December 31, 2013

***To the Honorable Mayor, Members of the City Council and
the Citizens of the City of Calhoun, Georgia:***

The ***Comprehensive Annual Financial Report*** (CAFR) of the City of Calhoun for the fiscal year ended June 30, 2013, is submitted herewith. This report was prepared by the City's finance department and is intended to fulfill the requirements for audit prescribed by state laws for general-purpose local governments and to fulfill Single Audit requirements of Federal and State governments. Management assumes full responsibility for the completeness and reliability of the information contained in this report, based on a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements

R. M. Dobbs & Company, Certified Public Accountants, has issued an unqualified ("clean") opinion of the City of Calhoun's financial statements for the fiscal year ended June 30, 2013. The independent auditor's report is located at the front of the financial section of this report. Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

This report includes all funds of the City. The City provides a full range of services. These services include public safety (police, fire, and animal control), construction and maintenance of roads and infrastructure, recreational and park activities. This report includes two component units: the Calhoun Board of Education and the Downtown Development Authority both of which meet the component unit criteria as set forth in GAAP. The City is financially accountable for the local support required for the City's independent school system. The activity of the Downtown Development Authority is immaterial and is, therefore, not presented on the face of the statements.

Also included in this report are the following enterprise funds: the water and sewer system fund, the electric system fund, the telecommunications fund, the Fields Ferry Golf Course fund, and the solid waste fund. In addition, the City provides economic development support through the revolving loan fund and the hotel-motel tax fund.

PROFILE OF THE GOVERNMENT

The City of Calhoun, incorporated in January 1852, is located in the northern portion of the state on I-75. The City of Calhoun occupies a land area of approximately 15 square miles and serves a residential population of approximately 15,650 and a service delivery population of approximately 55,000. The City of Calhoun is empowered to levy a property tax on both real and personal properties located within its boundaries. It is also empowered by state statute to extend its corporate limits by annexation, as deemed appropriate by the Mayor and Council.

The City of Calhoun operates under a Mayor, Council, City Administrator and General Manager form of government. Policy making and legislative authority are vested in the Mayor and Council, consisting of five members. The Mayor and Council are responsible for, among other things, passing of ordinances, zoning, adopting the budget, appointing committees, hiring the City Administrator, General Manager, and City Attorney, and for appointing the heads of various departments of the City government. The City Administrator and General Manager are responsible for carrying out the policies and ordinances adopted by the Mayor and Council and overseeing the day-to-day operations of the government. The Mayor and Council are elected on a non-partisan basis; they serve four-year, staggered terms, with two Council members elected every two years and the Mayor elected every four years. The Mayor and Council members are elected at large. However, the Council members are elected for specific Council posts; therefore, candidates seeking office declare a post number when qualifying.

The annual budget serves as the foundation for the City of Calhoun's financial planning and governmental control. All departments and agencies of the City of Calhoun are required to submit requests for appropriation to the Administrator and the Manager by the deadline established in the budget calendar approved by the Mayor and Council. The City Administrator and the General Manager use these requests as the starting point for developing a proposed budget. They present the first budget draft to the Mayor and Council at a work session in April of each year. A public hearing on the refined first draft is held in early May of each year. Following the hearing, a second draft is prepared, if necessary, and is reviewed by the Mayor and Council in a second work session. The second public hearing on the final draft is held in early June and is adopted by the Mayor and Council in late June of each year. The appropriated budget is prepared by fund, function and department. Department heads may make transfers of appropriations within divisions of a department, as approved by the budget officers, the Administrator and Manager. However, transfers from department to department and fund to fund require approval of the Mayor and Council. The annual budget also includes the City's long-term financial planning efforts in the form of a five year capital plan for each department.

MAJOR INITIATIVES

Utility division:

In May 2003, the City of Calhoun purchased "Big Springs" from the Forster H. Bates Estate at a cost of \$4,025,000, funded with a temporary bank loan and subsequently with permanent financing via a bond issue. The purchase has allowed the City to add over six million gallons of raw water per day to its system as permitted by the state. The bond issue was closed in July 2003 and the temporary bank loan was paid in full in fiscal 2004. The piping to connect the spring to the water system was budgeted for fiscal 2005, in the amount of \$655,969. Changes in EPD requirements increased the scope and price of the project, and it was delayed. The project was listed as a primary project on the SPLOST Referendum that was successfully passed by 83% of those citizens voting in November 2005. The engineering began in fiscal 2006 and the construction phase was completed in fiscal 2010. Additional land and buildings were purchased in fiscal year 2010 for approximately \$1 million dollars that will enhance the Utilities ability to utilize this spring. The filtration portion of the project was started in fiscal year 2011 with a loan from GEFA that had 30% forgiveness through the federal ARRA funding. The project is estimated to be completed in fiscal year 2014 with an additional amount of funding from GEFA.

The Water and Sewer fund refunded their 2003 Water and Sewerage Bonds and three GEFA notes during fiscal 2013 at 2.08%, with a net present value savings of \$496,118. The Water and Waste Water Department also secured low interest GEFA fund financing availability for possible accelerating of some long term infrastructure improvements. The borrowing will only be accessed where financial and engineering analysis indicate that it is cost effective.

The Telecommunications department continues to research for new technologies that will increase efficiency, reduce cost and increase customer satisfaction. As a result, additional services may be offered and service areas can be expanded. The Telecommunications department hired a GIS manager in fiscal year 2008 and subsequent to year end a technician was hired. We have made substantial progress towards fully implementing a state of the art GIS system. We were able to accomplish this during the economic slowdown allowing us to utilize existing personnel in getting the information into the system. The GIS system has provided the City with opportunities to improve mapping information, allowed public access via the City's website, and has made interactive field access available for operations personnel.

The City of Calhoun Electric fund performed work on major projects for fiscal year 2013 of approximately \$815,000 that included construction at the new high school, construction on underground primary wiring at local facilities and GDOT intersection improvements. The City has voted and signed contracts obligating the City to participate in the expansion of two additional generating units at Plant Vogtle. Our allotted capacity will secure a future power resource in 2017. An additional five year Inter Participant Transfer (IPT), facilitated through MEAG, was executed in early 2011 to bridge electric generation needs until Plant Vogtle becomes commercially operable. These transactions should accommodate the community's power needs for the next 30 to 35 years.

General Government Division:

Public Safety:

Police:

The City of Calhoun Police Department case load remains average to last year with various types of property crimes, domestic disturbances, false alarms, and traffic related incidents being the highest in numbers. Violent crime statistics are similar to other southeastern municipalities which range in 1% from the past year. The DUI arrests are up this year due to the concentrated efforts of our department in conjunction with the Governor's Office of Highway Safety. On November 15, 2013 at the Governors Office of Highway Safety awards banquet our department placed third in our category; and as a result we were awarded funds to enhance our traffic safety enforcement programs.

The police department continued to work as a partner with the Federal Bureau of Investigation's (F.B.I.) Safe Streets Program that provides Calhoun with assets such as manpower, vehicle and fuel, equipment, technical, and legal expertise for operations primarily associated with gang activity, drugs, illegal immigration, and forgery. Several federal cases worked by our department provided shared funds that were used to furnish and re-model a new office building for the Special Operations Division. This year we continue to partner with the Federal Alcohol Tobacco and Firearms division, where one of our officers is sworn as Federal Agent and is being

provided with a vehicle and fuel, at no cost to the City. Successful cases through this agency have also provided shared funds to assist the department without using City budget funds.

Fire:

The Calhoun Fire Department has an ISO 4 rating for property and casualty insurance purposes. The department has also completed construction on a training center located at Station #2. This center consists of a live fire burn building and training tower, along with other training props. This was built per ISO recommendations in the last review. The fire department has hired a Chief of Training to coordinate the department training and use of the site. These two additions will have a direct impact of helping to potentially lower the ISO rating for property and casualty insurance purposes for the City of Calhoun.

The number of structure fires within the City of Calhoun continued to decline this year, while the total number of calls continues to increase due to increased medical call requests. Fire call reduction is due in part to fire inspections, fire codes, fire prevention classes, and fire resistant building materials. While the fire department's primary mission is life safety thru fire prevention and suppression, they also service other emergency areas. Situations involving search and rescue, EMS/medical calls, vehicle accidents, industrial accidents, hazardous materials incidents and conditions (leaks, spills, toxic materials, and hazardous materials), severe weather and other incidents have caused the department to broaden its scope of operations, response, and expertise.

Public Works:

Street Department operations during fiscal year 2013 included paving on Wilco Lane, Mauldin Rd., Camelot Circle, E. May St. and the Recreation Dept. football field. These were paved through a joint agreement with Gordon County. The State LMIG Program contractor paved Saddle Mtn. Loop, Trammell St., Westwood Dr., Windy Hills Dr., Park Ave., S. McConnell Rd. and the top section of Chandler Cemetery. City funds paved an 850 ft. section of Harris Beamer Rd., 6th St. and Linda Lane. Linda Lane also had sidewalks, curb, gutter and streetlights installed. E. May St. is under construction with the same improvements at this time.

Work has been completed on the Transportation Enhancement Grant Project, Streetscape Phase III, that included design and engineering from Hicks Street north to Line Street and on the east side of Wall Street. Work has been started on the Transportation Enhancement Grant Project, Streetscape Phase IV which includes design and engineering from the Yeager Company.

Recreation:

Participation programming remained steady despite continued economic hardship. The Recreation Department completed construction of a restroom/concession/pavilion facility at the new Recreation Complex. The facility services the football field and walking trail. The pavilion area will be available for parties, reunions and special events. The parking lot that services the football field, walking trail and restroom/concession/pavilion building was also paved during June 2012.

The City's public golf course, Fields Ferry, faced a challenging year but continued to offer an eighteen-hole championship course to the surrounding population. Strong internal management and maintenance of the course allowed them to weather a continued overall downturn in the industry attributed to overbuild, weather, and economic recession that continued into fiscal 2013. The City maintained a Golf Advisory Commission, composed of businessmen active in the sport that met with Golf Management quarterly to review activity and to make recommendations on rates, budget projections, and to review financial reports. The Advisory Commission, established in 1991, continues to advise the Mayor and Council.

The Golf Course installed new greens and irrigation which was completed by mid-August, 2012. Twenty new golf carts were purchased in this year as well.

FINANCIAL INFORMATION

Budgeting Controls: Budgets have been adopted and appropriated at the fund level for each City governmental fund. Budgetary control is maintained by continued review of the budget-to-actual reports by the Finance department and each department head and full fund reports to the Mayor and Council quarterly. Budget amendments were made after presentation to the Mayor and Council for consideration for governmental funds. The City's budgetary accounting basis for proprietary funds is modified accrual, with all revenues and expenditures budgeted on an accrual basis except for line items for capital outlay and debt payments. The City's budgetary accounting basis for governmental funds is modified accrual. All encumbrances are cancelled at the fiscal year end. Unexpended appropriations lapse at year-end for budgetary purposes and are subject to re-appropriation in the following year.

Long-term Financial Planning:

Each year the City adopts a five-year Capital Improvement Program. This plan helps identify projects that should be undertaken in the next five years. This long-range planning is essential in addressing the future development and growth of the City. The City of

Calhoun has continually funded its capital requirements aggressively and maintains a pay as you go funding for most of its capital needs, which limits its borrowing requests.

