City of Calhoun, Georgia

Site of New Echota in the Land of the Cherokee

December 31, 2015

***To the Honorable Mayor, Members of the City Council and
the Citizens of the City of Calhoun, Georgia:***

The ***Comprehensive Annual Financial Report*** (CAFR) of the City of Calhoun for the fiscal year ended June 30, 2015, is submitted herewith. This report was prepared by the City's finance department and is intended to fulfill the requirements for audit prescribed by state laws for general-purpose local governments and to fulfill Single Audit requirements of Federal and State governments. Management assumes full responsibility for the completeness and reliability of the information contained in this report, based on a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

R. M. Dobbs & Company, Certified Public Accountants, has issued an unmodified ("clean") opinion of the City of Calhoun's financial statements for the fiscal year ended June 30, 2015. The independent auditor's report is located at the front of the financial section of this report. Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

This report includes all funds of the City. The City provides a full range of services. These services include public safety (police, fire, and animal control), construction and maintenance of roads and infrastructure, recreational and park activities. This report includes two component units: the Calhoun Board of Education and the Downtown Development Authority both of which meet the component unit criteria as set forth in GAAP. The City is financially accountable for the local support required for the City's independent school system. The activity of the Downtown Development Authority is immaterial and is, therefore, not presented on the face of the statements.

Also included in this report are the following enterprise funds: the water and sewer system fund, the electric system fund, the telecommunications fund, the Fields Ferry Golf Course fund, and the solid waste fund. In addition, the City provides economic development support through the revolving loan fund and the hotel-motel tax fund.

PROFILE OF THE GOVERNMENT

The City of Calhoun, incorporated in January 1852, is located in the northern portion of the state on I-75. The City of Calhoun occupies a land area of approximately 12 square miles and serves a residential population of approximately 15,650 and a service delivery population of approximately 55,000. The City of Calhoun is empowered to levy a property tax on both real and personal properties located within its boundaries. It is also empowered by state statute to extend its corporate limits by annexation, as deemed appropriate by the Mayor and Council.

The City of Calhoun operates under a Mayor, Council, City Administrator and General Manager form of government. Policy making and legislative authority are vested in the Mayor and Council, consisting of five members. The Mayor and Council are responsible for, among other things, passing of ordinances, zoning, adopting the budget, appointing committees, hiring the City Administrator, General Manager, and City Attorney, and for appointing the heads of various departments of the City government. The City Administrator and General Manager are responsible for carrying out the policies and ordinances adopted by the Mayor and Council and overseeing the day-to-day operations of the government. The Mayor and Council are elected on a non-partisan basis; they serve four-year, staggered terms, with two Council members elected every two years and the Mayor elected every four years. The Mayor and Council members are elected at large. However, the Council members are elected for specific Council posts; therefore, candidates seeking office declare a post number when qualifying.

The annual budget serves as the foundation for the City of Calhoun's financial planning and governmental control. All departments and agencies of the City of Calhoun are required to submit requests for appropriation to the Administrator and the Manager by the deadline established in the budget calendar approved by the Mayor and Council. The City Administrator and the General Manager use these requests as the starting point for developing a proposed budget. They present the first budget draft to the Mayor and Council at a work session in April of each year. A public hearing on the refined first draft is held in early May of each year. Following the hearing, a second draft is prepared, if necessary, and is reviewed by the Mayor and Council in a second work session. The second public hearing on the final draft is held in early June and is adopted by the Mayor and Council in late June of each year. The appropriated budget is prepared by fund, function and department. Department heads may make transfers of appropriations within divisions of a department, as approved by the budget officers, the Administrator and Manager. However, transfers from department to department and fund to fund require approval of the Mayor and Council. The annual budget also includes the City's long-term financial planning efforts in the form of a five year capital plan for each department.

MAJOR INITIATIVES

Utility division:

In May 2003, the City of Calhoun purchased "Big Springs" from the Forster H. Bates Estate at a cost of \$4,025,000, funded with a temporary bank loan and subsequently with permanent financing via a bond issue. The purchase has allowed the City to add over six million gallons of raw water per day to its system as permitted by the state. The bond issue was closed in July 2003 and the temporary bank loan was paid in full in fiscal 2004. The piping to connect the spring to the water system was budgeted for fiscal 2005, in the amount of \$655,969. Changes in EPD requirements increased the scope and price of the project, and it was delayed. The project was listed as a primary project on the SPLOST Referendum that was successfully passed by 83% of those citizens voting in November 2005. The engineering began in fiscal 2006 and the construction phase was completed in fiscal 2010. Additional land and buildings were purchased in fiscal year 2010 for approximately \$1 million dollars that will enhance the Utilities ability to utilize this spring. The filtration portion of the project was started in fiscal year 2011 with a loan from GEFA that had 30% forgiveness through the federal ARRA funding. The project was completed in fiscal year 2015 with the assistance of additional funding from GEFA.

The Water and Waste Water Department secured low interest GEFA fund financing availability for possible accelerating of some long term infrastructure improvements. The borrowing will only be accessed where financial and engineering analysis indicate that it is cost effective. To date, King Street sewer improvements, water and sewer improvements at Red Bud/I-75, 2" galvanized line replacements on water lines and a major renovation to the Mauldin Road Water Plant have utilized this financing.

The Telecommunications department owns and operates a fiber optic network to provide City government network and commercial internet and point-to-point Ethernet services. Research continues on new technologies that will increase efficiency, reduce cost and increase customer satisfaction. As a result, additional services may be offered and service areas expanded.

Started in 2007, the Geographic Information System (GIS) department has developed one of the state's best GIS systems. All utility services have converted from paper and CAD drawings to electronic versions which are available online to operations personnel in the field and the public. Data from many other City departments, such as police and fire, is collected to visually represent services, trends and make information available during emergencies.

The City of Calhoun Electric fund performed work on major projects for fiscal year 2015 of approximately \$840,000 that included construction at the new high school and hospital expansion, construction on lighting at an interstate ramp and various other improvements. The City has voted and signed contracts obligating the City to participate in the expansion of two additional generating units at Plant Vogtle. Our allotted capacity will secure a future power resource in 2019. An additional five year Inter Participant Transfer (IPT), facilitated through MEAG, was executed in early 2011 to bridge electric generation needs until Plant Vogtle becomes commercially operable. These transactions should accommodate the community's power needs for the next 30 to 35 years.

General Government Division:

Public Safety:

Police:

The City of Calhoun Police Department case load remains average to last year with various types of property crimes, domestic disturbances, false alarms, and traffic related incidents being the highest in numbers. Violent crime statistics are similar to other southeastern municipalities which range in 1% from the past year. The DUI arrests are up this year due to the concentrated efforts of our department in conjunction with the Governor's Office of Highway Safety.

The police department continued to work as a partner with the Federal Bureau of Investigation's (F.B.I.) Safe Streets Program that provides Calhoun with assets such as manpower, vehicle and fuel, equipment, technical, and legal expertise for operations primarily associated with gang activity, drugs, illegal immigration, and forgery. Several federal cases worked by our department provided shared funds that were used to furnish and re-model a new office building for the Special Operations Division. This year we continue to partner with the Federal Alcohol Tobacco and Firearms division, where two of our officers are sworn as Federal Agents and are being provided with vehicles and fuel, at no cost to the City. Successful cases through this agency have also provided shared funds to assist the department without using City budget funds.

Fire:

The Calhoun Fire Department has an **ISO Class 3** rating for property and casualty insurance purposes. The department has a training center located at Station #2 off Richardson Road and Executive Parkway. This center consists of a live fire burn building and training tower, along with other training props. This was built per ISO recommendations in the last review. The Fire Department has a Chief of Training to coordinate the department training and use of the site. These two additions have had a direct impact of lowering the ISO rating for property and casualty insurance purposes for the City of Calhoun. The Fire Department has purchased property on Mauldin Road for the proposed 4th fire station as recommended in the last ISO review.

The number of structure fires within the City of Calhoun continued to decline this year, while the total number of calls continues to increase due to increased medical call requests. Fire call reduction is due in part to fire inspections, fire codes, fire prevention classes, and fire resistant building materials. While the fire department's primary mission is life safety through fire prevention and suppression, they also service other emergency areas. The Fire Department hosts GSAR (Georgia Search And Rescue) Task Force 6, which is one of the State of Georgia sponsored Search and Rescue Teams. The department annually receives grant funding from State and Federal sources to maintain Task Force 6 and occasionally receives funding for the Hazardous Materials team in which the County jointly participates. Situations involving search and rescue, EMS/medical calls, vehicle accidents, industrial accidents, hazardous materials incidents and conditions (leaks, spills, toxic materials, and hazardous materials), severe weather and other incidents have caused the department to broaden its scope of operations, response, and expertise.

Public Works:

Street Department operations during fiscal year 2015 included paving and milling with City funds on selection portions of Experiment Station Rd. The roads that were paved through a joint agreement with Gordon County included Ebco Dr., S. Line St., Victor St., Carter St., Pine Lane, Louise Ave., Richardson Rd., Cherokee Dr., N. Industrial Blvd., Cherry St., Normandy Lane, Derby Lane, Melea Lane, Roberts St. and Jackson St. The State LMIG Program contractor paved all of Meadowbrook Subdivision, the North end of College St., Vogel St. and Sherwood Dr.

