Curbside Pick-up pilot program:

The pilot program kicked off very well on October 4th. Renee Mauldin and several staff members of Mauldin's Trash Service were able to bring over 90 of our blue bags and hundreds of pounds of cardboard to the MRF (Material Recovery Facility). In short order the material was sorted, weighed, and packaged into the proper containers to be sold to our buyers. We collected the following: Steel 10 lbs., Aluminum 7 lbs., OCC 236 lbs., Mixed Paper 366 lbs., and Plastic 67 lbs. bringing a total of 686 pounds to the MRF instead of the landfill. The next pick-up will be on October 18th.