Awards: The Government Finance Officers Association of the United States and Canada (GFOA) awarded the Certificate of Achievement for Excellence in Financial Reporting to the City of Calhoun for its comprehensive annual financial report for the fiscal year ended June 30, 2012. The Certificate of Achievement is the highest form of recognition in the area of governmental accounting and financial reporting, and its attainment represents a significant accomplishment by a government and its management. In order to be awarded this achievement, a governmental unit must publish an easily readable and efficiently organized comprehensive annual financial report that satisfies both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe the current CAFR continues to meet the program requirement.

Acknowledgments: We wish to express our gratitude and appreciation to the members of the Finance department and the Director of Finance of the City of Calhoun for her diligent work on this year's CAFR. We would also like to acknowledge the interest and support of the Mayor and Council in the financial affairs of the City of Calhoun.

Respectfully Submitted,

Eddie Peterson

INDEPENDENT AUDITOR'S REPORT

To the Honorable James F. Palmer, Mayor
and Members of the City Council
City of Calhoun, Georgia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of City of Calhoun, Georgia, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Calhoun, Georgia, as of June 30, 2013, and the respective changes in financial position, and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 14-21 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Calhoun, Georgia's basic financial statements. The introductory section, combining and individual fund financial statements, budgetary comparison schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

The combining and individual fund financial statements, budgetary comparison schedules, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements, budgetary comparison schedules, and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 31, 2013, on our consideration of the City of Calhoun, Georgia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of Calhoun, Georgia's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION & ANALYSIS

MANAGEMENT'S DISCUSSION AND ANALYSIS

Within this section of the City of Calhoun, Georgia (the City) annual financial report, the City's management is pleased to provide this narrative discussion and analysis of the financial activities of the City for the fiscal year ended June 30, 2013. The City's financial performance is discussed and analyzed within the context of the accompanying financial statements and disclosures following this section.

Financial Highlights

- The City's assets exceeded its liabilities by \$200,694,097 (net position) for the fiscal year reported.
- Total net position is comprised of the following:
 - (1) Net investment in capital assets of \$160,440,977 includes property and equipment, net of accumulated depreciation, and reduced for outstanding debt related to the purchase or construction of capital assets.
 - (2) Net position of \$9,229,059 is restricted by constraints imposed from outside the City such as debt covenants, grantors, laws, or regulations.
 - (3) Unrestricted net position of \$31,024,061 represents the portion available to maintain the City's continuing obligations to citizens and creditors.
- The City's governmental funds reported total ending fund balance of \$25,560,184 this year. This compares to the prior year ending fund balance of \$37,898,851 showing an decrease of \$12,338,667 during the current year. Unassigned and committed fund balance of \$7,343,223 for fiscal year 2013 shows a \$25,917 decrease from the prior year.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$6,294,679 or 50% of total general fund expenditures.
- Overall, the City continues to maintain a strong financial position, in spite of the economic slowdown.

The above financial highlights are explained in more detail in the "financial analysis" section of this document.

Overview of the Financial Statements

This Management Discussion and Analysis document introduces the City's basic financial statements. The basic financial statements include: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the basic financial statements. The City also includes in this report additional information to supplement the basic financial statements.

Government-wide Financial Statements

The City's annual report includes two government-wide financial statements. These statements provide both long-term and short-term information about the City's overall financial status. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in accrual accounting and elimination or reclassification of activities between funds.

The first of these government-wide statements is the *Statement of Net Position*. This is the government-wide statement of position presenting information that includes all of the City's assets and liabilities, with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City as a whole is improving or deteriorating. Evaluation of the overall health of the City would extend to other nonfinancial factors such as diversification of the taxpayer base or the condition of City infrastructure, in addition to the financial information provided in this report.

The second government-wide statement is the *Statement of Activities*, which reports how the City's net position changed during the current fiscal year. All current year revenues and expenses are included regardless of when cash was received or paid. An important purpose of the design of the statement of activities is to show the financial reliance of the City's distinct activities or functions on revenues provided by the City's taxpayers.

**MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)
For the Fiscal Year Ended June 30, 2013**

City of Calhoun, Georgia

Both government-wide financial statements distinguish governmental activities of the City that are principally supported by taxes from business-type activities that are intended to recover all or a significant portion of their costs through user fees and charges. Governmental activities include general government, judicial, public safety, public works, health and welfare, culture and recreation, housing and development and education. Business-type activities include the electric and water and sewer systems, the golf course, telecommunications and solid waste.

The government-wide financial statements are presented on pages 22-23 of this report.

Fund Financial Statements

A fund is an accountability unit used to maintain control over resources segregated for specific activities or objectives. The City uses funds to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statements, fund financial statements focus on the City's most significant funds rather than the City as a whole. Major funds are separately reported while all others are combined into a single, aggregated presentation. Individual fund data for non-major funds is provided in the form of combining statements in a later section of this report.

The City has three kinds of funds:

Governmental funds are reported in the fund financial statements and encompass the same functions reported as governmental activities in the government-wide financial statements. However, the focus is very different with fund statements providing a distinctive view of the City's governmental funds. These statements report short-term fiscal year accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of governmental programs and the commitment of spendable resources for the near-term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. Both the governmental fund balance sheet and the governmental fund operating statement provide a reconciliation to assist in understanding the differences between these two perspectives. Also, the budgetary comparison statement for the general fund is included in the basic financial statements.

The basic governmental fund financial statements are presented on pages 26-30 of this report.

Individual fund information for nonmajor governmental funds is found in combining statements and the individual fund statements in a later section of this report.

Proprietary funds are reported in the fund financial statements and generally report services for which the City charges customers a fee. The five City proprietary funds are classified as enterprise funds. Enterprise funds essentially encompass the same functions reported as business-type activities in the government-wide statements. Services are provided to customers external to the City organization for electric, water and sewer utilities, the golf course, telecommunications and solid waste management.

The basic enterprise fund financial statements are presented on pages 31-34 of this report.

Fiduciary funds are reported only in the basic financial statements on pages 35-36 and in the supplementary financial statements. This category reports an agency fund to account for flow of resources through the municipal court, a cemetery trust fund, and a trust fund for the City's pension fund.

Notes to the Basic Financial Statements

The accompanying notes to the financial statements provide information essential to a full understanding of the government-wide and fund financial statements. The notes to the financial statements begin on page 38 of this report.

Other Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents certain supplementary information concerning the City's budget presentations. Budgetary comparison schedules are included as supplementary information for special revenue funds, debt service funds, and capital project funds, where applicable. These schedules demonstrate compliance with the City's adopted and final revised budget. As discussed, the City reports major funds in the basic financial statements. Combining and individual statements and schedules for non-major funds are presented in a subsequent section of this report beginning on page 78.

Financial Analysis of the City as a Whole

The City's net position at fiscal yearend are \$200,694,097. The following table provides a summary of the City's net position:

Summary of Net Assets

	Governmental Activities		Business-type Activities		Total	
	2013	2012, as restated	2013	2012, as restated	2013	2012, as restated
Assets

Unavailable Revenues	352,862	-	-	-	352,862	-
Net position						
Net investment in capital assets	67,313,839	51,462,689	93,127,138	89,563,303	160,440,977	141,025,992
Restricted	9,229,059	19,122,020	-	-	9,229,059	19,122,020
Unrestricted	7,580,277	7,685,307	23,443,784	23,006,674	31,024,061	30,691,981
Total net position	\$ 84,123,175	\$ 78,270,016	\$ 116,570,922	\$ 112,569,977	\$ 200,694,097	\$ 190,839,993

The City reported positive balances in net position for both governmental and business-type activities. Net position increased \$5,853,159 for governmental activities and by \$4,000,945 for business-type activities.

Approximately 80% of the governmental activities' net position are invested in capital assets at June 30, 2013 as compared to 66% at June 30, 2012. The City uses these capital assets to provide services to its citizens. With business-type activities, the City has invested 80% of its net position in capital assets in both fiscal years 2013 and 2012. Capital assets in the business-type activities provide utility services, but they also generate revenues for these funds.

GOVERNMENTAL REVENUES

The City is heavily reliant on business and franchise taxes and local option sales taxes to support governmental operations. Business license and franchise taxes provided 14% of the City's total governmental revenues, as compared to 18% in the prior year. Sales taxes provided 11% of total governmental revenues versus 14% in fiscal year 2012. This includes SPLOST revenues for business-type activities that is included in revenue in the governmental funds and then transferred out to the water fund for approved projects. Property taxes and charges for services and fines are also important revenue sources (excluding grants and contributions) providing 6% and 8% of total revenues, respectively. Total General Fund revenues are 10% higher than the fiscal year 2012 amount.

GOVERNMENTAL FUNCTIONAL EXPENSES

This table presents the cost of each of the City's programs, including the net costs (i.e., total cost less revenues generated by the activities). The net costs illustrate the financial burden placed on the City's taxpayers by each of these functions.

	<u>Total Cost of Services</u>		<u>Net Cost of Services</u>	
	<u>2013</u>	<u>2012</u>	<u>2013</u>	<u>2012</u>
General government	\$ 802,314	\$ 810,234	\$ 624,367	\$ 681,565
Judicial	452,375	373,132	452,375	373,132
Public safety	6,915,456	6,536,010	5,232,288	4,850,290
Public works	2,886,680	2,840,555	1,970,162	697,710
Health and welfare	61,103	53,383	61,103	53,383
Culture and recreation	1,640,601	1,633,489	532,779	829,330
Housing and economic development	925,367	941,496	770,740	794,717
Education	1,958,815	1,136,156	(6,314,967)	(2,575,002)
Interest	1,669,843	1,871,332	1,669,843	1,871,332
Total	<u>\$ 17,312,554</u>	<u>\$ 16,195,787</u>	<u>\$ 4,998,690</u>	<u>\$ 7,576,457</u>

Public safety expenses make up 40% of the governmental activities expenses. This compares to 41% in fiscal year 2012. The public works function is the second largest cost, making up 17% of governmental activities expenses, compared to 18% in fiscal year 2012.

Approximately 24% of gross program costs for public safety functions were recovered from public safety revenues, primarily fines and forfeitures. This compares to 26% in the prior year.

Note that the education function reports excess of revenues over expenses. This presentation may be misleading, although required. Program revenue in the education function is from intergovernmental ESPLOST revenue restricted for debt service. Debt principal payments have been eliminated from the statement of activities and charged against the liability in the statement of net position, causing the education function to appear to have a \$6.3 million dollar net revenue. It is anticipated that once the debt is paid, education will have a net loss because of depreciation expense.

BUSINESS-TYPE ACTIVITIES
Revenues vs. Costs

The operating revenues for all enterprise funds, including the internal service fund, were \$3,288,962 or 6% more than 2012 and total operating expenses were \$1,779,625 or 4%, more than fiscal year 2012. Within the total business-type activities of the City, these activities reported \$6,663,995 in operating income compared to operating income of \$5,154,658 in the prior year, or an increase of 29%. After transfers in and out between other funds and other non-operating items, these funds reported a net change in net position of \$4,000,945 compared to a net change in net position of \$2,367,206 in 2012.

**MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)
For the Fiscal Year Ended June 30, 2013**

City of Calhoun, Georgia

Each specific fund reported the following change in operating income or (loss):

	<u>Amount Change</u>	<u>%</u>
Water and sewerage fund	\$ (334,058)	(9%)
Electric system fund	1,783,346	126%
Field Ferry Golf Course fund	26,105	7%
Telecommunications fund	51,773	31%
Solid waste fund	(69,382)	(55%)

Water and Sewerage Fund – One of the major funds is the water and sewerage fund. The operating revenues decreased 2% and operating expenses maintained, resulting in a decrease in operating income from 2012 of approximately 9%.