Most of the engineering work and design has been completed by the Yeager Company on the Transportation Enhancement Grant Project, Streetscape Phase IV that included design and engineering from Hicks Street south to Piedmont Street at Wall Street. Engineering and design is near completion on the first phase of the Peters Street project that starts at Gordon Hills Shopping Center and runs through the proposed roundabout at E. May Street.

New equipment purchases were made available with SPLOST funds.

Recreation:

Recreation programming saw additional growth by adding new programs and an increase in participation for 2015. The park master plan for the 58 acre park expansion was completed and approved by City Council. Phase I of the park expansion was approved to begin development in calendar year 2015 with a tentative completion date of April 2017. All programs continue to increase and additional weeks were added to Adventure Camp during the summer. Facility improvements were also made to the Recreation Center.

The City's public golf course, Fields Ferry, faced a challenging year but continued to offer an eighteen-hole championship course to the surrounding population. Strong internal management and maintenance of the course allowed them to weather a continued overall downturn in the industry attributed to overbuild, weather, and economic recession that continued into fiscal 2015. The City maintained a Golf Advisory Commission, composed of businessmen active in the sport that met with Golf Management quarterly to review activity and to make recommendations on rates, budget projections, and to review financial reports. The Advisory Commission, established in 1991, continues to advise the Mayor and Council.

FINANCIAL INFORMATION

Budgeting Controls: Budgets have been adopted and appropriated at the fund level for each City governmental fund. Budgetary control is maintained by continued review of the budget-to-actual reports by the Finance department and each department head and full fund reports to the Mayor and Council quarterly. Budget amendments were made after presentation to the Mayor and Council for consideration for governmental funds. The City's budgetary accounting basis for proprietary funds is modified accrual, with all revenues and expenditures budgeted on an accrual basis except for line items for capital outlay and debt payments. The City's budgetary accounting basis for governmental funds is modified accrual. All encumbrances are cancelled at the fiscal year end. Unexpended appropriations lapse at year-end for budgetary purposes and are subject to re-appropriation in the following year.

Long-term Financial Planning:

Each year the City adopts a five-year Capital Improvement Program. This plan helps identify projects that should be undertaken in the next five years. This long-range planning is essential in addressing the future development and growth of the City. The City of

Calhoun has continually funded its capital requirements aggressively and maintains a pay as you go funding for most of its capital needs, which limits its borrowing requests.

Economic Conditions Affecting the City

The City continues to feel the effects of the economic downturn. With the downturn in the housing market, the City was given the opportunity to stabilize growth by improving development standards. The existence of a local technical college has allowed for the training and retraining of many in the work force for jobs where higher levels of education and technical skills are required or in areas where more jobs are available. A large hotel chain completed construction of one of its premier facilities in the City of Calhoun and the Hotel/Motel collections have had a definite increase. The City does continue to get industrial prospects who inquire about the possibility of locating here, as close accessibility to Atlanta is attractive. The City of Calhoun has positioned itself very well for growth, due to capacity for expansion in the areas of water, sewer and electricity.

Awards: The Government Finance Officers Association of the United States and Canada (GFOA) awarded the Certificate of Achievement for Excellence in Financial Reporting to the City of Calhoun for its comprehensive annual financial report for the fiscal year ended June 30, 2014. The Certificate of Achievement is the highest form of recognition in the area of governmental accounting and financial reporting, and its attainment represents a significant accomplishment by a government and its management. In order to be awarded this achievement, a governmental unit must publish an easily readable and efficiently organized comprehensive annual financial report that satisfies both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe the current CAFR continues to meet the program requirement.

Acknowledgments: We wish to express our gratitude and appreciation to the members of the Finance department and the Director of Finance of the City of Calhoun for their diligent work on this year's CAFR. We would also like to acknowledge the interest and support of the Mayor and Council in the financial affairs of the City of Calhoun.

Respectfully Submitted,

Eddie Peterson

INDEPENDENT AUDITOR'S REPORT

To the Honorable James F. Palmer, Mayor
And Members of the City Council
City of Calhoun, Georgia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Calhoun, Georgia, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the City of Calhoun, Georgia's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Calhoun, Georgia, as of June 30, 2015, and the respective changes in financial position, and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 12-19 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Calhoun, Georgia's basic financial statements. The introductory section, combining and individual fund financial statements, budgetary comparison schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

The combining and individual fund financial statements, budgetary comparison schedules, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements, budgetary comparison schedules and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Reissuance of Report

This report is replacing a previously issued report dated December 31, 2015. Following the release of that report, the City of Calhoun, Georgia learned that certain federal programs were omitted from the schedule of expenditures of federal awards, as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. The revised schedule of expenditures of federal awards is presented in this report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 31, 2015, on our consideration of the City of Calhoun, Georgia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Calhoun, Georgia's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION & ANALYSIS

MANAGEMENT'S DISCUSSION AND ANALYSIS

Within this section of the City of Calhoun, Georgia (the City) annual financial report, the City's management is pleased to provide this narrative discussion and analysis of the financial activities of the City for the fiscal year ended June 30, 2015. The City's financial performance is discussed and analyzed within the context of the accompanying financial statements and disclosures following this section.

Financial Highlights

- The City's assets exceeded its liabilities by \$225,557,630 (net position) for the fiscal year reported.
- Total net position is comprised of the following:
 - (1) Net investment in capital assets of \$170,441,140 includes property and equipment, net of accumulated depreciation, and reduced for outstanding debt related to the purchase or construction of capital assets.
 - (2) Net position of \$15,182,825 is restricted by constraints imposed from outside the City such as debt covenants, grantors, laws, or regulations.
 - (3) Unrestricted net position of \$39,933,665 represents the portion available to maintain the City's continuing obligations to citizens and creditors.
- The City's governmental funds reported total ending fund balance of \$23,864,605 this year. This compares to the prior year ending fund balance of \$21,087,266 showing an increase of \$2,777,339 during the current year. Unassigned and committed fund balance of \$8,810,312 for fiscal year 2015 shows a \$261,724 increase from the prior year.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$4,800,246 or 38% of total general fund expenditures.
- Overall, the City continues to maintain a strong financial position, as the economy starts to recover.

The above financial highlights are explained in more detail in the "financial analysis" section of this document.

Overview of the Financial Statements

This Management Discussion and Analysis document introduces the City's basic financial statements. The basic financial statements include: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the basic financial statements. The City also includes in this report additional information to supplement the basic financial statements.

Government-wide Financial Statements

The City's annual report includes two government-wide financial statements. These statements provide both long-term and short-term information about the City's overall financial status. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in accrual accounting and elimination or reclassification of activities between funds.

The first of these government-wide statements is the *Statement of Net Position*. This is the government-wide statement of position presenting information that includes all of the City's assets and liabilities, with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City as a whole is improving or deteriorating. Evaluation of the overall health of the City would extend to other nonfinancial factors such as diversification of the taxpayer base or the condition of City infrastructure, in addition to the financial information provided in this report.

The second government-wide statement is the *Statement of Activities*, which reports how the City's net position changed during the current fiscal year. All current year revenues and expenses are included regardless of when cash was received or paid. An important purpose of the design of the statement of activities is to show the financial reliance of the City's distinct activities or functions on revenues provided by the City's taxpayers.

Both government-wide financial statements distinguish governmental activities of the City that are principally supported by taxes from business-type activities that are intended to recover all or a significant portion of their costs through user fees and charges. Governmental activities include general government, judicial, public safety, public works, health and welfare, culture and recreation, housing and development and education. Business-type activities include the electric and water and sewer systems, the golf course, telecommunications and solid waste.

The government-wide financial statements are presented on pages 22-23 of this report.

Fund Financial Statements

A fund is an accountability unit used to maintain control over resources segregated for specific activities or objectives. The City uses funds to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statements, fund financial statements focus on the City's most significant funds rather than the City as a whole. Major funds are separately reported while all others are combined into a single, aggregated presentation. Individual fund data for non-major funds is provided in the form of combining statements in a later section of this report.

The City has three kinds of funds:

Governmental funds are reported in the fund financial statements and encompass the same functions reported as governmental activities in the government-wide financial statements. However, the focus is very different with fund statements providing a distinctive view of the City's governmental funds. These statements report short-term fiscal year accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of governmental programs and the commitment of spendable resources for the near-term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. Both the governmental fund balance sheet and the governmental fund operating statement provide a reconciliation to assist in understanding the differences between these two perspectives. The budgetary comparison statement for the general fund is included in the basic financial statements also.

The basic governmental fund financial statements are presented on pages 26-30 of this report.

Individual fund information for nonmajor governmental funds is found in combining statements and the individual fund statements in a later section of this report.

Proprietary funds are reported in the fund financial statements and generally report services for which the City charges customers a fee. The five City proprietary funds are classified as enterprise funds. Enterprise funds essentially encompass the same functions reported as business-type activities in the government-wide statements. Services are provided to customers external to the City organization for electric, water and sewer utilities, the golf course, telecommunications and solid waste management.

The basic enterprise fund financial statements are presented on pages 31-34 of this report.

Fiduciary funds are reported only in the basic financial statements on pages 35-36 and in the supplementary financial statements. This category reports an agency fund to account for flow of resources through the municipal court, a cemetery trust fund, and a trust fund for the City's pension fund.

Notes to the Basic Financial Statements

The accompanying notes to the financial statements provide information essential to a full understanding of the government-wide and fund financial statements. The notes to the financial statements begin on page 38 of this report.

