- Gaylords are the type of containers we ship our mixed plastics and mixed paper in via transfer truck. 50 Gaylords denote a full trailer at which point a pick will be scheduled and trailer loaded and shipped.
- The percentage is the fullness of the given container at the recycling center. When the percentage reaches 100 it will be shipped to the buyer.
- Baled OCC will be held until it is deemed the right time to sell by the coordinator. As prices fluctuate in the commodities market, timing is key to bring the city the best price possible at any given time.
- Rutco Recycling accepts our soft plastics (numbers 3-7). This is a newly formed partnership with Rutco and Michaels Carpet which provides the center with trailers and transportations free of charge to the city.