Personal services have increased by \$146,544 or 5%. This is due to a continuing replacement of personnel that were lost during the hiring freeze that was in place for a time, forcing many departments to operate under-staffed.

Contractual Services decreased \$261,781 or 32%. This primarily represents the additional costs we incurred in repair and maintenance in fiscal 2013.

Electric Fund - The other major enterprise fund is the electric system fund. The charges for services for this fund have increased 7% or \$3,261,475 over fiscal year 2012. There were 19,714,256 more kilowatts sold in 2013 than in 2012, which reflects a 5% increase. The price per kilowatt is adjusted monthly so this is very close to the percentage increase in revenues.

Supplies have increased by \$1,277,794 or 5% from the prior year. This is due to the increased amount of power that must be purchased to satisfy demand.

Transfers out during fiscal year 2013 decreased by \$639,227, which represents 22%. In the prior year, the Electric fund did work on some buildings of the City that was funded by the EECBG grant.

Financial Analysis of the City's Funds

Governmental Funds

As discussed, governmental funds reported in the fund statements have a short-term, inflow and outflow of spendable resources focus. This information is useful in assessing resources available at the end of the year in comparison with upcoming financing requirements. Governmental funds reported ending fund balances of \$25,560,184. Of this year-end total, \$6,294,679 is unassigned indicating availability for continuing City service requirements. There is \$1,048,544 committed for working capital and contingencies. Legally restricted fund balances for program purposes are \$2,072,325, restricted for capital projects is \$13,100,956 and \$2,668,962 was restricted for debt service. Amounts equal to prepaid assets of \$374,718 are nonspendable for current expenditures.

The total ending fund balances of governmental funds show a decrease of \$12,338,667 or 33% from the prior year. This decrease is due to the net almost \$17 million dollars spent on the new high school and middle school complex this year.

Major Governmental Funds

General Fund - The general fund is the City's primary operating fund and the largest source of day-to-day service delivery. The general fund's fund balance decreased by \$58,538 in fiscal year 2013.

General fund revenue increased \$ 906,770 or 10% from the prior year. Property taxes increased \$377,833 or 32%. This was a result of a small increase in the millage rate. Contributions increased \$381,032, which represented paving done by the County, as well as a donation of a building and land for special operations.

**MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)
For the Fiscal Year Ended June 30, 2013**

City of Calhoun, Georgia

Total general fund expenditures increased \$2,019,702 when compared to the prior year, which represented 19%. Public Safety had an increase of \$1,290,129 or 21%. This was primarily due to the purchase of a new police fleet. There was also a building renovation done to the fueling station for the police, and land a building donated and renovated for the special operations division among other things. Public works had an increase of \$621,930 or 31%. This was due, in part, to work done on the Streetscape III project, additional asphalt purchased for paving projects and additional personnel costs as staffing gets back full capacity.

The general fund's unassigned and committed ending fund balance represents the equivalent of 58% of annual expenditures, as compared to 70% at June 30, 2012.

2011 School Bond Capital Project Fund – This fund constructed a new school complex, which was completed in fiscal 2013, with funds from a \$21 million bond issuance. The fund balance at year end is zero since construction is completed and all bond proceeds have been expended.

2012 School Bond Capital Project Fund – This fund is constructing a new school complex with funds from a \$12 million bond issuance. The fund balance has the portion of the bond proceeds that have not been expended remaining there.

School Bond Debt Service Fund – This governmental fund accounts for the issuance of bonds for various school needs. Citizens have approved an E-SPLOST to fund the payments on these bonds during the term of the SPLOST. Renewals on the E-SPLOST will be voted on as each term expires until all such debt is paid. The 2002 School Bonds and almost all of the 2003 School Bonds were paid off prematurely during fiscal year 2013, which reduced the funds balance substantially.

The Proprietary Funds

The proprietary fund statements share the same focus as the government-wide statements, reporting both short-term and long-term information about financial status. Therefore, the analysis is presented above.

Budgetary Highlights

The General Fund – There were a few budget amendments done during this fiscal year, including amendments within the department and Council approved amendments between departments. Revenues were \$101,121 more than the final budget and 101% of final budgeted revenues was met. The primary increase in revenues was in contributions. Budget amendments increased General fund revenues by \$344,212 and accounted for additional sales tax, intergovernmental revenue and miscellaneous other items.

The City spent 97% of the final authorized budgeted expenditures. General government expenditures actual was \$373,050 less than budget primarily due to projects that were postponed, transfers to other funds that were not required and wage and benefit savings. The budget amendments to increase the General Fund \$387,212 were primarily to budget for paving, the special operations land and building, repairs and maintenance work and some Streetscape III work.

2012 School Bond Capital Project Fund – There was one budget amendment done during this fiscal year to establish a project length budget for this project. Since this is a project length budget, no budget comparison is provided.

Capital Assets and Debt Administration

Capital Assets

At June 30, 2013, the depreciable capital assets for governmental activities were 34% depreciated, while being 43% depreciated at fiscal 2012. For the City's business-type activities, 42% of the asset values were depreciated at June 30, 2013 versus 41% at June 30, 2012. Consistent or decreasing percentages are a positive financial indicator.

See Note 3-E for additional information about changes in capital assets during the fiscal year and amounts outstanding at the end of the year.

Long-term Debt

At the end of the fiscal year, the City had two types of bonds outstanding, notes payable, capital leases, claims, landfill closure costs, and a pension liability. See Note 3-H for additional information about the City's long-term debt.

Economic Conditions Affecting the City

The City continues to feel the effects of the economic downturn, as is the nation. With the downturn in the housing market, the City was given the opportunity to stabilize growth by improving development standards and long-term efforts. The existence of a local technical college has allowed for the training and retraining of many in the work force for jobs where higher levels of education and technical skills are required or in areas where more jobs are available. Local option sales tax revenues, an indicator of consumer spending, showed a slight upswing from the previous year. There has been some plant expansion and industrial growth, which has been very positive for the City. A large hotel chain has almost completed construction of one of its premier facilities in the City of Calhoun. The City does continue to get industrial prospects who inquire about the possibility of locating here, as close accessibility to Atlanta is attractive. The City of Calhoun has positioned itself very well for growth, due to capacity for expansion in the areas of water, sewer and electricity.

Contacting the City's Financial Management

This financial report is designed to provide a general overview of the City's finances, comply with finance-related laws and regulations, and demonstrate the City's commitment to public accountability. The government-wide financial statements include not only the City itself (known as the primary government), but also the material component unit: Calhoun School District. Financial information for the component unit is reported separately from the financial information presented for the primary government. Complete financial statements for the unit are available from the City's Director of Finance upon request. If you have questions about this report or would like to request additional information, contact the Director of Finance, Andrea K. Bramlett at 700 W. Line Street, Calhoun, GA 30701, (706) 602-5840, abramlett@calnet-ga.net.

City of Calhoun, Georgia
Reconciliation of the Governmental Funds' Balance Sheet
to the Statement of Net Position
June 30, 2013

Total Governmental Fund Balances	\$	25,560,184
---	----	------------

**Amounts reported for governmental activities in the
statement of net position are different because:**

Capital assets used in governmental activities are not current financial resources and therefore are not reported in the funds (exclusive of internal service funds' capital assets).

Cost of capital assets	\$	131,912,134	
Less accumulated depreciation		(37,286,041)	94,626,093

Other long-term assets are not available to pay for current-period expenditures and therefore are deferred in the funds.

Property taxes		673,519	
Cemetery lot sales		15,177	
Fines		1,178,623	1,867,319

Interfund receivables and payables between governmental funds are reported on the governmental fund's balance sheet but eliminated on the government-wide statement of net position.

Interfund receivables		(7,239)	
Interfund payables		7,239	-

Liabilities not due and payable in the current period are not reported in the governmental fund balance sheets but are reported on the government-wide statement of net position.

Bonds		(36,249,534)	
Capital leases		(305,893)	
Pension		(476,797)	
Claims		(74,259)	
Compensated absences		(287,030)	
Accrued interest		(536,908)	(37,930,421)

Net Position Of Governmental Activities	\$	84,123,175

For the Fiscal Year Ended June 30, 2013

Net Changes In Fund Balances - Total Governmental Funds \$ (12,338,667)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures on the governmental fund type operating statement. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capitalized capital outlay exceeded depreciation expense in the current period.

Depreciation expense	\$ (2,505,367)	
Capital outlay	19,041,471	16,536,104

Bond proceeds are reported as other financing at the fund level but are reported as a liability on the government-wide statement of activities. (12,000,000)

Bond premiums are reported as other financing at the fund level but are netted with debt liabilities on the government-wide statement of activities. (924,239)

Contributions of capital assets from the component unit are reported on the government-wide statement of activities but not at the fund financial reporting level. 4,351,427

The cost of capital assets that are sold are reported in the government-wide statement of activities but not reported at the fund financial reporting level. (3,751)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues at the fund financial reporting level.

Property taxes:		
Deferred @ 6/30/13	673,517	
Deferred @ 6/30/12	(905,403)	(231,886)
Intergovernmental:		
Deferred @ 6/30/13	-	
Deferred @ 6/30/12	(54,768)	(54,768)
Cemetery lot sales:		
Deferred @ 6/30/13	15,177	
Deferred @ 6/30/12	(15,177)	-
Fines:		
Deferred @ 6/30/13	1,178,623	
Deferred @ 6/30/12	(982,647)	195,976

Elimination of transfers between governmental funds, including net effect of transfers recorded for capital assets moved between governmental and enterprise funds.

Transfers in	(902,337)	
Transfers out	902,337	-

Repayment of long-term debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of activities. 10,339,080

Amortization of bond premiums/discounts are reported on the government-wide statement of activities but not reported on the fund financial reporting level. 989

Some expenses reported in the statement of activities, do not require the use of current financial resources and therefore, are not reported as expenditures in governmental funds. The change in the current year expenses are as follows:

Accrued interest		
Liability @ 6/30/13	(536,908)	
Liability @ 6/30/12	474,395	(62,513)
Compensated absences		
Liability @ 6/30/13	(287,030)	
Liability @ 6/30/12	278,551	(8,479)
Claims		
Liability @ 6/30/13	(74,259)	
Liability @ 6/30/12	80,106	5,847
Pension liability		
Liability @ 6/30/13	(476,797)	
Liability @ 6/30/12	524,836	48,039

Change In Net Position of Governmental Activities \$ 5,853,159

City of Calhoun, Georgia
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

The City of Calhoun, Georgia (The City) is a municipal corporation governed by an elected mayor and four-member council.

Note 1 - Summary of Significant Accounting Policies

The financial statements of the City have been prepared in conformity with accounting principles generally accepted in the United States (GAAP) as applied to governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for governmental accounting and financial reporting. The most significant of the City's accounting policies are described below.

1-A. Reporting Entity

The reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the City consists of all funds, departments, boards and agencies that are not legally separate from the City.

Component units are legally separate organizations for which the City is financially accountable. The City is financially accountable for an organization if the City appoints a voting majority of the organization's governing board and (1) the City is able to significantly influence the programs or services performed or provided by the organizations or (2) the City is legally entitled to or can otherwise access the organization's resources; the City is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the City is obligated for the debt of the organization. Component units also may include organizations that are fiscally dependent on the City in that the City approves the budget, levies their taxes or issues their debt.

A blended component unit, although a legally separate entity, is, in substance, part of the City's operations. The fund types of such component units are blended with the fund types of the City. A brief description of the blended component unit follows:

Calhoun Recreation Authority (Recreation Authority) – The Recreation Authority is governed by a seven-member board consisting of six members appointed by the City Council and one member from the elected City Council. Although it is legally separate from the City, the Recreation Authority is reported as if it were part of the City because its purpose is to finance golf course construction or other recreation activities. Bonds or other debt issued by the Recreation Authority are secured by a lease agreement with the City and will be retired through lease payments from the City.