Other Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents certain supplementary information concerning the City's budget presentations. Budgetary comparison schedules are included as supplementary information for special revenue funds, debt service funds, and capital project funds, where applicable. These schedules demonstrate compliance with the City's adopted and final revised budget. As discussed, the City reports major funds in the basic financial statements. Combining and individual statements and schedules for non-major funds are presented in a subsequent section of this report beginning on page 78.

Financial Analysis of the City as a Whole

The City's net position at fiscal year end is \$225,557,630. The following table provides a summary of the City's net position:

	Governmental Activities		Business-type Activities		Total	
	2014		2014		2014	
	2015	as restated	2015	as restated	2015	as restated
Assets						
Current assets	\$ 21,308,016	\$ 19,781,227	\$ 38,272,600	\$ 38,536,661	\$ 59,580,616	\$ 58,317,888
Other assets	4,203,929	1,571,936	17,277,527	11,434,318	21,481,456	13,006,254

Deferred Inflows of Resources	251,060	19,414	211,104	-	462,164	19,414
Net position						
Net investment in capital assets	75,629,332	73,836,731	94,811,808	94,358,323	170,441,140	168,195,054
Restricted	15,182,825	12,131,969	-	-	15,182,825	12,131,969
Unrestricted	7,846,802	7,883,436	32,086,863	26,334,092	39,933,665	34,217,528
Total net position	\$ 98,658,959	\$ 93,852,136	\$ 126,898,671	\$ 120,692,415	\$ 225,557,630	\$ 214,544,551

The City reported positive balances in net position for both governmental and business-type activities. Net position increased \$4,806,823 for governmental activities and by \$6,206,256 for business-type activities.

Approximately 77% of the governmental activities' net position are invested in capital assets at June 30, 2015 as compared to 79% at June 30, 2014. The City uses these capital assets to provide services to its citizens. With business-type activities, the City has invested 75% of its net position in capital assets in this fiscal year as compared to 78% in fiscal year 2014. Capital assets in the business-type activities provide utility services, but they also generate revenues for these funds.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)
For the Fiscal Year Ended June 30, 2015

City of Calhoun, Georgia

The following table provides a summary of the City's changes in net position:

GOVERNMENTAL REVENUES

The City is heavily reliant on business and franchise taxes and local option sales taxes to support governmental operations. Business license and franchise taxes provided 14% of the City's total governmental revenues, as compared to 11% in the prior year. Sales taxes provided 12% of total governmental revenues versus 9% in fiscal year 2014. This includes SPLOST revenues for business-type activities that is included in revenue in the governmental funds and then transferred out to the utility funds for approved projects. Property taxes and charges for services and fines are also important revenue sources (excluding grants and contributions) providing 7% and 4% of total revenues, respectively. Total General Fund revenues remain essentially consistent with the prior year, with only a 1% increase.

GOVERNMENTAL FUNCTIONAL EXPENSES

This table presents the cost of each of the City's programs, including the net costs (i.e., total cost less revenues generated by the activities). The net costs illustrate the financial burden placed on the City's taxpayers by each of these functions.

	<u>Total Cost of Services</u>		<u>Net Cost of Services</u>	
	<u>2015</u>	<u>2014</u>	<u>2015</u>	<u>2014</u>
General government	\$ 1,181,829	910,295	\$ 1,005,933	\$ 742,691
Judicial	516,959	553,636	516,959	553,636
Public safety	7,250,790	7,728,025	6,423,400	6,372,095
Public works	3,199,338	3,145,644	1,931,967	1,540,147
Health and welfare	61,348	67,362	61,348	67,362
Culture and recreation	1,674,895	1,680,368	345,565	224,916
Housing and economic development	1,092,843	1,021,466	901,840	227,530
Education	2,031,197	1,472,938	(5,783,350)	(9,716,892)
Interest	1,547,478	1,570,566	1,547,478	1,570,566
Total	<u>\$ 18,556,677</u>	<u>\$ 18,150,300</u>	<u>\$ 6,951,140</u>	<u>\$ 1,582,051</u>

Public safety expenses make up 39% of the governmental activities expenses. This compares to 43% in fiscal year 2014. The public works function is the second largest cost, making up 17% of governmental activities expenses, which is the same as the prior year.

Approximately 11% of gross program costs for public safety functions were recovered from public safety revenues, primarily fines and forfeitures. This compares to 33% in the prior year.

Note that the education function reports excess of revenues over expenses. This presentation may be misleading, although required. Program revenue in the education function is from intergovernmental ESPLOST revenue restricted for debt service. Debt principal payments have been eliminated from the statement of activities and charged against the liability in the statement of net position, causing the education function to appear to have a \$5.8 million dollar net revenue. It is anticipated that once the debt is paid, education will have a net loss because of depreciation expense.

BUSINESS-TYPE ACTIVITIES
Revenues vs. Costs

The operating revenues for all enterprise funds, including the internal service fund, were \$2,451,707 or 4% more than 2014 and total operating expenses were \$1,422,314 or 3%, more than fiscal year 2014. Within the total business-type activities of the City, these activities reported \$8,674,798 in operating income compared to operating income of \$7,645,405 in the prior year, or an increase of 14%. After transfers in and out between other funds and other non-operating items, these funds reported a net change in net position of \$6,206,256 compared to a net change in net position of \$4,986,423 in 2014.

Each specific fund reported the following change in operating income or (loss):

	<u>Amount Change</u>	<u>%</u>
Water and sewerage fund	\$ 689,144	23%
Electric system fund	311,114	7%
Field Ferry Golf Course fund	(114,322)	(45%)
Telecommunications fund	(14,019)	(6%)
Solid waste fund	(5,876)	(12%)

Water and Sewerage Fund – One of the major funds is the water and sewerage fund. The operating revenues increased 6% and operating expenses increased a little over 1%, resulting in an increase in operating income from 2014 of approximately 24%. The revenues increased primarily due to a rate increase in both water and sewer rates as well as some additional consumption over the prior year.

Electric Fund - The other major enterprise fund is the electric system fund. The charges for services for this fund have remain constant from fiscal 2014 to the current year.

Interfund allocations to the Utility internal service fund have increased by \$164,197.

Financial Analysis of the City's Funds

Governmental Funds

As discussed, governmental funds reported in the fund statements have a short-term, inflow and outflow of spendable resources focus. This information is useful in assessing resources available at the end of the year in comparison with upcoming financing requirements. Governmental funds reported ending fund balances of \$23,864,605. Of this year-end total, \$4,794,396 is unassigned indicating availability for continuing City service requirements. There is \$4,015,916 committed for working capital and contingencies. Legally restricted fund balances for program purposes are \$2,642,114, restricted for capital projects is \$5,622,309 and \$6,445,867 was restricted for debt service. Amounts equal to prepaid assets of \$344,003 are nonspendable for current expenditures.

The total ending fund balances of governmental funds show an increase of \$2,777,339 or 13% from the prior year.

Major Governmental Funds

General Fund - The general fund is the City's primary operating fund and the largest source of day-to-day service delivery. The general fund's fund balance increased by \$259,621 in fiscal year 2015.

General fund revenue increased \$134,976 or 1% from the prior year and total general fund expenditures increased \$826,831 when compared to the prior year, which represented 7%.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)
For the Fiscal Year Ended June 30, 2015

City of Calhoun, Georgia

General government increased \$297,249, primarily due to an intergovernmental agreement to provide lighting at Exit 312 through the Electric department. Public Works increased \$343,011 due to three streets donated during the year and asphalt purchased for an upcoming project. Public Safety increased \$223,356, which was primarily various small increases within the police department.

The general fund's unassigned and committed ending fund balance represents the equivalent of 70% of annual expenditures, as compared to 72% at June 30, 2014.

School Bond Debt Service Fund – This governmental fund accounts for the issuance of bonds for various school needs. Citizens have approved an E-SPLOST to fund the payments on these bonds during the term of the SPLOST. Renewals on the E-SPLOST will be voted on as each term expires until all such debt is paid. The 2002 and the 2003, School Bonds were paid off prematurely during fiscal years 2013 and 2014, which reduced the funds balance substantially.

The Proprietary Funds

The proprietary fund statements share the same focus as the government-wide statements, reporting both short-term and long-term information about financial status. Therefore, the analysis is presented above.

Budgetary Highlights

The General Fund – There were a few budget amendments done during this fiscal year, including amendments within the department and Council approved amendments between departments. Revenues were \$77,355 less than the final budget and 99% of final budgeted revenues were met. Budget amendments increased General Fund revenues by \$61,465 and accounted for additional sales tax and grants.

The City spent 98% of the final authorized budgeted expenditures. General government expenditures actual was \$295,146 less than budget primarily due to projects that were postponed. The budget amendments to increase the General Fund \$251,364 were primarily to budget for a lighting project with the electric department.

Capital Assets and Debt Administration

Capital Assets

At June 30, 2015, the depreciable capital assets for governmental activities were 32% depreciated, while being 31% depreciated at fiscal 2014. For the City's business-type activities, 44% of the asset values were depreciated at June 30, 2015 versus 43% at June 30, 2014. Consistent or decreasing percentages are a positive financial indicator.

See Note 3-E for additional information about changes in capital assets during the fiscal year and amounts outstanding at the end of the year.

Long-term Debt

At the end of the fiscal year, the City had two types of bonds outstanding, notes payable, capital leases, claims, compensated absences, landfill closure costs, and a pension liability. See Note 3-H for additional information about the City's long-term debt.

