a seventeen year period. The interest rate on the obligation is 6.25%. The Authority is responsible for making payments as required by the agreement from hangar rental fees.

#### **4-D. Related Organizations**

**The City of Calhoun, Georgia, Housing Authority:** The Housing Authority has been established under federal laws to carry on activities within the City. The City does appoint board members at the recommendation of the existing board but provides no financing or participation in management or operating decisions of the Authority. The Authority issues separate, audited financial statements with a March 31 fiscal year.

**City of Calhoun, Georgia**  
**Notes to the Basic Financial Statements**  
**For the Fiscal Year Ended June 30, 2012**

**4-E. Joint Ventures**

**Northwest Georgia Regional Commission:** Under Georgia law, the City in conjunction with other cities and counties in the Northwest Georgia area, is a member of the Northwest Georgia Regional Commission (NWGRC). Membership in NWGRC is required by the Official Code of Georgia Annotated (OCGA) section 50-8-34 which provides for the organizational structure of the NWGRC. Membership in the NWGRC includes the chief elected of each county and municipality of the area. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of a NWGRC. During fiscal year 2012, the City paid dues in the amount of \$15,650 to the NWGRC. Separate financial statements may be obtained from the Northwest Georgia Regional Commission, 1 Jackson Hill Drive, Rome, Georgia 30162.

**The Calhoun-Gordon County Library:** The Calhoun-Gordon County Library is a part of the Dalton, Georgia Regional Library System. This system consists of boards from four member counties. Of the five board members comprising the Gordon County Library Board, one is an appointee of the City. Other board members represent appointees from the City and County school boards and the Gordon County Board of Commissioners. The library board retains asset/equity ownership. The City, local school boards and the Gordon County Board of Commissioners make regular contributions to the Calhoun-Gordon County Library Board. Though the City does provide various support services for the library, the City's ability to significantly influence operations is moderate or comparable in relation to influences of other governments involved. Payments/expenditures to/for the library for the fiscal year ended June 30, 2012, were \$118,061. The library issues an annual list of cash receipts and disbursements on a June 30 fiscal year basis. Separate schedules may be obtained from the Calhoun-Gordon County Library, 100 N Park Avenue, Calhoun, GA 30701.

**The Calhoun-Gordon County Airport Authority:** This Authority is a legally separate entity with full corporate powers, including power to establish rates necessary to finance any debt the Authority might incur. The City and Gordon County, Georgia appoint members of the Airport Authority. The City shares appointment powers with the County equally. The City does not significantly influence operations with contributions in excess of the County. The City and County participate in providing local funding when the Authority is recipient of grants that require matching funding. Both the City and County have entered into agreements to participate as joint lessees in order to guarantee certain debt of the Authority. Additionally, on August 1, 2001, the City, along with Gordon County, entered into an intergovernmental contract with the Calhoun-Gordon County Airport Authority. In the contract, the City and County each agree to provide one-half the debt service payments required on the Authority's 2001 bond issue. The issue, with total debt principal of \$685,000, financed construction of a new airport terminal. Debt service requirements total \$64,088, per year through the fiscal year 2016. The City's portion (one-half) of the annual debt service is \$32,044. The airport is leased to and operated by a for-profit entity. Total expenditures for the Airport Authority for fiscal 2012 were \$99,609. Separate financial statements may be obtained from the Calhoun-Gordon County Airport Authority, 1957 Hwy. 41 South, Calhoun, GA 30701.

**4-F. Hotel-Motel Lodging Tax**

The City of Calhoun levies a 5% Hotel/Motel tax in accordance with OCGA 48-13-51. Amounts levied in excess of 3% (40% of the taxes levied) are expended for the purpose of promoting tourism in accordance with OCGA 48-13-51 (a) (3).

---

This part of the City's comprehensive annual financial report presents detailed information as a context for understanding this year's financial statements, note disclosures, and supplementary information. This information has not been audited.