Financial statements of the Calhoun Recreation Authority are included in the City's basic financial statements within the governmental debt service fund. Information may be obtained at City Hall, City Administrator's Office, 226 South Wall Street, Calhoun, Georgia.

The component unit columns included on the government-wide financial statements identifies the financial data of the City's discretely presented component units. They are reported separately to emphasize that they are legally separate from the City. A brief description of the discretely presented component units follows:

City of Calhoun, Georgia, Board of Education (School District) – The School Board is authorized within the City of Calhoun, Georgia's charter to regulate the operations of the system of public schools for the City of Calhoun. The School District consists of five members elected by the citizens of the City. However, the School District is fiscally dependent upon the City of Calhoun because the City Council must approve the annual budget, levy the necessary property taxes and approve any debt issuances. Separately issued financial statements for the School District may be obtained at the School District's administrative offices, 308 Barrett Road, NW, Calhoun, Georgia.

Downtown Development Authority (Development Authority) – The Development Authority is a public body, corporate and politic, and was created upon the adoption and approval of the Development Authorities Law of the State of Georgia. The Mayor and City Council appoint all members of the Development Authority. To date, the only activities associated with the Development Authority relate to property deeded by the City to the Development Authority, which was sold in fiscal 2004. Financial statements of the Downtown Development Authority, if material, are required to be in the City's basic financial statements as a discretely presented component unit. This is in accordance with a determination made for such entities by the Georgia Department of Audits and Accounts. Specific information relative to these activities may be obtained at City Hall, City Administrator's Office, 226 South Wall Street, Calhoun, Georgia.

City of Calhoun, Georgia
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

1-B. Basis of Presentation

The City's basic financial statements consist of government-wide statements, which include aggregated fund data and fund financial statements, which provide a more detailed level of financial information.

Government-wide Financial Statements - The government-wide financial statements include a statement of net position and a statement of activities. These statements report financial information for the City as a whole. The primary government and the discretely presented component units are presented separately within these financial statements with the focus on the primary government. All City funds, excluding the fiduciary activities and component units that are fiduciary in nature, are included at the government-wide reporting level. Individual funds are not displayed but the statements distinguish governmental activities, generally supported by taxes and City general revenues, from business-type activities, generally financed in whole or in part with fees charged to external customers.

The statement of net position presents the financial position of the governmental and business-type activities of the City and its discretely presented component units at year-end. This statement is presented in a classified format.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the City's governmental activities and for each identifiable activity of the business-type activities of the City. Direct expenses are those that are specifically associated with a function and therefore clearly identifiable to that particular function. The City does not allocate indirect expenses to functions in the statement of activities.

The statement of activities reports the expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. Program revenues include: (1) charges for services which report fees and other charges to users of the City's services and fines; (2) operating grants and contributions which finance annual operating activities including restricted investment income; and (3) capital grants and contributions which fund the acquisition, construction, or rehabilitation of capital assets. These revenues are subject to externally imposed restrictions to these program uses. For identifying to which function program revenue pertains, the determining factor for *charges for services* is which function *generates* the revenue. For *grants and contributions*, the determining factor is to which functions the revenues are *restricted*.

Taxes and other revenue sources not properly included with program revenues are reported as general revenues of the City. The comparison of direct expenses with program revenues identifies the extent to which each governmental function and each identifiable business activity is self-financing or draws from the general revenues of the City.

Fund Financial Statements - During the year, the City segregates transactions related to certain City functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the City at this more detailed level. Fund financial statements are provided for governmental, proprietary, and fiduciary funds.

Major individual governmental and enterprise funds are reported in separate columns with composite columns for nonmajor funds. Fiduciary funds are reported by type.

Fund Accounting - The City uses funds to maintain its financial records during the year. A fund is a fiscal and accounting entity with a self-balancing set of accounts. The City uses three categories of funds: governmental, proprietary and fiduciary.

Governmental Funds - Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Fund liabilities are assigned to the fund from which they will be liquidated. The City reports the difference between governmental fund assets and liabilities as fund balance. The following are the City's major governmental funds:

General Fund - The general fund accounts for and reports all financial resources not accounted for and reported in another fund.

School Bond Debt Service Fund - This governmental fund accounts for the debt payments on school bonds and the accumulation of resources from ESPLOST revenue to make debt payments.

City of Calhoun, Georgia
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

2011 School Bonds Capital Project Fund – This governmental fund accounts for the issuance of bonds and the construction of a new high school.

2012 School Bonds Capital Project Fund – This governmental fund accounts for the issuance of bonds and the construction of a new middle school.

Proprietary Funds - Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position and cash flows. The City's proprietary funds are classified as enterprise funds. The following are the City's major enterprise funds:

Electric System Enterprise Fund – This major enterprise fund is used to account for the operations of the City's electric distribution system.

Water and Sewerage System Enterprise Fund - This major enterprise fund is used to account for the operations of the county-wide water treatment distribution system and wastewater treatment, primarily within the City limits.

Internal Service Fund – This fund provides support services to the various City departments. This includes administration, engineering, work order dispatch and meter reading for Utility departments. Finance and purchasing are handled for all City funds through the Internal Service Fund. Utility billing, customer service and tellers are also recorded for all enterprise funds of the City.

Fiduciary Funds - Fiduciary fund reporting focuses on net position. The City's fiduciary funds include its single employer pension trust fund, cemetery trust fund, and an agency fund. The pension trust fund is the "City Charter Unfunded Retirement Plan." The cemetery trust fund is a perpetual care trust held for the future maintenance of the cemeteries. The agency fund accounts for the activity of traffic and municipal ordinance violations resulting in fines for offenses occurring with the City. This fund is custodial in nature (assets equal liabilities) and does not involve measurement of results of operations.

1-C. Measurement Focus

Government-wide Financial Statements - The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the City are included on the statement of net position. The statement of activities reports revenues and expenses.

Fund Financial Statements - All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the governmental fund statements.

Like the government-wide statements, all proprietary fund types are accounted for on a flow of economic resources measurement focus on both financial reporting levels. All assets and all liabilities associated with the operation of these funds are included on the statements of net position. The statements of changes in fund net position present increases (i.e., revenues) and decreases (i.e., expenses) in net total position. The statement of cash flows provides information about how the City finances and meets the cash flow needs of its proprietary activities.

The City's pension trust fund uses the flow of economic resources at the fund reporting level. The statement of changes in fiduciary net assets includes additions and deletions to the pension trust fund's net position. The agency fund does not have a measurement focus.

City of Calhoun, Georgia
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

1-D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. At the fund reporting level, governmental funds use the modified accrual basis of accounting and fiduciary funds use the accrual basis of accounting. Proprietary funds use the accrual basis of accounting at both reporting levels. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

Revenues – Exchange Transactions - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded when the exchange takes place and in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the City, the phrase “available for exchange transactions” means expected to be received within 60 days of the balance sheet date.

Revenues - Non-exchange Transactions - Non-exchange transactions in which the City receives value without directly giving equal value in return, include sales tax, property taxes, grants, and donations. On an accrual basis, revenue from sales taxes is recognized in the period in which the taxable sale takes place. Revenue from property taxes is recognized in the fiscal year for which the taxes are levied. (Note 3-C) Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the City must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the City on a reimbursement basis. On a modified accrual basis, all revenue from non-exchange transactions also must be available (i.e., collected within 60 days) before it can be recognized.

Under the modified accrual basis, the following primary revenue sources are considered to be susceptible to accrual: property taxes, sales taxes, franchise taxes, insurance premium taxes, fines, interest and charges for services.

Unearned Revenue and Deferred Outflows/Inflows of Resources - Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied. On governmental fund financial statements (i.e., on the modified accrual basis), receivables that will not be collected within the available period have been reported as unearned revenue (i.e., they are measurable but not available) rather than as revenue.

In addition to assets, the statement of financial position reports a separate section for deferred outflows of resources. This separate element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The City reports the deferred charge on refunding, resulting from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded debt or refunding debt.

In addition to liabilities, the statement of financial position also reports a separate section for deferred inflows of resources. This separate element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. Property taxes, fines and the sale of cemetery plot receivables not collected within 60 days of year-end have been recorded as deferred revenue at the fund reporting level. Grants and entitlements received before the eligibility requirements are met (e.g., cash advances) also are recorded as deferred revenue at both reporting levels.

Expenses/Expenditures - On the accrual basis of accounting, expenses are recognized at the time they are incurred. On the modified accrual basis, expenditures generally are recognized in the accounting period in which the related fund liability is incurred and due, if measurable.

1-E. Assets, Liabilities and Fund Equity

1-E-1 Cash and Investments

Cash includes amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the City.

City of Calhoun, Georgia
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

Investments are stated at fair value based on quoted market prices.

Georgia law authorizes the City to invest in the following type of obligations:

- Obligations of the State of Georgia or of any other states
- Obligations of the United States Government
- Obligations fully insured or guaranteed by the United States Government or governmental agency
- Obligations of any corporation of the United States Government
- Prime bankers' acceptances
- The State of Georgia local government investment pool (i.e., Georgia Fund I)
- Repurchase agreements
- Obligations of the other political subdivisions of the State of Georgia

Notwithstanding these provisions of state statutes, local retirement system funds may be invested and reinvested subject to all terms, conditions, limitations, and restrictions imposed by the laws of Georgia upon domestic life insurance companies in making and disposing of their investments.

State statutes require all deposits to be collateralized by depository insurance, obligations of the United States or certain obligations guaranteed by the U. S. Government, obligations of the State of Georgia or bonds of public or development authorities, counties, or municipalities of the State of Georgia. The acceptable collateral pledged in the City's name is composed of bonds of U. S. Government agencies and bonds of the State of Georgia and its public authorities, counties and municipalities.

It is the City's policy that any investment or deposit in excess of the Federal Deposit Insurance Corporation (FDIC) insured amount must be secured by 110% of an equivalent amount of State or U.S. Obligations.

1-E-2 Receivables

All trade and property tax receivables are reported net of an allowance for uncollectibles, where applicable. Unbilled utility charges are accrued as receivables and revenue at June 30, 2013. The delinquent taxes receivable account represents past years of uncollected tax levies. The allowance for estimated uncollectibles is estimated at .76% of the tax digests for fiscal years ended June 30, 2008-2012, in addition to 100% of the receivable for all fiscal years prior to 2008.

1-E-3 Interfund Balances

On the fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables." These amounts are eliminated in the governmental and business-type activities columns of the statement of net assets, except for any net residual amounts due between governmental and business-type activities, which are reclassified and presented as internal balances.

1-E-4 Consumable Inventories

On the government-wide statement of net assets, inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used (i.e., the consumption method).

On the fund financial statements, inventories are stated at lower of cost or market for proprietary funds with cost determined on a first-in, first-out basis. Inventories of the proprietary funds are expensed when consumed.

1-E-5 Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2013, are recorded as prepaid items at both reporting levels using the consumption method by recording an asset for the prepaid amount and reflecting the expenditure/expense in the year in which services are consumed. At the fund reporting level, an equal amount of fund balance is reserved as this amount is not available for general appropriation.

City of Calhoun, Georgia
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

1-E-6 Restricted Assets

Restricted assets represent resources segregated as required by bond ordinances, lease agreements and policies of the City.