Economic Conditions Affecting the City

The City continues to feel the effects of the economic downturn, as does the nation. With the downturn in the housing market, the City was given the opportunity to stabilize growth by improving development standards and long-term efforts. The existence of a local technical college has allowed for the training and retraining of many in the work force for jobs where higher levels of education and technical skills are required or in areas where more jobs are available. A large hotel chain completed construction of one of its premier facilities in the City of Calhoun and the Hotel/Motel collections have had a definite increase. The City does continue to get industrial prospects who inquire about the possibility of locating here, as close accessibility to Atlanta is attractive. The City of Calhoun has positioned itself very well for growth, due to capacity for expansion in the areas of water, sewer and electricity.

Contacting the City's Financial Management

This financial report is designed to provide a general overview of the City's finances, comply with finance-related laws and regulations, and demonstrate the City's commitment to public accountability. The government-wide financial statements include not only the City itself (known as the primary government), but also the material component unit: Calhoun School District. Financial information for the component unit is reported separately from the financial information presented for the primary government. Complete financial statements for the unit are available from the City's Director of Finance upon request. If you have questions about this report or would like to request additional information, contact the Director of Finance, Andrea K. Bramlett at 700 W. Line Street, Calhoun, GA 30701, (706) 602-5840, abramlett@calnet-ga.net.

City of Calhoun, Georgia
Reconciliation of the Governmental Funds' Balance Sheet
to the Statement of Net Position
June 30, 2015

Total Governmental Fund Balances	\$	23,864,605
---	----	------------

**Amounts reported for governmental activities in the
statement of net position are different because:**

Capital assets used in governmental activities are not current financial resources and therefore are not reported in the funds (exclusive of internal service funds' capital assets).

Cost of capital assets	\$	153,790,439	
Less accumulated depreciation		<u>(43,412,954)</u>	110,377,485

Other long-term assets are not available to pay for current-period expenditures and therefore are deferred in the funds.

Property taxes		517,394	
Fines		754,346	
Deferred outflow pension related		<u>273,024</u>	1,544,764

Interfund receivables and payables between governmental funds are reported on the governmental fund's balance sheet but eliminated on the government-wide statement of net position.

Interfund receivables		(66,524)	
Interfund payables		<u>66,524</u>	-

Liabilities not due and payable in the current period are not reported in the governmental fund balance sheets but are reported on the government-wide statement of net position.

Bonds		(34,727,125)	
Capital leases		(21,028)	
Net pension liability		(1,244,697)	
Claims		(73,921)	
Compensated absences		(303,897)	
Accrued interest		(525,581)	
Deferred inflow pension related		<u>(231,646)</u>	<u>(37,127,895)</u>

Net Position Of Governmental Activities	\$	<u>98,658,959</u>

See accompanying notes to the basic financial statements

City of Calhoun, Georgia
Reconciliation of the Governmental Funds' Statement of Revenues, Expenditures
and Changes in Fund Balances to the Statement of Activities
For the Fiscal Year Ended June 30, 2015

Net Changes In Fund Balances - Total Governmental Funds \$ 2,777,339

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures on the governmental fund type operating statement. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capitalized capital outlay exceeded depreciation expense in the current period.

Depreciation expense	\$ (3,665,944)	
Capital outlay	1,624,131	(2,041,813)

Contributions of capital assets from the component unit are reported on the government-wide statement of activities but not at the fund financial reporting level. 3,997,998

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues at the fund financial reporting level.

Property taxes:		
Deferred @ 6/30/15	517,394	
Deferred @ 6/30/14	(628,742)	(111,348)
Cemetery lot sales:		
Deferred @ 6/30/15	-	
Deferred @ 6/30/14	(15,177)	(15,177)
Fines:		
Deferred @ 6/30/15	754,346	
Deferred @ 6/30/14, <i>as restated</i>	(1,186,549)	(432,203)

Elimination of transfers between governmental funds, including net effect of transfers recorded for capital assets moved between governmental and enterprise funds.

Transfers in	(1,097,513)	
Transfers out	1,097,513	-

Repayment of long-term debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of activities. 433,888

Amortization of bond premiums/discounts are reported on the government-wide statement of activities but not reported on the fund financial reporting level. 35,187

Pension expense represents the change in net pension liability from the beginning of the year to the end of the year on the statement of activities, but is measured by the amount actually paid in the governmental funds. This is the amount by which pension contributions paid in the current period exceeded the change in net pension liability and pension related deferrals. 169,359

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore, are not reported as expenditures in governmental funds. The change in the current year expenses are as follows:

Accrued interest		
Liability @ 6/30/15	(525,581)	
Liability @ 6/30/14	527,777	2,196
Compensated absences		
Liability @ 6/30/15	(303,897)	
Liability @ 6/30/14	301,036	(2,861)
Claims		
Liability @ 6/30/15	(73,921)	
Liability @ 6/30/14	68,179	(5,742)

Change In Net Position of Governmental Activities \$ 4,806,823

See accompanying notes to the basic financial statements

City of Calhoun, Georgia
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

The City of Calhoun, Georgia (The City) is a municipal corporation governed by an elected mayor and four-member council.

Note 1 - Summary of Significant Accounting Policies

The financial statements of the City have been prepared in conformity with accounting principles generally accepted in the United States (GAAP) as applied to governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for governmental accounting and financial reporting. The most significant of the City's accounting policies are described below.

1-A. Reporting Entity

The reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the City consists of all funds, departments, boards and agencies that are not legally separate from the City.

Component units are legally separate organizations for which the City is financially accountable and a financial benefit or burden relationship exists. The City is financially accountable for an organization if the City appoints a voting majority of the organization's governing board and (1) the City is able to significantly influence the programs or services performed or provided by the organizations or (2) the City is legally entitled to or can otherwise access the organization's resources; the City is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the City is obligated for the debt of the organization. Component units also may include organizations that are fiscally dependent on the City in that the City approves the budget, levies their taxes or issues their debt.

A blended component unit, although a legally separate entity, is, in substance, part of the City's operations. The fund types of such component units are blended with the fund types of the City. A brief description of the blended component unit follows:

Calhoun Recreation Authority (Recreation Authority) – The Recreation Authority is governed by a seven-member board consisting of six members appointed by the City Council and one member from the elected City Council. Although it is legally separate from the City, the Recreation Authority is reported as if it were part of the City because its purpose is to finance golf course construction or other recreation activities. Bonds or other debt issued by the Recreation Authority are secured by a lease agreement with the City and will be retired through lease payments from the City.

Financial statements of the Calhoun Recreation Authority are included in the City's basic financial statements within the governmental debt service fund. Information may be obtained at City Hall, City Administrator's Office, 226 South Wall Street, Calhoun, Georgia.

The component unit columns included on the government-wide financial statements identifies the financial data of the City's discretely presented component units. They are reported separately to emphasize that they are legally separate from the City. A brief description of the discretely presented component units follows:

City of Calhoun, Georgia, Board of Education (School District) – The School Board is authorized within the City of Calhoun, Georgia's charter to regulate the operations of the system of public schools for the City of Calhoun. The School District consists of five members elected by the citizens of the City. However, the School District is fiscally dependent upon the City of Calhoun because the City Council must approve the annual budget, levy the necessary property taxes and approve any debt issuances. The financial burden criterion is further met since the land and buildings of the school system are owned by the City. Separately issued financial statements for the School District may be obtained at the School District's administrative offices, 308 Barrett Road, NW, Calhoun, Georgia.

Downtown Development Authority (Development Authority) – The Development Authority is a public body, corporate and politic, and was created upon the adoption and approval of the Development Authorities Law of the State of Georgia. The Mayor and City Council appoint all members of the Development Authority. To date, the only activities associated with the Development Authority relate to property deeded by the City to the Development Authority, which was sold in fiscal 2004. Financial statements of the Downtown Development Authority, if material, are required to be in the City's basic financial statements as a discretely presented component unit. This is in accordance with a determination made for such entities by the Georgia Department of Audits and Accounts. Specific information relative to these activities may be obtained at City Hall, City Administrator's Office, 226 South Wall Street, Calhoun, Georgia.

City of Calhoun, Georgia
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

1-B. Basis of Presentation

The City's basic financial statements consist of government-wide statements, which include aggregated fund data and fund financial statements, which provide a more detailed level of financial information.

Government-wide Financial Statements - The government-wide financial statements include a statement of net position and a statement of activities. These statements report financial information for the City as a whole. The primary government and the discretely presented component units are presented separately within these financial statements with the focus on the primary government. All City funds, excluding the fiduciary activities and component units that are fiduciary in nature, are included at the government-wide reporting level. Individual funds are not displayed but the statements distinguish governmental activities, generally supported by taxes and City general revenues, from business-type activities, generally financed in whole or in part with fees charged to external customers.

The statement of net position presents the financial position of the governmental and business-type activities of the City and its discretely presented component units at year-end. This statement is presented in a classified format.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the City's governmental activities and for each identifiable activity of the business-type activities of the City. Direct expenses are those that are specifically associated with a function and therefore clearly identifiable to that particular function. The City does not allocate indirect expenses to functions in the statement of activities.

The statement of activities reports the expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. Program revenues include: (1) charges for services which report fees and other charges to users of the City's services and fines; (2) operating grants and contributions which finance annual operating activities including restricted investment income; and (3) capital grants and contributions which fund the acquisition, construction, or rehabilitation of capital assets. These revenues are subject to externally imposed restrictions to these program uses. For identifying to which function program revenue pertains, the determining factor for *charges for services* is which function *generates* the revenue. For *grants and contributions*, the determining factor is to which functions the revenues are *restricted*.