<b>Contents</b>	<u><b>Exhibit</b></u>
-----------------	-----------------------

<b>Financial Trends</b>	I - XIX
-------------------------	---------

These tables contain trend information that may assist the reader in assessing the City's current financial performance by placing it in a historical perspective.

<b>Revenue Capacity</b>	XX - XXX
-------------------------	----------

These tables contain information that may assist the reader in assessing the viability of the City's three most significant "own-source" revenue sources, utility charges for services, property taxes and sales taxes. Electric user charges are the primary "own revenue source." Some similiar data for the water and sewerage charges also is presented. The principal sales tax remitters information is not available from the Georgia Department of Revenue, the organization which collects the sales taxes from businesses and remits the City's share to the City.

<b>Debt Capacity</b>	XXXI - XXXVI
----------------------	--------------

These tables present information that may assist the reader in analyzing the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

<b>Demographic and Economic Information</b>	XXXVII - XXXVIII
---------------------------------------------	------------------

This table offers demographic and economic indicators that are commonly used for financial analysis and that can inform one's understanding the City's present and ongoing financial status.

<b>Operating Information</b>	XXXIX - XXXXIII
------------------------------	-----------------

These tables contain service and infrastructure indicators that can inform one's understanding how the information in the City's financial statements relates to the services the City provides and the activities it performs.

**Data Source:**

<sup>1</sup> Unless otherwise noted, the information in these tables is derived from the comprehensive annual financial reports for the relevant year. The City implemented GASB Statement No. 34 in fiscal year 2003, therefore tables presenting government-wide information include only nine years of data.

**Notes:**

<sup>1</sup> Accounting standards require that net assets be reported in three components in the financial statements: invested in capital assets, net of related debt; restricted; and unrestricted. Net assets are considered restricted only when (1) an external party, such as the State of Georgia or the federal government, places a restriction on how the resources may be used, or (2) enabling legislation is enacted by the City. There are no restrictions currently reported as a result of enabling legislation.

**Notes:**

<sup>1</sup> In fiscal year 2003, the City issued \$5,000,000 in general obligation bonds. The large reserved fund balance at June 30, 2003 relates to the unspent bond proceeds. The City issued \$21,000,000 in general obligation bonds for the school in FY 2011 that primarily was the cause for the large increase in fund balance in that year.

**Notes:**

<sup>1</sup> Taxes recognized for the year presented are reported in the subsequent fiscal year.

<sup>2</sup> Excludes homestead property exemptions. All prior years restated.

<sup>3</sup> All property is assessed at 40% of fair market value.

<sup>4</sup> Tax rates expressed in rate per \$1,000 of annual taxes values (i.e., mills). Includes the school tax levied on behalf of the Calhoun City Schools, a discretely presented component unit.

**Notes:**

<sup>1</sup> Tax rates expressed in rate per \$1,000 of annual taxes values (i.e., mills).

<sup>2</sup> Overlapping rates are those of governments that overlap the City's geographic boundaries.

<sup>3</sup> Since City property owners do not pay Gordon County school tax, this government's tax rates are not presented.

<sup>4</sup> The State of Georgia levies one quarter of one mill on each county's taxable property to help finance their certification of each Georgia county's tax digests.

<sup>5</sup> The City of Calhoun levies the property taxes for the Calhoun City Schools, a discretely presented component unit.

**Notes:**

<sup>2</sup> The local option sales tax was approved by referendum and is effective indefinitely. Both the City and the County are required to reduce their property tax millage rate in the current year by the amount of these taxes collected in the prior year.

<sup>3</sup> The current special purpose local option sales tax was approved effective April 1, 2006 and expired March 31, 2012. Another special purpose local option sales tax was approved effective April 1, 2012 and expires March 31, 2018.

<sup>4</sup> Effective January 1, 2004 the Gordon County Board of Education began levying a 1% education special purpose local option sales tax, that is allocated between the City and County Schools. The current tax was approved effective July 1, 2007 and expired June 30, 2012.