1-E-7 Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in governmental funds. The City reports these assets in the governmental activities column of the government-wide statement of net assets but does not report these assets in the governmental fund financial statements. Capital assets utilized by enterprise funds are reported both in the business-type activities column of the government-wide statement of net assets and in the enterprise funds' statement of net assets. The City owns and reports all School District land and buildings.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The City maintains a capitalization threshold of five thousand dollars and twenty thousand dollars for infrastructure expenditures. The City's infrastructure consists of roads, curbs and gutters, sidewalks, bridges, drainage, traffic signals, water and sewer lines and the electric distribution systems. Improvements to capital assets are capitalized. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are expensed. Interest incurred during the construction of capital assets utilized by the enterprise funds is capitalized.

All reported capital assets are depreciated except for land and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the City's historical records of necessary improvements and replacement. Depreciation is computed using the straight-line method over the following useful lives:

Asset Class	Estimated Lives		
	Governmental Activities	Business-type Activities	Component Unit
Buildings	20-50 Years	---	---
Improvements other than buildings	15-25 Years	15-25 Years	---
Buildings, plants, tanks	---	20-50 Years	---
Utility systems	---	20-50 Years	---
Machinery and equipment	5-25 Years	5-25 Years	5-10 Years
Vehicles	4-6 Years	4-6 Years	5-10 Years
Infrastructure	30-60 Years	---	---

At the inception of capital leases at the governmental fund reporting level, expenditures and an "other financing source" of an equal amount are reported at the net present value of future minimum lease payments.

1-E-8 Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means.

Unused vacation leave rights expire at the end of the year in which earned. Unused sick leave benefits are paid annually and therefore do not accumulate. All amounts accrued relative to these benefits are paid in December each year.

All compensated absence liabilities include salary-related payments, where applicable.

The total compensated absence liability is reported on the government-wide financial statements for both governmental activities and business-type activities. Proprietary funds report the total compensated liability in each individual fund at the fund reporting level. Governmental funds report the compensated absence liability at the fund reporting level only "when due."

City of Calhoun, Georgia
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

1-E-9 Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of these funds. However, compensated absences, claims and unfunded pension benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are “due for payment” during the current year. Bonds and capital leases are recognized as a liability in the governmental fund financial statements “when due”.

1-E-10 Bond Premiums, Discounts and Issuance Costs and Debt Refunding Gains and Losses

On the government-wide statement of net position and the proprietary fund type statement of net position, bond premiums and discounts are netted against bonds payable. On the government-wide and proprietary fund type statement of activities, bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method.

Debt refunding gains and losses are reported as deferred inflows or outflows of resources on the statements of net position. These gains and losses are deferred and amortized over the shorter of the life of the refunding debt (new debt) and the refunded debt (old debt).

Bond issuance costs are recognized as an outflow of resources in the reporting period in which they are incurred.

At government fund reporting level, bond premiums and discounts are reported as other financing sources and uses, separately from the face amount of the bonds issued. Bond issuance costs are reported as debt service expenditure.

1-E-11 Fund Equity

Fund equity at the governmental fund financial reporting level is classified as “fund balance.” Fund equity for all other reporting is classified as “net position.”

Fund Balance – Generally, fund balance represents the difference between the current assets and current liabilities. In the fund financial statements, governmental funds report fund classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund balances are classified as follows:

- **Nonspendable** – Fund balances are reported as nonspendable when amounts cannot be spent because they are either (a) not in spendable form (i.e., items that are not expected to be converted to cash) or (b) legally or contractually required to be maintained intact.
- **Restricted** – Fund balances are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.
- **Committed** – Fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed by formal action of the City Council. A vote by Council is required to be taken to establish any type of restriction on fund balance, modify the restriction or release it.
- **Assigned** – Fund balances are reported as assigned when amounts are constrained by the City’s intent to be used for specific purposes, but are neither restricted nor committed. Through resolution, the City Council has authorized the City’s finance committee or the City’s Director of Finance to assign fund balances.
- **Unassigned** – Fund balances are reported as unassigned as the residual amount when the balances do not meet any of the above criteria. The City reports positive unassigned fund balance only in the general fund. Negative unassigned fund balance may be reported in all funds.

Flow Assumptions – When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the City’s policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the City’s policy to use fund balance in the following order:

- Committed
- Assigned
- Unassigned

City of Calhoun, Georgia
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

Net Position - Net position represent the difference between assets and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation and debt, plus any outstanding balances of borrowings not yet expended, but restricted for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. All other net position balances are reported as unrestricted.

The City applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

1-E-12 Operating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. For the City, these revenues are charges to customers for water and sewerage services, electricity, golf course and associated rental fees, fees for telecommunications services and services for solid waste management. The water and sewer fund also recognizes as operating revenues the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses, including operating grants, investment earnings, interest expense and the gain or loss on the disposition of capital assets.

1-E-13 Contributions of Capital

Contributions of capital in proprietary fund financial statements arise from transfers from capital assets of governmental activities, outside contributions of capital assets, tap-on fees to the extent they exceed the cost of the connection to the system, or from grants or outside contributions of resources restricted to capital acquisition and construction.

1-E-14 Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses section in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Transfers between governmental and business-type activities on the government-wide statement of activities are reported as general revenues. Transfers between funds reported in the governmental activities column are eliminated. Transfers between funds reported in the business type activities column are eliminated.

The general fund charges each of the enterprise funds and the recreation fund for specific payroll and other administrative costs that relate to these funds. As interfund reimbursements, these charges are required to be reported "net" as reductions of expenditures in the general fund. These reimbursements are internal accounting adjustments used to reallocate expenditures or expenses to the appropriate fund. The utility internal service fund charges the electric, water & sewerage system, telecom, and general funds various costs that represent operating expenses and the utility internal service fund records these interfund services provided as revenue.

1-E-15 Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States, requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

1-E-16 Comparative Data

Comparative total data for the prior year have been presented for individual funds in the fund financial statements in order to provide an understanding of the changes in the financial position and operations of these funds. Certain immaterial amounts presented in the prior year data have been reclassified to provide more comparative date.

City of Calhoun, Georgia
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

Note 2 – Stewardship, Compliance and Accountability

2-A. Budgetary Information – Annual appropriated budgets are prepared for all governmental funds except capital project funds.

Project budgets also are adopted for the capital project funds. The budget is prepared on a modified accrual basis with budget items for capital outlay and debt service in all funds. Unspent appropriations lapse at year-end.

The budget officer can make reallocation of budgeted amounts within a department; however, any reallocations between departments within a fund or any increase in the total departmental appropriation within a fund require City Council approval. The City Council amended the original appropriations for fiscal year 2013 for some funds.

Note 3 - Detailed Notes on All Funds

3-A. Deposits and Investments

The City has adopted investment policies, which address the specific deposit or investment risks presented below.

Custodial Credit Risk – Deposits – the custodial credit risk for deposits is the risk that, in the event of a bank failure, the City's deposits may not be recovered. It is the City's policy that any investment or deposit in excess of the FDIC insured amount must be secured by 110% of an equivalent amount of State or U.S. Obligations, with the exception of the Municipal Competitive Trust, pension trust fund and cemetery trust fund.

At June 30, 2013, the carrying amount of the City's deposits, not including cash on hand, was \$36,686,173 and the related bank balances totaled \$37,262,909. All bank balances were covered by Federal Depository Insurance or by collateral held by the City's agent.

Cash on hand at June 30, 2013 was \$7,389.

Primary Government's Investments

Interest Rate Risk – Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The City does not have any maturity limitations specified in the investment policy.

At June 30, 2013, the City's investments included \$19,244,529 held in the First Union MEAG Flexible Operating Trust. The MCT investment is restricted to specific uses, as designated in the operating trust. All of the holdings of the MCT are fixed income (bond) investments and all are either direct obligations of or otherwise guaranteed by the government of the United States or one of its agencies, corporations, or instrumentalities. An institutional US Government Money Market Fund is also used in these accounts and that Fund invests in similar US Government obligations. MCT reports interest rate risk using a duration measure. The pension trust fund is monitored and managed by the Georgia Municipal Association.

Credit Quality Risk – Credit quality risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. It is the City's policy to invest in non-negotiable certificates of deposit and money market accounts that are covered by FDIC insurance or pledged collateral. The Council has also authorized investments in the MCT and the pension trust. The municipal competitive trust is not rated.

Foreign Currency Risk – The risk that changes in foreign currency exchange rates will adversely affect cash flows or the fair value of hedging derivative instrument or the associated hedged item. The City has not adopted a policy regarding foreign currency risk.

City of Calhoun, Georgia
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

Cash and Investment Reconciliation:

	Cash	Investments
Fund Reporting Level:		
Governmental Funds - Balance Sheet	\$ 22,349,684	\$ -

Total	\$ 36,693,562	\$ 19,244,529

3-B. Receivables

Receivables at June 30, 2013, consisted of taxes, interest, accounts (billings for user charges, including unbilled utility receivables), and intergovernmental receivables arising from grants.

Receivables and payables are recorded on the City's financial statements to the extent that the amounts are determined to be material and substantiated not only by supporting documentation, but also by a reasonable, systematic method of determining their existence, completeness, valuation, and in the case of receivables, collectibility.

At June 30, 2013, the amount of allowance for uncollectibles was \$1,157,015.

3-C. Property Taxes

Generally, property taxes attach as an enforceable lien on property as of January 1. The City Council levied property taxes September 27, 2012. Property taxes were billed on October 3, 2012 and were payable on December 31, 2012. The lien date was August 15, 2013.

3-D. Restricted Assets

The following are the details of the restricted assets for the enterprise funds:

Cash		
Constuction bonds	\$	38,673

3-F. Interfund Balances and Transfers

Interfund Balances - Interfund balances at June 30, 2013, consisted of the following amounts and represent charges for services or reimbursable expenses. These remaining balances resulted from the time lag between the dates that (1) interfund goods or services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting period, and (3) payments between funds are made. The City expects to repay all interfund balances within one year.

Payable to	Payable from					Total
	General fund	Nonmajor governmental funds	Electric system fund	Nonmajor enterprise funds	Internal service fund	
General fund	\$ -	\$ 7,239	\$ 8,228	\$ 454,400	\$ 3,144,390	\$ 3,614,257

Transfers are used to report revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations; to segregate money for anticipated capital projects; to provide additional resources for current operations or debt service; and to return money to the fund from which it was originally provided once a project is completed.

Historically, the Mayor and City Council appropriate transfers from City Utilities to the General Fund. A four percent franchise fee and an amount representing the lease of assets is transferred monthly. These transfers are intended to offset public safety/works costs which are impacted by the heavy industrial base present within the city limits of Calhoun.

City of Calhoun, Georgia
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

3-G. Landfill Post-closure Care

The City's industrial landfill was closed under Georgia Environmental Protection Division (EPD) guidelines in 1992. During that year, eleven ground water monitoring wells and three surface water locators were installed under EPD *Solid Waste Guidelines*. The City has monitored the site and will continue such monitoring, as prescribed by the EPD guidelines. Annual costs associated with these requirements are estimated at \$25,000 each year for the remaining three years of required monitoring. This annual estimate is based on costs experienced during the initial years of required monitoring. The liability for these costs is reported in the solid waste fund. In the future, significant economic inflation or deflation, technology or applicable laws or regulations may change future estimates of the liability. The estimate of post-closure liability may change from year to year and the change in estimate is a component of net income in the year of revision.