Taxes and other revenue sources not properly included with program revenues are reported as general revenues of the City. The comparison of direct expenses with program revenues identifies the extent to which each governmental function and each identifiable business activity is self-financing or draws from the general revenues of the City.

Fund Financial Statements - During the year, the City segregates transactions related to certain City functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the City at this more detailed level. Fund financial statements are provided for governmental, proprietary, and fiduciary funds.

Major individual governmental and enterprise funds are reported in separate columns with composite columns for nonmajor funds. Fiduciary funds are reported by type.

Fund Accounting - The City uses funds to maintain its financial records during the year. A fund is a fiscal and accounting entity with a self-balancing set of accounts. The City uses three categories of funds: governmental, proprietary and fiduciary.

Governmental Funds - Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Fund liabilities are assigned to the fund from which they will be liquidated. The City reports the difference between governmental fund assets and liabilities as fund balance. The following are the City's major governmental funds:

General Fund - The general fund accounts for and reports all financial resources not accounted for and reported in another fund.

School Bond Debt Service Fund - This governmental fund accounts for the debt payments on school bonds and the accumulation of resources from ESPLOST revenue to make debt payments.

City of Calhoun, Georgia
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

Proprietary Funds - Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position and cash flows. The City's proprietary funds are classified as enterprise funds. The following are the City's major enterprise funds:

Electric System Enterprise Fund – This major enterprise fund is used to account for the operations of the City's electric distribution system.

Water and Sewerage System Enterprise Fund - This major enterprise fund is used to account for the operations of the county-wide water treatment distribution system and wastewater treatment, primarily within the City limits.

Internal Service Fund – This fund provides support services to the various City departments. This includes administration, engineering, work order dispatch and meter reading for Utility departments. Finance and purchasing are handled for all City funds through the Internal Service Fund. Utility billing, customer service and tellers are also recorded for all enterprise funds of the City.

Fiduciary Funds - Fiduciary fund reporting focuses on net position. The City's fiduciary funds include its single employer pension trust fund, cemetery trust fund, and an agency fund. The pension trust fund is the "City Charter Unfunded Retirement Plan." The cemetery trust fund is a perpetual care trust held for the future maintenance of the cemeteries. The agency fund accounts for the activity of traffic and municipal ordinance violations resulting in fines for offenses occurring with the City. This fund is custodial in nature (assets equal liabilities) and does not involve measurement of results of operations.

1-C. Measurement Focus

Government-wide Financial Statements - The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the City are included on the statement of net position. The statement of activities reports revenues and expenses.

Fund Financial Statements - All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the governmental fund statements.

Like the government-wide statements, all proprietary fund types are accounted for on a flow of economic resources measurement focus on both financial reporting levels. All assets and all liabilities associated with the operation of these funds are included on the statements of net position. The statements of changes in fund net position present increases (i.e., revenues) and decreases (i.e., expenses) in net total position. The statement of cash flows provides information about how the City finances and meets the cash flow needs of its proprietary activities.

The City's pension trust fund uses the flow of economic resources at the fund reporting level. The statement of changes in fiduciary assets and liabilities includes additions and deletions to the pension trust fund's net position. The agency fund does not have a measurement focus.

1-D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. At the fund reporting level, governmental funds use the modified accrual basis of accounting and fiduciary funds use the accrual basis of accounting. Proprietary funds use the accrual basis of accounting at both reporting levels. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

City of Calhoun, Georgia
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

Revenues – Exchange Transactions - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded when the exchange takes place and in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the City, the phrase “available for exchange transactions” means expected to be received within 60 days of the balance sheet date.

Revenues - Non-exchange Transactions - Non-exchange transactions in which the City receives value without directly giving equal value in return, include sales tax, property taxes, grants, and donations. On an accrual basis, revenue from sales taxes is recognized in the period in which the taxable sale takes place. Revenue from property taxes is recognized in the fiscal year for which the taxes are levied. (Note 3-C) Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the City must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the City on a reimbursement basis. On a modified accrual basis, all revenue from non-exchange transactions also must be available (i.e., collected within 60 days) before it can be recognized.

Under the modified accrual basis, the following primary revenue sources are considered to be susceptible to accrual: property taxes, sales taxes, franchise taxes, insurance premium taxes, fines, interest and charges for services.

Unearned Revenue and Deferred Outflows/Inflows of Resources - Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied. On governmental fund financial statements (i.e., on the modified accrual basis), receivables that will not be collected within the available period have been reported as unearned revenue (i.e., they are measurable but not available) rather than as revenue.

In addition to assets, the statement of financial position reports a separate section for deferred outflows of resources. This separate element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The City reports the deferred charge on refunding, resulting from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded debt or refunding debt.

In addition to liabilities, the statement of financial position also reports a separate section for deferred inflows of resources. This separate element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. Property taxes, fines and the sale of cemetery plot receivables not collected within 60 days of year-end have been recorded as deferred revenue at the fund reporting level. Grants and entitlements received before the eligibility requirements are met (e.g., cash advances) also are recorded as deferred revenue at both reporting levels.

Expenses/Expenditures - On the accrual basis of accounting, expenses are recognized at the time they are incurred. On the modified accrual basis, expenditures generally are recognized in the accounting period in which the related fund liability is incurred and due, if measurable.

1-E. Assets, Liabilities and Fund Equity

1-E-1 Cash and Investments

Cash includes amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the City. Investments are stated at fair value based on quoted market prices.

Georgia law authorizes the City to invest in the following type of obligations:

- Obligations of the State of Georgia or of any other states
- Obligations of the United States Government
- Obligations fully insured or guaranteed by the United States Government or governmental agency
- Obligations of any corporation of the United States Government
- Prime bankers' acceptances
- The State of Georgia local government investment pool (i.e., Georgia Fund I)

City of Calhoun, Georgia
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

- Repurchase agreements
- Obligations of the other political subdivisions of the State of Georgia

Notwithstanding these provisions of state statutes, local retirement system funds may be invested and reinvested subject to all terms, conditions, limitations, and restrictions imposed by the laws of Georgia upon domestic life insurance companies in making and disposing of their investments.

State statutes require all deposits to be collateralized by depository insurance, obligations of the United States or certain obligations guaranteed by the U. S. Government, obligations of the State of Georgia or bonds of public or development authorities, counties, or municipalities of the State of Georgia. The acceptable collateral pledged in the City's name is composed of bonds of U. S. Government agencies and bonds of the State of Georgia and its public authorities, counties and municipalities.

It is the City's policy that any investment or deposit in excess of the Federal Deposit Insurance Corporation (FDIC) insured amount must be secured by 110% of an equivalent amount of State or U.S. Obligations.

1-E-2 Receivables

All trade and property tax receivables are reported net of an allowance for uncollectibles, where applicable. Unbilled utility charges are accrued as receivables and revenue at June 30, 2015. The delinquent taxes receivable account represents past years of uncollected tax levies. The allowance for estimated uncollectibles is estimated at .80% of the tax digests for fiscal years ended June 30, 2011-2015, in addition to 100% of the receivable for all fiscal years prior to 2011.

1-E-3 Interfund Balances

On the fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables." These amounts are eliminated in the governmental and business-type activities columns of the statement of net position, except for any net residual amounts due between governmental and business-type activities, which are reclassified and presented as internal balances.

1-E-4 Consumable Inventories

On the government-wide statement of net position, inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used (i.e., the consumption method).

On the fund financial statements, inventories are stated at lower of cost or market for proprietary funds with cost determined on a first-in, first-out basis. Inventories of the proprietary funds are expensed when consumed.

1-E-5 Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2015, are recorded as prepaid items at both reporting levels using the consumption method by recording an asset for the prepaid amount and reflecting the expenditure/expense in the year in which services are consumed. At the fund reporting level, an equal amount of fund balance is reported as nonspendable as this amount is not available for general appropriation.

1-E-6 Restricted Assets

Restricted assets represent resources segregated as required by bond ordinances, lease agreements and policies of the City.

1-E-7 Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in governmental funds. The City reports these assets in the governmental activities column of the government-wide statement of net position but does not report these assets in the governmental fund financial statements. Capital assets utilized by enterprise funds are reported both in the business-type activities column of the government-wide statement of net position and in the enterprise funds' statement of net position. The City owns and reports all School District land and buildings.

City of Calhoun, Georgia
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The City maintains a capitalization threshold of five thousand dollars and twenty thousand dollars for infrastructure expenditures. The City's infrastructure consists of roads, curbs and gutters, sidewalks, bridges, drainage, traffic signals, water and sewer lines and the electric distribution systems. See Note 3-E for further information on capitalized infrastructure. Improvements to capital assets are capitalized. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are expensed. Interest incurred during the construction of capital assets utilized by the enterprise funds is capitalized.

All reported capital assets are depreciated except for land and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the City's historical records of necessary improvements and replacement. Depreciation is computed using the straight-line method over the following useful lives:

Asset Class	Estimated Lives		
	Governmental Activities	Business-type Activities	Component Unit
Buildings	20-50 Years	---	---
Improvements other than buildings	15-25 Years	15-25 Years	---
Buildings, plants, tanks	---	20-50 Years	---
Utility systems	---	20-50 Years	---
Machinery and equipment	5-25 Years	5-25 Years	5-10 Years
Vehicles	4-6 Years	4-6 Years	5-10 Years
Infrastructure	30-60 Years	---	---

At the inception of capital leases at the governmental fund reporting level, expenditures and an "other financing source" of an equal amount are reported at the net present value of future minimum lease payments. The expense resulting from the amortization of these assets is included with depreciation expense.