<sup>1</sup> Details regarding the City's outstanding debt can be found in the notes to the basic financial statements.

**Data Source:**

<sup>2</sup> Applicable years' comprehensive annual financial report.

<sup>3</sup> Exhibit XXXVII

**City of Calhoun, Georgia**  
**Direct and Overlapping Debt**  
*June 30, 2012*

<b>Governmental Unit:</b>	<b><u>Debt Outstanding<sup>4</sup></u></b>	<b><u>Estimated Percentage Applicable<sup>2</sup></u></b>	<b><u>Estimated Share of Overlapping Debt</u></b>
<b>Debt Repaid With Property Taxes</b>			
<b>Overlapping Governments' Debt<sup>1</sup></b>			
City Recreation Authority <sup>3</sup>	\$ 1,952,100	100.0%	\$ 1,952,100
<b>City Direct Debt</b>	32,152,673	100.0%	<u>32,152,673</u>
<b>Total Direct and Overlapping Debt</b>			<u><u>\$ 34,104,773</u></u>

**Notes:**

<sup>1</sup> Overlapping governments are those that coincide, at least in part, within the geographic boundaries of the City. Direct debt is that of the City.

<sup>2</sup> Applicable percentages were estimated by determining the portion of another government's taxable assessed value that is within the City's boundaries and dividing it by the City's total taxable assessed value.

<sup>3</sup> A blended component unit.

## REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Honorable James F. Palmer, Mayor  
and Members of the City Council  
City of Calhoun, Georgia

We have audited the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of City of Calhoun, Georgia as of and for the year ended June 30, 2012, which collectively comprise the City of Calhoun, Georgia's basic financial statements and have issued our report thereon dated December 17, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

### Internal Control Over Financial Reporting

Management of City of Calhoun, Georgia, is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered City of Calhoun, Georgia's, internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City of Calhoun, Georgia's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City of Calhoun, Georgia's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether City of Calhoun, Georgia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, City Council, others within the entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

### INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the Honorable James F. Palmer, Mayor  
and Members of the City Council  
City of Calhoun, Georgia

#### Compliance

We have audited City of Calhoun, Georgia's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of City of Calhoun, Georgia's major federal programs for the year ended June 30, 2012. City of Calhoun, Georgia's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of City of Calhoun, Georgia's management. Our responsibility is to express an opinion on City of Calhoun, Georgia's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about City of Calhoun, Georgia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of City of Calhoun, Georgia's compliance with those requirements.

In our opinion, City of Calhoun, Georgia, complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2012.

#### Internal Control over Compliance

Management of City of Calhoun, Georgia, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered City of Calhoun, Georgia's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of City of Calhoun, Georgia's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, City Council, others within the entity, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

## INDEPENDENT AUDITOR'S REPORT

To the Honorable James F. Palmer, Mayor  
And Members of the City Council  
City of Calhoun, Georgia

We have audited the accompanying Project Cost Schedules for projects constructed with Special Sales Tax Proceeds for the City of Calhoun, Georgia as of June 30, 2012. These Project Cost Schedules are the responsibility of the City of Calhoun, Georgia's management. Our responsibility is to express an opinion on the Project Cost Schedules based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance that the Project Cost Schedules are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the Project Cost Schedules. We believe that our audit provides a reasonable basis for our opinion.

The accompanying Project Cost Schedules were prepared to present each identified project and information required by Section 48-8-121 OCGA and is not intended to be a complete presentation of the City of Calhoun, Georgia's assets and liabilities.

In our opinion, the accompanying Project Cost Schedules present fairly, in all material respects, the original estimated cost of each project, expenditures incurred and the estimated percentage of completion of each project as of June 30, 2012, in conformity with accounting principles generally accepted in the United States of America.

This report is intended solely for the information and use of the Mayor and City Council, management, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