3-H. Long-Term Debt

The City has issued general obligation bonds to provide funds for the acquisition and construction of major capital facilities, including the renovation and expansion of educational facilities within the City. General obligation bonds are direct obligations and pledge the full faith and credit of the City. The City has issued revenue bonds where the City pledges income derived from the acquired or constructed assets to pay debt service. Also, the City is obligated for notes payable, capital leases, claims, an unfunded pension plan, and landfill post-closure liabilities. Arbitrage rules apply to the tax-exempt debt issued by the City.

Governmental Activities Debt – The following is a summary of the outstanding debt for the City's governmental activities.

Bonds - On March 9, 2000, the City issued \$4,857,800 in Calhoun Recreation Authority refunding revenue bonds at an interest rate of 4.16%. The City issued the bonds to advance refund \$4,470,000 of the outstanding series 1992 Calhoun Recreation Authority revenue bonds with interest rates ranging between 4.7% and 6.125%. The bonds from the refunded 1992 issue are fully retired. Annual debt service requirements to amortize the 2000 series bonds at June 30, 2013 are as follows:

Fiscal Year	Principal	Interest	Total
2014	\$ 307,300	\$ 62,656	\$ 369,956
2015	316,700	49,677	366,377
2016	330,600	36,213	366,813
2017	343,800	22,185	365,985
2018	361,400	7,517	368,917
Total	<u>\$ 1,659,800</u>	<u>\$ 178,248</u>	<u>\$ 1,838,048</u>

In fiscal 2002, the City issued \$14,995,000, in school general obligation bonds. These bonds bear interest rates ranging from 3% to 5% and mature in December 2021. On February 24, 2003, the City issued an additional \$5,000,000 in school general obligation bonds. The bonds bear interest at rates ranging from 3.5% to 4.25% and mature in October 2021. These bonds are being used to finance construction for the City's schools and will be repaid, in part, from special sales taxes currently approved and being assessed within the City.

In fiscal 2011, the City issued \$21,000,000 in school general obligation bonds. These bonds bear interest at a rate of 5.12% and mature in September 2025. In fiscal 2012, the City issued \$12,000,000 in school general obligation bonds. These bonds bear interest at a rate of 4.0% and mature in September 2032. These bonds are being used to finance construction for the City's schools and will be repaid, in part, from special sales taxes currently approved and being assessed within the City.

City of Calhoun, Georgia
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

Annual debt service requirements to amortize the school bonds at June 30, 2013 are as follows:

Fiscal Year	Principal	Interest	Total
2014	\$ 205,000	\$ 1,510,675	\$ 1,715,675
2015	305,000	1,501,750	1,806,750

2017	-	1,482,675	1,482,675
2018	-	1,482,675	1,482,675
2019-2023	4,880,000	7,300,622	12,180,622
2024-2028	18,345,000	3,531,096	21,876,096
2029-2033	9,775,000	1,011,125	10,786,125
Total	\$ 33,800,000	\$ 19,311,693	\$ 53,111,693

Capital Leases –In fiscal 2008, the City entered into a capital lease for a fire platform truck in the amount of \$694,872. The financing period is 7 years at an interest rate of 3.58%. In fiscal year 2009, the City entered into a capital lease for a fire pumper truck in the amount of \$392,733 for a period of 7 years at 3.6%.

Annual debt service requirements to amortize these capital leases at June 30, 2013 are as follows:

Fiscal Year	Principal	Interest	Total
2014	\$ 167,676	\$ 8,237	\$ 175,913
2015	117,188	2,546	119,734
2016	21,029	158	21,187
Total	\$ 305,893	\$ 10,941	\$ 316,834

The assets acquired through these capital leases are as follows:

Asset	Governmental Activities
Machinery and equipment	\$ 1,087,605
Less: accumulated depreciation	(478,766)
Total	\$ 608,839

Business-type Activities Debt – The following is a summary of the outstanding debt for the City’s business-type activities.

Bonds –On September 28, 2011, the City issued Water and Sewerage Revenue Refunding Bonds, Series 2011 in the amount of \$6,525,000. Proceeds from this issue prepaid GEFA loans in the amount of \$4,955,000 and Series 2001 Bonds in the amount of \$1,570,000 and with interest rates ranging from 4.0% to 5.0%. The present value of the savings on the refunding of the bonds was \$150,723 and it was \$281,172 on the notes for a total of \$431,895 which was 6.7% of the refunded debt. The issue is a private placement issue and bears interest at a rate of 1.935%.

City of Calhoun, Georgia
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

Maturities and debt service requirements remaining on the bond issue at June 30, 2013 are as follows:

Fiscal Year	Principal	Interest	Total
2014	\$ 875,000	\$ 94,525	\$ 969,525
2015	885,000	77,594	962,594
2016	900,000	60,469	960,469

City of Calhoun, Georgia
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

Changes in Long-term Debt - Changes in the City's long-term obligations consisted of the following for the year ended June 30, 2013:

	Outstanding 6/30/2012	Additions	Reductions	Outstanding 6/30/2013	Amounts Due in One Year
Governmental Activities					
Revenue bonds	\$ 1,952,100	\$ -	\$ 292,300	\$ 1,659,800	\$ 307,300
General obligation school bonds	31,685,000	12,000,000	9,885,000	33,800,000	205,000
Capital leases	467,673	-	161,780	305,893	167,676
Claims	80,106	-	5,847	74,259	6,080
Compensated absences	278,551	287,030	278,551	287,030	71,758
Pension liability	524,836	-	48,039	476,797	-
Total Governmental Activities	<u>\$34,988,266</u>	<u>\$12,287,030</u>	<u>\$10,671,517</u>	36,603,779	757,814
Plus Deferred Bond Related Items				<u>789,734</u>	<u>-</u>
Net Governmental Activities				<u>\$ 37,393,513</u>	<u>\$ 757,814</u>
Business-Type Activities					
Revenue bonds	\$ 9,445,000	\$ 6,645,000	\$ 4,855,000	\$ 11,235,000	\$ 1,405,000
GEFA/SRF loans	13,350,751	541,909	4,753,442	9,139,218	1,775,153
Estimated landfill closure costs	95,193	-	23,096	72,097	23,558
Compensated absences	251,855	254,894	251,855	254,894	89,212
Pension liability	245,811	-	24,076	221,735	-
Total Business-Type Activities	<u>\$23,388,610</u>	<u>\$ 7,441,803</u>	<u>\$ 9,907,469</u>	<u>\$ 20,922,944</u>	<u>\$ 3,292,923</u>

The Recreation Authority revenue bonds principal and interest are paid by the general fund transferring resources to the debt service funds. The school bonds principal and interest are paid by the school bonds debt service fund. The governmental activities capital leases are being repaid from the general fund. Claims and pension liabilities are being repaid from the general fund and the water and sewerage funds. Amounts on landfill closure costs are being repaid from the solid waste enterprise fund. Principal and interest payments related to the City's water & sewerage system enterprise fund are financed from income derived from the operation of the water and sewerage system. Governmental compensated absences are primarily repaid from the general fund. Enterprise compensated absences are primarily paid out of the water and sewer fund.

3-1. Pension Plans

Primary Government

The City participates in four pension plans, three of which became effective July 1, 2004, and which effectively replaced the City of Calhoun Employees' Pension Plan adopted by the City in 1981, as amended in 1996. The fourth plan is the City Charter Unfunded Retirement Plan which includes retired employees who chose to remain in this plan in 1981 when the City of Calhoun Employees' Pension Plan was established.

Plans Administered through the Georgia Municipal Association

This plan is a defined benefit plan that covers all full-time City employees (30 hours weekly or more) who have been employed for one year or more, plus current elected officials. The plan goes forward covering service from July 1, 2003, plus it will cover current employees with service prior to July 1, 1981. Normal retirement age will be 65, with 5 years of credited service. Early retirement age will be 55, with 10 years of credited service, and benefits will be lower than those paid to employees retiring at normal retirement age. The benefit formula for regular employees will be 1.5% of wages contributed by the City. The benefit level for elected officials will be \$50 per year of service, with a cap not to exceed 100% of final base wages. The plan will be funded 100% by the City. This plan is not eligible for roll-over.

City of Calhoun, Georgia
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

Plan Description - The City's defined benefit pension plan, the City of Calhoun Retirement Plan (the "Plan"), provides retirement and disability benefits and death benefits to plan members and beneficiaries. The Plan is affiliated with the Georgia Municipal Employees Benefit System (the "System"), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for cities in the State of Georgia. The City is assigned the authority to establish and amend benefit provisions of the Plan. The System issues a publicly available financial report that includes financial statements and required supplementary information. The report can be obtained by writing to Georgia Municipal Association, Risk Management and Employee Benefit Services, 201 Pryor Street, SW, Atlanta, Georgia 30303 or by calling (404) 688-0472.

Funding Policy - Employees are not required to contribute to the Plan. The City is required to contribute at an actuarially determined rate. The minimum annual contribution requirements of the City are established by Public Retirement Systems Standards Law (Georgia Code Section 47-20-10).

Annual Pension Cost and Net Pension Obligation - For 2013, the City's annual pension cost of \$718,885 for the plan was equal to the City's required and actual contributions, based on fiscal year, which differs from the actuarial year. The actuarial valuation date was changed from March 1 to January 1 in fiscal year 2010. The required contribution was determined as part of the January 1, 2012, actuarial valuation using the projected unit credit actuarial cost method. The actuarial assumptions included (a) 7.75% investment rate of return and (b) projected salary increases of 3.5% per year plus age and service based merit increases and (c) inflation at 3.5%. The asset valuation method is the sum of actuarial value at the beginning of the year and the cash flow during the year plus the assumed investment return, adjusted by 10% of the amount that the value exceeds or is less than the market value at the end of year. The actuarial value is adjusted, if necessary, to be within 50% of market value for 2009, 44% of market value for 2010, 38% of market value for 2011, 32% of market value for 2012, 26% of market value for 2013, and 20% of market value for 2014 and later years. The remaining amortization period varies for the bases, with a net effective amortization period of 12 years. These amortization periods, if applicable, are closed for this plan year. The amortization method is closed level dollar. The schedule of funding progress presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Schedule of Funding Progress

Actuarial Valuation Date	(1) Actuarial Value of Assets	(2) Actuarial Accrued Liability (AAL)	(3) Funded Ratio (1)/(2)	(4) Unfunded AAL/(UAAL) (2)-(1)	(5) Annual Covered Payroll	(6) UAAL as a Percentage of Covered Payroll
3/1/2008	2,547,455	3,790,074	67.2%	1,242,619	9,364,641	13.3%
3/1/2009	2,744,491	4,617,225	59.4%	1,872,734	10,490,318	17.9%
1/1/2010	3,816,264	5,301,253	72.0%	1,484,989	10,295,999	14.4%
1/1/2011	4,717,707	6,120,497	77.08%	1,402,790	10,106,966	13.88%
1/1/2012	5,599,224	6,915,532	80.97%	1,316,308	9,598,700	13.71%
1/2/2013	6,556,534	7,664,617	85.54%	1,108,083	9,820,672	11.28%

Schedule of Employer Contributions

Actuarial Valuation Date	Annual Required Contribution	Percentage Contributed	Annual Pension Cost	Percentage Contributed
1/1/2011	756,671	100%	744,457	100%
1/1/2012	742,653	100%	731,077	100%
1/1/2013	713,034	100%	718,885	100%

Participation in this plan is comprised of the following as of the valuation date of January 1, 2013:

Retirees and beneficiaries receiving benefits	43
Terminated plan members entitled to, but not yet receiving benefits	35
Active plan members	257
Total	<u>335</u>

City of Calhoun, Georgia
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

Defined Contribution Plan – This pension plan is a defined contribution plan, which allowed roll-over of the plan assets at June 30, 2003, from the plan administered by AmSouth Bank in Birmingham, Alabama, which was the City’s primary plan through June 30, 2003. The employees did not make additional contributions to these funds after June 30, 2003; however, the City provided the final matching amount for fiscal year ended June 30, 2003, during fiscal 2004 in the amount of \$371,444. The plan was effective as of July 1, 2003, and upon transfer, the funds were invested at GMA in the Citistreet Program with investments being directed by the employee. No new funds, other than earnings, are paid into the plan. The plan will accept the current life insurance policies, and GMA will administer these as part of the plan. The plan is eligible for rollover at termination or retirement.