1-E-8 Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means.

Unused vacation leave rights expire at the end of the year in which earned. Unused sick leave benefits are paid annually and therefore do not accumulate. All amounts accrued relative to these benefits are paid in December each year.

All compensated absence liabilities include salary-related payments, where applicable.

The total compensated absence liability is reported on the government-wide financial statements for both governmental activities and business-type activities. Proprietary funds report the total compensated liability in each individual fund at the fund reporting level. Governmental funds report the compensated absence liability at the fund reporting level only "when due."

1-E-9 Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the these funds. However, compensated absences, claims and unfunded pension benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are "due for payment" during the current year. Bonds and capital leases are recognized as a liability in the governmental fund financial statements "when due".

City of Calhoun, Georgia
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

1-E-10 Bond Premiums, Discounts and Issuance Costs and Debt Refunding Gains and Losses

On the government-wide statement of net position and the proprietary fund type statement of net position, bond premiums and discounts are netted against bonds payable. On the government-wide and proprietary fund type statement of activities, bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method.

Debt refunding gains and losses are reported as deferred inflows or outflows of resources on the statements of net position. These gains and losses are deferred and amortized over the shorter of the life of the refunding debt (new debt) and the refunded debt (old debt).

Bond issuance costs are recognized as an outflow of resources in the reporting period in which they are incurred.

At government fund reporting level, bond premiums and discounts are reported as other financing sources and uses, separately from the face amount of the bonds issued. Bond issuance costs are reported as debt service expenditure.

1-E-11 Fund Equity

Fund equity at the governmental fund financial reporting level is classified as “fund balance.” Fund equity for all other reporting is classified as “net position.”

Fund Balance – Generally, fund balance represents the difference between the current assets and current liabilities. In the fund financial statements, governmental funds report fund classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund balances are classified as follows:

- ***Nonspendable*** – Fund balances are reported as nonspendable when amounts cannot be spent because they are either (a) not in spendable form (i.e., items that are not expected to be converted to cash) or (b) legally or contractually required to be maintained intact.
- ***Restricted*** – Fund balances are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.
- ***Committed*** – Fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed by resolution of the City Council. A resolution is adopted by Council to establish any type of restriction on fund balance, modify the restriction or release it.
- ***Assigned*** – Fund balances are reported as assigned when amounts are constrained by the City’s intent to be used for specific purposes, but are neither restricted nor committed. Through resolution, the City Council has authorized the City’s finance committee or the City’s Director of Finance to assign fund balances.
- ***Unassigned*** – Fund balances are reported as unassigned as the residual amount when the balances do not meet any of the above criteria. The City reports positive unassigned fund balance only in the general fund. Negative unassigned fund balance may be reported in all funds.

Flow Assumptions – When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the City’s policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the City’s policy to use fund balance in the following order:

- Committed
- Assigned
- Unassigned

Net Position - Net position represent the difference between assets and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation and debt, plus any outstanding balances of borrowings not yet expended, but restricted for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. All other net position balances are reported as unrestricted.

City of Calhoun, Georgia
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

The City applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

1-E-12 Operating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. For the City, these revenues are charges to customers for water and sewerage services, electricity, golf course and associated rental fees, fees for telecommunications services and services for solid waste management. The water and sewer fund also recognizes as operating revenues the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses, including operating grants, investment earnings, interest expense and the gain or loss on the disposition of capital assets.

1-E-13 Contributions of Capital

Contributions of capital arise from transfers from capital assets of governmental activities, outside contributions of capital assets, tap-on fees to the extent they exceed the cost of the connection to the system, or from grants or outside contributions of resources restricted to capital acquisition and construction.

1-E-14 Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses section in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Transfers between governmental and business-type activities on the government-wide statement of activities are reported as general revenues. Transfers between funds reported in the governmental activities column are eliminated. Transfers between funds reported in the business type activities column are eliminated.

The general fund charges each of the enterprise funds and the recreation fund for specific payroll and other administrative costs that relate to these funds. As interfund reimbursements, these charges are required to be reported "net" as reductions of expenditures in the general fund. These reimbursements are internal accounting adjustments used to reallocate expenditures or expenses to the appropriate fund. The utility internal service fund charges the electric, water & sewerage system, telecom, and general funds various costs that represent operating expenses and the utility internal service fund records these interfund services provided as revenue.

1-E-15 Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States, requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Note 2 – Stewardship, Compliance and Accountability

2-A. Budgetary Information – Annual appropriated budgets are prepared for all governmental funds except capital project funds. Project budgets have been adopted for the capital project funds. The budget is prepared on a modified accrual basis with budget items for capital outlay and debt service in all funds. Unspent appropriations lapse at year-end.

The budget officer can make a reallocation of budgeted amounts within a department; however, any reallocations between departments within a fund or any increase in the total departmental appropriation within a fund requires City Council approval. The City Council amended the original appropriations for fiscal year 2015 for some funds.

City of Calhoun, Georgia
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

Note 3 - Detailed Notes on All Funds

3-A. Deposits and Investments

The City has adopted investment policies, which address the specific deposit or investment risks presented below.

Custodial Credit Risk – Deposits – the custodial credit risk for deposits is the risk that, in the event of a bank failure, the City’s deposits may not be recovered. It is the City’s policy that any investment (other than federal or state government instruments) or deposit in excess of the FDIC insured amount must be secured by 110% of an equivalent amount of State or U.S. Obligations, with the exception of the Municipal Competitive Trust, pension trust fund and cemetery trust fund.

At June 30, 2015, the City did not have debt or equity investment in any one organization, other than those issued by the U.S. Government, which represented more than 5 percent of investments.

As of June 30, 2015, the City’s credit and interest rate risk related to the City’s cash equivalents and investments was as follows:

Investment	(Market Value) Fair Value	Segmented Time Distrib.	Credit Quality
Federal agency securities	\$ 2,013,496	1-3 yrs.	AA+
Federal agency securities	5,980,100	> 3 yrs.	AA+
	<u>\$ 7,993,596</u>		

At June 30, 2015, the carrying amount of the City's deposits, not including cash on hand, was \$29,336,260 and the related bank balances totaled \$29,850,242. All bank balances were covered by Federal Depository Insurance or by collateral held by the City's agent. Cash on hand at June 30, 2015 was \$6,814.

Primary Government’s Investments

Interest Rate Risk – Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. It is currently the City’s policy to not invest in instruments with a variable interest rate, with the exception of the MCT and the pension trust fund. The investment portfolio will be invested in permitted investments with a stated maturity of no more than 5 years from the date of purchase.

At June 30, 2015, the City’s investments also included \$27,376,527 held in the First Union MEAG Flexible Operating Trust. The MCT investment is restricted to specific uses, as designated in the operating trust. All of the holdings of the MCT are fixed income (bond) investments and all are either direct obligations of or otherwise guaranteed by the government of the United States or one of its agencies, corporations, or instrumentalities. An institutional US Government Money Market Fund is also used in these accounts and that Fund invests in similar US Government obligations. MCT reports interest rate risk using a duration measure. The pension trust fund is monitored and managed by the Georgia Municipal Association.

Credit Quality Risk – Credit quality risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. There is negligible credit risk associated with the City’s investments primarily since it is the City’s policy to invest in certificates of deposit, money market accounts that are covered by FDIC insurance or pledged collateral and securities of the U.S. government and its agencies. The Council has also authorized investments in the MCT and the pension trust. The municipal competitive trust is not rated.

Foreign Currency Risk – The risk that changes in foreign currency exchange rates will adversely affect cash flows or the fair value of hedging derivative instrument or the associated hedged item. The City has not adopted a policy regarding foreign currency risk.

City of Calhoun, Georgia
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

Cash and Investment Reconciliation:

	Cash	Investments
Fund Reporting Level:		
Governmental Funds - Balance Sheet	\$ 17,242,877	\$ 2,964,091
Proprietary Fund Type Statement of Net Position	8,102,688	4,936,992

Total	\$ 30,162,510	\$ 35,620,249

3-B. Receivables

Receivables at June 30, 2015, consisted of taxes, interest, accounts (billings for user charges, including unbilled utility receivables), and intergovernmental receivables arising from grants.

Receivables and payables are recorded on the City's financial statements to the extent that the amounts are determined to be material and substantiated not only by supporting documentation, but also by a reasonable, systematic method of determining their existence, completeness, valuation, and in the case of receivables, collectability.

At June 30, 2015, the amount of allowance for uncollectables was \$858,495.

3-C. Property Taxes

Generally, property taxes attach as an enforceable lien on property as of January 1. The City Council levied property taxes September 9, 2014. Property taxes were billed on September 20, 2014 and were payable on December 20, 2014. Liens have not been issued as of the report date.

3-D. Restricted Assets

The following are the details of the restricted assets for the enterprise funds:

Cash

3-F. Interfund Balances and Transfers

Interfund Balances - Interfund balances at June 30, 2015 consisted of the following amounts and represent charges for services or reimbursable expenses. These remaining balances resulted from the time lag between the dates that (1) interfund goods or services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting period, and (3) payments between funds are made. The City expects to repay all interfund balances within one year.