Deferred Compensation Plan - The third plan is the 457(b) plan of deferred compensation that will be funded 100% by the employees. The plan calls for volunteer contribution up to the levels allowed by the IRS. The cost of the plan will be borne by the participating employees. The funds will be invested under the Citistreet Program at GMA, and the employee will direct such investments. The employee will have a “one-time” opportunity to buy whole life insurance without a physical when joining the plan. The plan is portable and eligible for rollover.

City Charter Unfunded Retirement Plan - Single Employer Defined Benefit Pension Plan

Plan Description. Contribution Information and Funding Policies - Prior to the adoption of the City of Calhoun Employees' Pension Plan, the City Charter provided that an employee with thirty years of service should be retired and receive a pension at a rate of 60 percent of the highest pay per year. Benefits are funded via annual budget appropriations. The amounts are disbursed on a weekly basis, and are reflected as contributions made and benefits paid in plan financial statements. The Charter did not require payments to beneficiaries. The Charter did not mandate any funding requirements, i.e., employer/employee contributions. Upon the adoption of the new plan, effective July 1, 1981, employees made irrevocable decisions regarding their plan choice. Only current covered employees are eligible for coverage.

Participation in this plan is comprised of the following:

	June 30, 2013
Retirees Currently Receiving Benefits:	
General government	2
Culture and recreation	1
Water and sewerage system	1
Total Retirees Currently Receiving Benefits	4
Active Employees - Fully Vested	---
Active Employees - Nonvested	---
Terminated Employees, entitled to benefits, but not yet receiving benefits	---

Plan Assets, Annual Pension Cost and Net Pension Obligation - There are no assets legally reserved for future funding of the obligations associated with this defined benefit plan. All obligations, including administrative costs, of the plan are paid in conjunction with appropriated annual budgets of funds, which experience costs associated with this plan. The plan is reported in the City’s financial statements as a pension trust fund and the actuarial valuation is available as a separate report. A separate audited financial report is not available. Current year annual pension costs for the plan previously provided in the City Charter are shown below. Actuarial valuations are performed annually to determine the pension costs and associated net pension obligation resulting from the "pay as you go" funding called for in the charter. Benefits are recognized when due and payable in accordance with the terms of the plan. Actuarial gains and losses are amortized over a 5 year period under the closed method. The unfunded accrued actuarial liability was restated in 2007 and is also being amortized over a 5 year period. An assumption change occurred in 2008 and is being amortized over a 10 year period. Administrative costs are financed from the fund applicable to each participant. Trend information for the previous years is shown below:

Fiscal Year	Pension Costs (ARC Adjusted)	Employer Actual Plan Contributions	% of Pension Costs Contributed	Net Pension Obligation
2013	\$ 25,342	\$ 97,456	385%	\$ 698,533
2012	113,333	130,893	115%	770,647
2011	121,521	149,263	123%	788,207
2010	123,168	167,306	136%	815,949
2009	109,603	171,646	157%	860,087
2008	93,002	171,646	185%	922,130

City of Calhoun, Georgia
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

The pension costs for fiscal year ended June 30, 2013 are comprised of the annual required contribution (ARC), interest on the net pension obligation and adjustments to the ARC. The net pension obligation at June 30, 2013 is as follows:

Net pension obligation, beginning of year	\$ 770,647
Annual pension cost	
Annual required contribution (ARC)	(3,535)
Interest on net pension obligation	28,877
Pension costs	25,342
Adjustment to the ARC	-
Employer contributions	(97,456)
Increase (decrease) in net pension obligation	(72,114)
Net pension obligation, end of year	\$ 698,533

The schedule of funding progress is associated with this plan is listed below:

Schedule of Funding Progress						
	(1)	(2)	(3)	(4)	(5)	(6)
Actuarial Valuation Date	Actuarial Value of Assets	Actuarial Accrued Liability (AAL)	Funded Ratio (1)/(2)	Unfunded AAL/(UAAL) (2)-(1)	Annual Covered Payroll	UAAL as a Percentage of Covered Payroll
6/30/2008	-	1,286,024	0.0%	1,286,024	-	-
6/30/2009	-	1,233,436	0.0%	1,233,436	-	-
6/30/2010	-	1,111,036	0.0%	1,111,036	-	-
6/30/2011	-	970,093	0.0%	970,093	-	-
6/30/2012	-	685,111	0.0%	685,111	-	-
6/30/2013	-	656,015	100.0%	656,015	-	-

The following are the actuarial assumptions used in this plan:

Actuarial valuation date	6/30/2013
Actuarial cost method	Projected Unit Credit
Amortization method	Level Dollar
Asset valuation method	Market Value
Actuarial assumptions	
Investment rate of return	4%
Projected salary increases	No Active Employees
Inflation	None
Post employment retirement increases	None
Mortality	Unix's Pension 1984 Mortality Table

City of Calhoun, Georgia
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

3-J. Net Investment in Capital Assets

The “net investment in capital assets” on the government-wide statement of net position as of June 30, 2013 is as follows:

	Governmental Activities	Business Type Activities
Net Investment in Capital Assets:		
Cost of capital assets	\$ 131,912,134	\$ 186,320,023
Less accumulated depreciation	37,286,041	72,959,349
Book value	94,626,093	113,360,674
Less capital related debt, net of deferred refunding amounts, bond premiums and discounts	(36,555,427)	(20,233,536)
Add debt proceeds unspent at fiscal year end	9,243,173	-
Net investment in capital assets	\$ 67,313,839	\$ 93,127,138

Note 4 - Other Notes

4-A. Risk Management

The City maintains liability insurance coverage with traditional carriers for group insurance coverage, public official liability, comprehensive law enforcement liability, commercial auto and uninsured motorists, property, public employee dishonesty, commercial general liability, and public official bond coverage. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Coverage for workers’ compensation is provided through the Georgia Municipal Association (GMA) Workers’ Compensation Self-Insurance Fund which is a group self-insured program authorized by state statute and administered by GMA. The fund was created in 1982 to provide workers’ compensation statutory coverage to local government entities in Georgia. The fund is the largest source of workers’ compensation coverage for municipal governments in Georgia with nearly 540 members. Municipalities, municipal authorities and commissions, housing authorities, regional development centers, and municipal school districts are eligible to participate in the fund. The premiums paid by the City to the fund are expensed. Other than normal audits associated with workers’ compensation coverage, the risk pool has made no additional assessments to its participants since its formation. However, the legislation permitting the formation of the fund does provide for assessment of the fund’s membership if contributions and surplus are not sufficient to meet operating expenses or claim loss expenses.

4-B. Contingent Liabilities

Grants - Amounts received or receivable from grantor agencies are, subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

Lawsuits - The City was a defendant in lawsuits at June 30, 2013. In the opinion of City management, the outcome of these contingencies will not have a material effect on the financial position of the City.

MEAG - The City, together with 47 other cities and one county in the State, has entered into Power Sales Contracts dated March 1, 1976 with the Municipal Electric Authority of Georgia (MEAG) under which the City purchases certain power and energy for resale to its electric system customers. Under the contract entitlement, if the City were unable to purchase budgeted power, MEAG would be obligated to make a good faith effort to sell the power elsewhere. If MEAG were unable to sell the power at a price above its cost, the difference would be an obligation of the City. The contracts are agreements to pay the cost of generating power budgeted for the City. The obligation to pay MEAG certain amounts, whether or not power and energy are received, is a general obligation of the City to which its full faith and credit are pledged. If payments under the Power Sales Contracts are not made from revenues of the electric distribution system, the City is required under the contracts to include in its general revenue or appropriation measures sums sufficient together with other available revenues to make such payments. During the fiscal year, the City purchased electric power under these contracts for a total cost of \$28,425,330 net of off-system sales which reduced costs. Rebates of \$1,032,036 are reflected in the net power purchases of \$27,393,294.

City of Calhoun, Georgia
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

On February 22, 1999, the City approved a resolution adopting the provisions of a Municipal Competitive Trust agreement between the City and MEAG. MEAG established the Trust for the mutual benefit of MEAG and its wholesale customers (Cities) who elect to become participants. The Trust was created to provide a means to mitigate the expected differential between "after deregulation" market rates for power and the associated costs of generating that power.

The Trust originally created three types of accounts that are held by MEAG in the name of the City. The flexible operating trust account includes funds that are available to the City for operating costs and rate stabilization. As of June 30, 2013, the balance in this account was \$6,040,750. The intermediate flexible operating trust account has a balance of \$83,759 as of June 30 and is somewhat restrictive in nature, but the funds are available for a variety of uses, thus this account is included on the Electric funds books. The City of Calhoun also contributed to the generation trust account which has been established to set aside funds to provide generation for the future. As of June 30, 2013, the balance in this account was \$3,555,579 for a total of \$9,680,087 to be included in current restricted investments in the electric fund.

The funds in the credit support operating account are restricted for use to offset rate increases exceeding certain criteria and for loans for capital improvements that will reduce future operating costs. The funds in the reserve funded debt account can be only applied to charges related to MEAG's bond obligations. The balance of these accounts at June 30, 2013, was \$1,360,604 and \$9,530,825, respectively. Due to the restrictive nature of these funds, neither is shown in the cash balance for the electric fund. The intermediate generation trust account provides a more restricted investment account to provide for future generation and the balance of that account at June 30, 2013 is \$9,564,442. This account has been included in long-term investments on the City's books, but is only available for very restricted purposes.

In March 2008 the City voted and signed contracts for the City to participate in the expansion of two additional generating units at Plant Vogtle thus obligating the City to future debt through MEAG in the purchase of approximately 25 megawatts of capacity. This generation is estimated to cost approximately \$3,140 per kW at present value and is estimated that it will cost approximately \$6,200 in the year 2016. The City has secured power sales agreements with other entities that will cover a substantial portion of this obligation. The City of Calhoun will maintain 10 megawatts through the life of the project and 15 megawatts were sold through a purchased power agreement for twenty years. Our allotted capacity will secure a future power resource in 2016 which should accommodate the community's power needs for the next 30 to 35 years.

4-C. Related Organizations

The City of Calhoun, Georgia, Housing Authority: The Housing Authority has been established under federal laws to carry on activities within the City. The City does appoint board members at the recommendation of the existing board but provides no financing or participation in management or operating decisions of the Authority. The Authority issues separate, audited financial statements with a March 31 fiscal year.

4-D. Joint Ventures

Northwest Georgia Regional Commission: Under Georgia law, the City in conjunction with other cities and counties in the Northwest Georgia area is a member of the Northwest Georgia Regional Commission (NWGRC). Membership in NWGRC is required by the Official Code of Georgia Annotated (OCGA) section 50-8-34 which provides for the organizational structure of the NWGRC. Membership in the NWGRC includes the chief elected of each county and municipality of the area. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of a NWGRC. During fiscal year 2013, the City paid dues in the amount of \$15,773 to the NWGRC. Separate financial statements may be obtained from the Northwest Georgia Regional Commission, 1 Jackson Hill Drive, Rome, Georgia 30162.

The Calhoun-Gordon County Library: The Calhoun-Gordon County Library is a part of the Dalton, Georgia Regional Library System. This system consists of boards from four member counties. Of the five board members comprising the Gordon County Library Board, one is an appointee of the City. Other board members represent appointees from the City and County school boards and the Gordon County Board of Commissioners. The library board retains asset/equity ownership. The City, local school boards and the Gordon County Board of Commissioners make regular contributions to the Calhoun-Gordon County Library Board. Though the City does provide various support services for the library, the City's ability to significantly influence operations is moderate or comparable in relation to influences of other governments involved. Payments/expenditures to/for the library for the fiscal year ended June 30, 2013, were \$121,189. The library issues an annual list of cash receipts and disbursements on a June 30 fiscal year basis. Separate schedules may be obtained from the Calhoun-Gordon County Library, 100 N Park Avenue, Calhoun, GA 30701.

City of Calhoun, Georgia
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013

The Calhoun-Gordon County Airport Authority: This Authority is a legally separate entity with full corporate powers, including power to establish rates necessary to finance any debt the Authority might incur. The City and Gordon County, Georgia appoint members of the Airport Authority. The City shares appointment powers with the County equally. The City does not significantly influence operations with contributions in excess of the County. The City and County participate in providing local funding when the Authority is recipient of grants that require matching funding. Both the City and County have entered into agreements to participate as joint lessees in order to guarantee certain debt of the Authority. Additionally, on August 1, 2001, the City, along with Gordon County, entered into an intergovernmental contract with the Calhoun-Gordon County Airport Authority. In the contract, the City and County each agree to provide one-half the debt service payments required on the Authority's 2001 bond issue. The issue, with total debt principal of \$685,000, financed construction of a new airport terminal. Debt service requirements total \$64,088, per year through the fiscal year 2016. The City's portion (one-half) of the annual debt service is \$32,044. The airport is leased to and operated by a for-profit entity. Total expenditures paid by the City for the Airport Authority for fiscal 2013 were \$87,281. Separate financial statements may be obtained from the Calhoun-Gordon County Airport Authority, 1957 Hwy. 41 South, Calhoun, GA 30701.

4-E. Hotel-Motel Lodging Tax

The City of Calhoun levies a 5% Hotel/Motel tax in accordance with OCGA 48-13-51. Amounts levied in excess of 3% (40% of the taxes levied) are expended for the purpose of promoting tourism in accordance with OCGA 48-13-51 (a) (3).

	Tax Rate	% of Receipts	Total
Lodging Tax Receipts			\$ 319,695
Disbursements			
Gordon County Chamber of Commerce	2%	40%	\$ 127,878
Gordon County Chamber of Commerce	1%	20%	63,939
Gordon County Industrial Development Authority	2%	40%	127,878
	5%	100%	(319,695)
Difference			\$ -

4-F. Prior Period Adjustment

In fiscal year 2013, the City implemented *GASB Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*. Also during fiscal year 2013, the City early implemented *GASB Statement No. 65, Items Previously Reported as Assets and Liabilities*. As a result, we have deleted unamortized bond issuance costs for governmental activities at the government-wide level and for the business -type activities at the fund level by adjusting all periods affected. In addition, there are numerous terminology changes throughout the financial section of this report. These classification modifications for terminology changes do not require a prior period adjustment.

	Governmental Activities	Business Type Activities
Net position as previously reported, June 30, 2012	\$ 78,496,736	\$ 112,854,475
Prior period adjustment for unamortized bond issuance costs	(226,720)	(206,278)
Bond issuance costs expensed fiscal 2012	-	(100,908)
Bond amortization deleted fiscal 2012	-	22,688
Net position as restated, June 30, 2012	\$ 78,270,016	\$ 112,569,977

NONMAJOR GOVERNMENTAL FUNDS COMBINING AND INDIVIDUAL FUND STATEMENTS

Special revenue funds are used to account for the proceeds of specific revenue sources, that are legally restricted to expenditures for specified purposes.

Urban Development Action Grant Fund- to account for the Revolving Loan grant used to make low-interest loans to local businesses and promote growth.

Home Investment Partnership Act Fund- to account for transactions relating to loans assigned to the City by the Georgia Department of Community Affairs.

Confiscated Assets Fund- accounts for police seizures and expenditures according to Georgia law.

West Calhoun Grant Fund- accounts for a CDBG grant to redevelop the West Calhoun area.

Hotel/Motel Tax Fund- to account for the collection and disbursement of hotel/motel taxes.

School Tax Fund- to account for School tax collections and expenditures paid directly on behalf of the School, with remaining collections transferred to the School monthly.

Recreation Fund- to account for sports programs and recreational activities offered to City residents.

Debt service funds are used to account for the accumulation of resources obligation debt and the payment of principal and interest on long term general

Revenue Bond Debt Service Fund- to account for debt service of Calhoun Recreation Authority revenue bonds.

Capital project funds are established for the construction or purchase of significant capital assets used by governmental funds only.

2005 SPLOST Fund- to account for SPLOST revenues and capital outlay for water and sewer projects and public safety improvements.

2011 SPLOST Fund- to account for SPLOST revenues and capital outlay for various utility, recreation and other projects as well as public safety improvements.

School SPLOST Fund- to account for ESPLOST revenues approved for capital outlay for the City Schools.

City of Calhoun, Georgia
Statistical Section
(Unaudited)

This part of the City's comprehensive annual financial report presents detailed information as a context for understanding this year's financial statements, note disclosures, and supplementary information. This information has not been audited.

Contents

Exhibit

Financial Trends

I - XIX

These tables contain trend information that may assist the reader in assessing the City's current financial performance by placing it in a historical perspective.

Revenue Capacity

XX - XXX

These tables contain information that may assist the reader in assessing the viability of the City's three most significant "own-source" revenue sources, utility charges for services, property taxes and sales taxes. Electric user charges are the primary "own revenue source." Some similar data for the water and sewerage charges also is presented. The principal sales tax remitters information is not available from the Georgia Department of Revenue, the organization which collects the sales taxes from businesses and remits the City's share to the City.

Debt Capacity

XXXI - XXXVI

These tables present information that may assist the reader in analyzing the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

Demographic and Economic Information

XXXVII - XXXVIII

This table offers demographic and economic indicators that are commonly used for financial analysis and that can inform one's understanding the City's present and ongoing financial status.

Operating Information

XXXIX - XXXXIII

These tables contain service and infrastructure indicators that can inform one's understanding how the information in the City's financial statements relates to the services the City provides and the activities it performs.

Data Source:

¹ Unless otherwise noted, the information in these tables is derived from the comprehensive annual financial reports for the relevant year. The City implemented GASB Statement No. 34 in fiscal year 2003, tables presenting government-wide information include ten years of data.

Notes:

¹ Accounting standards require that Net Position be reported in three components in the financial statements: invested in capital assets, net of related debt; restricted; and unrestricted. Net Position are considered restricted only when (1) an external party, such as the State of Georgia or the federal government, places a restriction on how the resources may be used, or (2) enabling legislation is enacted by the City. There are no restrictions currently reported as a result of enabling legislation.

Notes:

¹ The City issued \$21,000,000 in general obligation bonds for the school in FY 2011 and \$12,000,000 in FY 2012 that primarily was the cause for the large increase in fund balance in those years, due to unspent bond proceeds.

Notes:

¹ Includes all governmental fund types.

² In fiscal year 2006, the City established a utility internal service fund which accounts for all utility billing services which previously were included within the general fund and then charged back to the utilities.

³ In fiscal year 2013 the 2002 School bonds and the majority of the 2003 School bonds were paid off, causing a large amount of principal payments in that year.

Notes:

¹Taxes recognized for the year presented are reported in the subsequent fiscal year.

²Excludes homestead property exemptions. All prior years restated

³All property is assessed at 40% of fair market value.

⁴Tax rates expressed in rate per \$1,000 of annual taxes values (i.e., mills). Includes the school tax levied on behalf of the Calhoun City Schools, a discretely presented component unit.

Notes:

¹ Tax rates expressed in rate per \$1,000 of annual taxes values (i.e., mills).

² Overlapping rates are those of governments that overlap the City's geographic boundaries.

³ Since City property owners do not pay Gordon County school tax, this government's tax rates are not presented.

⁴ The State of Georgia levies one quarter of one mill on each county's taxable property to help finance their certification of each Georgia county's tax digests.

⁵ The City of Calhoun levies the property taxes for the Calhoun City Schools, a discretely presented component unit.

Notes:

² The local option sales tax was approved by referendum and is effective indefinitely. Both the City and the County are required to reduce their property tax millage rate in the current year by the amount of these taxes collected in the prior year.

³ The current special purpose local option sales tax was approved effective April 1, 2012 and expires March 31, 2018.

⁴ Effective January 1, 2004 the Gordon County Board of Education began levying a 1% education special purpose local option sales tax, that is allocated between the City and County Schools. The current tax was approved effective July 1, 2012 and expired June 30, 2017.

Notes:

¹ Water and sewer operating revenues inclusive of interest and other nonoperating revenue, excluding any gain on disposition of assets.

² Water and sewer direct operating expenses exclusive of depreciation, amortization and loss on disposition of capital assets.

³ Only the amount of regular principal payments have been included. Payments to retire the debt through proceeds from bonds were not included as they would skew the coverage calculation.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Honorable James F. Palmer, Mayor
And the Members of the City Council
City of Calhoun, Georgia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of City of Calhoun, Georgia, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise City of Calhoun, Georgia's basic financial statements, and have issued our report thereon dated December 31, 2013.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered City of Calhoun, Georgia's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City of Calhoun, Georgia's internal control. Accordingly, we do not express an opinion on the effectiveness of City of Calhoun, Georgia's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether City of Calhoun, Georgia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

To the Honorable James F. Palmer, Mayor
and the Members of the City Council
City of Calhoun, Georgia

Report on Compliance for Each Major Federal Program

We have audited City of Calhoun, Georgia's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of City of Calhoun, Georgia's major federal programs for the year ended June 30, 2013. City of Calhoun, Georgia's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of City of Calhoun, Georgia's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about City of Calhoun, Georgia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of City of Calhoun, Georgia's compliance.

Opinion on Each Major Federal Program

In our opinion, City of Calhoun, Georgia, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2013.

Report on Internal Control Over Compliance

Management of City of Calhoun, Georgia, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered City of Calhoun, Georgia's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of City of Calhoun, Georgia's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT

To the Honorable James F. Palmer, Mayor
And Members of the City Council
City of Calhoun, Georgia

We have audited the accompanying Project Cost Schedules for projects constructed with Special Sales Tax Proceeds for the City of Calhoun, Georgia as of June 30, 2013. These Project Cost Schedules are the responsibility of the City of Calhoun, Georgia's management. Our responsibility is to express an opinion on the Project Cost Schedules based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance that the Project Cost Schedules are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the Project Cost Schedules. We believe that our audit provides a reasonable basis for our opinion.

The accompanying Project Cost Schedules were prepared to present each identified project and information required by Section 48-8-121 OCGA and is not intended to be a complete presentation of the City of Calhoun, Georgia's assets and liabilities.

In our opinion, the accompanying Project Cost Schedules present fairly, in all material respects, the original estimated cost of each project, expenditures incurred and the estimated percentage of completion of each project as of June 30, 2013, in conformity with accounting principles generally accepted in the United States of America.

This report is intended solely for the information and use of the Mayor and City Council, management, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