Payable to	Payable from						Total
	General fund	Nonmajor governmental funds	Electric system fund	Water & sewerage system fund	Nonmajor enterprise funds	Internal service fund	
General fund	\$ -	\$ 20,755	\$ 461	\$ 1,381	\$ 809,201	\$ 402,283	\$ 1,234,081

2020	38,108	2,303	40,411
2021-2025	196,354	5,699	202,053
2026	10,077	25	10,102
	<u>\$ 384,101</u>	<u>\$ 20,004</u>	<u>\$ 404,105</u>

During fiscal year 2007, the electric system fund advanced the utility internal service fund resources to renovate the building that is now their main location. As of June 30, 2015, the amounts to be repaid, including interest are as follows:

Fiscal Year	Principal	Interest	Total
2016	\$ 73,078	\$ 7,252	\$ 80,330
2017	73,812	6,518	80,330
2018	74,553	5,777	80,330
2019	75,301	5,029	80,330
2020	76,057	4,273	80,330
2021-2025	379,729	9,741	389,470
Total	<u>\$ 752,530</u>	<u>\$ 38,590</u>	<u>\$ 791,120</u>

During fiscal year 2013, the electric system fund advanced the general fund resources to purchase a fleet of police cars. As of June 30, 2015, the amounts to be repaid, including interest are as follows:

Fiscal Year	Principal	Interest	Total
2016	<u>\$ 62,980</u>	<u>\$ 109</u>	<u>\$ 63,089</u>

Changes in the City's long-term advances from the electric fund consisted of the following for the year ended June 30, 2015:

Advances to:	Outstanding 6/30/2014	Additions	Reductions	Outstanding 6/30/2015	Amounts Due in One Year
Telecommunications fund	\$ 954,158	\$ -	\$ 108,761	\$ 845,397	\$ 109,853
Water and sewerage fund	334,199	384,101	31,686	686,614	59,500
Internal service fund	824,882	-	72,352	752,530	73,078
Golf fund	17,720	-	17,720	-	-
General fund	301,059	-	238,079	62,980	62,980
Total Advances	<u>\$ 2,432,018</u>	<u>\$ 384,101</u>	<u>\$ 468,598</u>	<u>\$ 2,347,521</u>	<u>\$ 305,411</u>

City of Calhoun, Georgia
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

Interfund Transfers – The following interfund transfers were made in fiscal year 2015:

	Transfers out					Total
	General fund	Nonmajor governmental funds	Electric system fund	Water & sewerage fund	Internal service fund	
Transfers in						
General fund	\$ -	\$ 319,774	\$ 1,852,337	\$ 1,150,763	\$ 39,600	\$ 3,362,474
Nonmajor governmental funds	699,476	78,263	-	-	-	777,739
Electric system	145,191	58,455	-	33	-	203,679
Water & sewerage	428	328,888	24,092	-	-	353,408
Nonmajor enterprise funds	11,283	17,720	492	2,561	-	32,056
Internal service fund	315	-	749	-	-	1,064
Total	\$ 856,693	\$ 803,100	\$ 1,877,670	\$ 1,153,357	\$ 39,600	\$ 4,730,420

Transfers are used to report revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations; to segregate money for anticipated capital projects; to provide additional resources for current operations or debt service; and to return money to the fund from which it was originally provided once a project is completed.

Historically, the Mayor and City Council appropriate transfers from City Utilities to the General Fund. An amount representing the lease of assets is transferred monthly. These transfers are intended to offset public safety/works costs which are impacted by the heavy industrial base present within the city limits of Calhoun.

3-G. Landfill Post-closure Care

The City’s industrial landfill was closed under Georgia Environmental Protection Division (EPD) guidelines in 1992. During that year, eleven ground water monitoring wells and three surface water locators were installed under EPD *Solid Waste Guidelines*. The City has monitored the site and will continue such monitoring, as prescribed by the EPD guidelines. Annual costs associated with these requirements are estimated at \$25,000 each year for the remaining two years of required monitoring. This annual estimate is based on costs experienced during the initial years of required monitoring. The liability for these costs is reported in the solid waste fund. In the future, significant economic inflation or deflation, technology or applicable laws or regulations may change future estimates of the liability. The estimate of post-closure liability may change from year to year and the change in estimate is a component of net income in the year of revision.

3-H. Long-Term Debt

The City has issued general obligation bonds to provide funds for the acquisition and construction of major capital facilities, including the renovation and expansion of educational facilities within the City. General obligation bonds are direct obligations and pledge the full faith and credit of the City. The City has issued revenue bonds where the City pledges income derived from the acquired or constructed assets to pay debt service. Also, the City is obligated for notes payable, capital leases, claims, an unfunded pension plan, and landfill post-closure liabilities. Arbitrage rules apply to the tax-exempt debt issued by the City.

Governmental Activities Debt – The following is a summary of the outstanding debt for the City’s governmental activities.

Bonds - On March 9, 2000, the City issued \$4,857,800 in Calhoun Recreation Authority refunding revenue bonds at an interest rate of 4.16%. The City issued the bonds to advance refund \$4,470,000 of the outstanding series 1992 Calhoun Recreation Authority revenue bonds with interest rates ranging between 4.7% and 6.125%. The bonds from the refunded 1992 issue are fully retired. Annual debt service requirements to amortize the 2000 series bonds at June 30, 2015 are as follows:

Fiscal Year	Principal	Interest	Total
2016	\$ 330,600	\$ 36,213	\$ 366,813
2017	343,800	22,185	365,985
2018	361,400	7,517	368,917
Total	\$ 1,035,800	\$ 65,915	\$ 1,101,715

City of Calhoun, Georgia
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

In fiscal 2011, the City issued \$21,000,000 in school general obligation bonds. These bonds bear interest at a rate of 5.12% and mature in September 2025. In fiscal 2012, the City issued \$12,000,000 in school general obligation bonds. These bonds bear interest at a rate of 4.0% and mature in September 2032. These bonds are being used to finance construction for the City's schools and will be repaid, in part, from special sales taxes currently approved and being assessed within the City.

Annual debt service requirements to amortize the school bonds at June 30, 2015 are as follows:

Fiscal Year	Principal	Interest	Total
2016	\$ -	\$ 1,482,675	\$ 1,482,675
2017	-	1,482,675	1,482,675
2018	-	1,482,675	1,482,675
2019	-	1,482,675	1,482,675
2020	-	1,482,675	1,482,675
2021-2025	15,360,000	6,358,071	21,718,071
2026-2030	11,540,000	2,149,422	13,689,422
2031-2033	6,100,000	370,000	6,470,000
Total	\$ 33,000,000	\$ 16,290,868	\$ 49,290,868

Capital Leases –In fiscal 2008, the City entered into a capital lease for a fire platform truck in the amount of \$694,872. The financing period is 7 years at an interest rate of 3.58%. In fiscal year 2009, the City entered into a capital lease for a fire pumper truck in the amount of \$392,733 for a period of 7 years at 3.6%.

Annual debt service requirements to amortize these capital leases at June 30, 2015 are as follows:

Fiscal Year	Principal	Interest	Total
2016	\$ 21,028	\$ 158	\$ 21,186

The assets acquired through these capital leases are as follows:

Asset	Governmental Activities
Machinery and equipment	\$ 1,087,605
Less: accumulated depreciation	(660,033)
Total	\$ 427,572

Expense resulting from amortization of these leases is included with depreciation expense.

Business-type Activities Debt – The following is a summary of the outstanding debt for the City's business-type activities.

Bonds –On September 28, 2011, the City issued Water and Sewerage Revenue Refunding Bonds, Series 2011 in the amount of \$6,525,000. Proceeds from this issue prepaid GEFA loans in the amount of \$4,955,000 and Series 2001 Bonds in the amount of \$1,570,000 and with interest rates ranging from 4.0% to 5.0%. The present value of the savings on the refunding of the bonds was \$150,723 and it was \$281,172 on the notes for a total of \$431,895 which was 6.7% of the refunded debt. The issue is a private placement issue and bears interest at a rate of 1.935%.

City of Calhoun, Georgia
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

Maturities and debt service requirements remaining on the bond issue at June 30, 2015 are as follows:

Fiscal Year	Principal	Interest	Total
2016	\$ 900,000	\$ 60,469	\$ 960,469
2017	920,000	43,054	963,054
2018	875,000	25,252	900,252
2019	290,000	8,321	298,321

Total	<u>\$ 3,125,000</u>	<u>\$ 139,805</u>	<u>\$ 3,264,805</u>

During 2012 the City issued Water and Sewerage Revenue Refunding Bonds, Series 2012 in the amount of \$6,645,000. Proceeds from this issue prepaid GEFA loans in the amount of \$4,023,682 and Series 2003 Bonds in the amount of \$2,585,000 with interest rates ranging from 3.0% to 3.92%. The cash flows required for the debt that was refunded totaled \$8,099,423. Cash flows for the Refunding Bonds, Series 2012 are \$7,577,741. The present value of the savings was \$496,118. The issue is a private placement issue and bears interest at a rate of 2.08%.

Maturities and debt service requirements remaining on the bond issue at June 30, 2015 are as follows:

Fiscal Year	Principal	Interest	Total
2016	\$ 550,000	\$ 109,824	\$ 659,824
2017	560,000	98,384	658,384
2018	575,000	86,736	661,736
2019	580,000	37,388	617,388
2020	595,000	62,712	657,712
2021-2025	2,315,000	137,488	2,452,488
2026	105,000	2,184	107,184
Total	<u>\$ 5,280,000</u>	<u>\$ 534,716</u>	<u>\$ 5,814,716</u>

Combined debt service requirements on business type activity bonds are as follows:

Fiscal Year	Principal	Interest	Total
2016	\$ 1,450,000	\$ 170,293	\$ 1,620,293
2017	1,480,000	141,438	1,621,438

Landfill Post-closure Care

As described in detail in note 3-G, the City's industrial landfill was closed under Georgia Environmental Protection Division (EPD) guidelines in 1992. Estimated maturities of the post-closure costs recorded as long-term debt in the solid waste enterprise fund are as follows:

Fiscal Year	Principal	Interest	Total
2016	\$ 24,010	\$ 990	\$ 25,000
2017	25,500	510	26,010
	\$ 49,510	\$ 1,500	\$ 51,010

City of Calhoun, Georgia
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

Changes in Long-term Debt - Changes in the City's long-term obligations consisted of the following for the year ended June 30, 2015:

	Outstanding 6/30/2014, <i>as restated</i>	Additions	Reductions	Outstanding 6/30/2015	Amounts Due in One Year
Governmental Activities					
Revenue bonds	\$ 1,352,500	\$ -	\$ 316,700	\$ 1,035,800	\$ 330,600
General obligation school bonds	33,000,000	-	-	33,000,000	-
Capital leases	138,216	-	117,188	21,028	21,028
Claims	68,179	5,742	-	73,921	6,094
Compensated absences	301,036	303,897	301,036	303,897	75,974
Net pension liability	1,642,816	-	398,119	1,244,697	-
Total Governmental Activities	<u>\$ 36,502,747</u>	<u>\$ 309,639</u>	<u>\$ 1,133,043</u>	35,679,343	433,696
Plus Deferred Bond Related Items				691,325	-
Net Governmental Activities				<u>\$ 36,370,668</u>	<u>\$ 433,696</u>
Business-Type Activities					
Revenue bonds	\$ 9,830,000	\$ -	\$ 1,425,000	\$ 8,405,000	\$ 1,450,000
Notes payable	10,773,093	3,704,187	545,000	13,932,280	4,923,147
Estimated landfill closure costs	48,539	971	-	49,510	24,010
Compensated absences	258,372	267,900	258,372	267,900	94,165
Net pension liability	1,306,727	13,284	277,617	1,042,394	-
Total Business-Type Activities	<u>\$ 22,216,731</u>	<u>\$ 3,986,342</u>	<u>\$ 2,505,989</u>	<u>\$ 23,697,084</u>	<u>\$ 6,491,322</u>

The Recreation Authority revenue bonds principal and interest are paid by the general fund transferring resources to the debt service funds. The school bonds principal and interest are paid by the school bonds debt service fund. The governmental activities capital leases are being repaid from the general fund. Claims and pension liabilities are being repaid from the general fund and the water and sewerage funds. Amounts on landfill closure costs are being repaid from the solid waste enterprise fund. Principal and interest payments related to the City's water & sewerage system enterprise fund are financed from income derived from the operation of the water and sewerage system. Governmental compensated absences are primarily repaid from the general fund. Enterprise compensated absences are primarily paid out of the water and sewer fund.

3-1. Pension Plans

Primary Government

The City participates in four pension plans, three of which became effective July 1, 2004, and which effectively replaced the City of Calhoun Employees' Pension Plan adopted by the City in 1981, as amended in 1996. The fourth plan is the City Charter Unfunded Retirement Plan which includes retired employees who chose to remain in this plan in 1981 when the City of Calhoun Employees' Pension Plan was established. The General Fund is typically used to liquidate the net pension obligation of the governmental funds. The City has no other postemployment benefit obligation.

Plans Administered through the Georgia Municipal Association

Defined Benefit Plan- This plan is a defined benefit plan that covers all full-time City employees (30 hours weekly or more) who have been employed for one year or more, plus current elected officials. The plan goes forward covering service from July 1, 2003, plus it will cover current employees with service prior to July 1, 1981. Normal retirement age will be 65, with 5 years of credited service. Early retirement age will be 55, with 10 years of credited service, and benefits will be lower than those paid to employees retiring at normal retirement age. The benefit formula for regular employees will be 1.5% of wages contributed by the City. The benefit level for elected officials will be \$50 per year of service, with a cap not to exceed 100% of final base wages. The plan will be funded 100% by the City. This plan is not eligible for roll-over.

City of Calhoun, Georgia
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

Plan Description - The City's defined benefit pension plan, the City of Calhoun Retirement Plan (the "Plan"), provides retirement and disability benefits and death benefits to plan members and beneficiaries. The Plan is administered through the Georgia Municipal Employees Benefit System (GMEBS), an agent multiple-employer public employee retirement system administered by the Georgia Municipal Association that acts as a common investment and administrative agent for cities in the State of Georgia. The City is assigned the authority to establish and amend benefit provisions of the Plan. GMEBS issues a publicly available financial report that includes financial statements and required supplementary information. The report can be obtained by writing to Georgia Municipal Association, Risk Management and Employee Benefit Services, 201 Pryor Street, SW, Atlanta, Georgia 30303 or by calling (404) 688-0472.

Funding Policy - Employees are not required to contribute to the Plan. The City is required to contribute at an actuarially determined rate. The minimum annual contribution requirements of the City are established by Public Retirement Systems Standards Law (Georgia Code Section 47-20-10). For fiscal year 2015, the City's annual pension contributions to the Plan were \$722,131, equal to the City's required contributions.

Plan Membership - Participation in this plan is comprised of the following as of the valuation date of January 1, 2015:

Retirees and beneficiaries receiving benefits	54
Terminated plan members entitled to, but not yet receiving benefits	50
Active plan members	263
Total	367

Actuarial Assumptions - The City's pension liability was measured as of September 30, 2014. The total pension liability in the January 1, 2015 actuarial valuation was determined using the following actuarial assumptions: (a) 7.75% investment rate of return and (b) projected salary increases of 3.25% per year plus service based merit increases (c) inflation at 3.25% and (d) cost of living adjustments at 0.00%. Mortality rates were based on the RP-2000 Combined Healthy Mortality Table with sex-distinct rates, set forward two years for males and one year for females. The actuarial assumptions used in the January 1, 2015 valuation were based on the results of an actuarial experience study for the period January 1, 2010 through June 30, 2014.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of September 30, 2014 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return	Long-Term Nominal Real Rate of Return
Domestic equity	50%	5.95%	9.20%
International equity	15%	6.45%	9.70%
Fixed income	25%	1.55%	4.80%
Real estate	10%	3.75%	7.00%
Cash	0%		
Total	100%		

Discount rate- The discount rate used to measure total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that contributions from the employer will be made at contractually required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net positions was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long term expected rate of return on Plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

City of Calhoun, Georgia
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

Net Pension Liability – The changes in the components of the net pension liability of the City of Calhoun for the year ended June 30, 2015 were as follows:

	Changes in the Net Pension Liability		
	Total Pension Liability (TPL)	Fiduciary Pension Liability (FNP)	Net Pension Liability (NPL)
	(a)	(b)	(a) - (b)
Balance at September 30, 2013	\$ 10,121,981	\$ 7,791,633	\$ 2,330,348
Changes for the year:			
Service cost	494,335	-	494,335
Interest	774,792	-	774,792
Difference between expected and actual experience	(47,806)	-	(47,806)
Contributions- employer	-	715,308	(715,308)
Contributions- employee	-	-	-
Net investment income	-	902,314	(902,314)
Benefit payments, including refunds of employer contributions	(249,327)	(249,327)	-
Administration expense	-	(20,343)	20,343
Other	(206,292)	-	(206,292)
Net changes	765,702	1,347,952	(582,250)
Balance at September 30, 2014	\$ 10,887,683	\$ 9,139,585	\$ 1,748,098

The required schedule of changes in the net pension liability immediately following the notes to the financial statements presents multiyear trend information about whether the value of plan assets is increasing or decreasing over time relative to the total pension liability.

Sensitivity of the net pension liability to the discount rate – The following presents the net pension liability of the City, calculated using the discount rate of 7.75%, as what as what the City’s net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.75%) or one percentage point higher (8.75%) than the current rate:

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
City's net pension liability	\$ 3,262,046	\$ 1,748,098	\$ 486,848

Pension expense and deferred outflows of resources and deferred inflows of resources related to pensions- For the year ended June 30, 2015, the City recognized pension expense of \$575,808. At June 30, 2015 the City reported deferred outflows of resources and deferred inflows of resources related to pension from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ (40,974)
Changes of assumptions	-	(176,820)
Net difference between projected and actual earnings on pension plan investments	-	(224,956)
City contributions subsequent to the measurement date	521,835	-
	\$ 521,835	\$ (442,750)

City of Calhoun, Georgia
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2016. Other amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ending June 30	
2016	\$ (92,538)
2017	(92,538)
2018	(92,538)
2019	(92,538)
2020	(36,299)
2012 and thereafter	<u>(36,299)</u>
Total	<u>\$ (442,750)</u>

Defined Contribution Plan – This pension plan is a defined contribution plan, which allowed roll-over of the plan assets at June 30, 2003, from the plan administered by AmSouth Bank in Birmingham, Alabama, which was the City’s primary plan through June 30, 2003. The employees did not make additional contributions to these funds after June 30, 2003; however, the City provided the final matching amount for fiscal year ended June 30, 2003, during fiscal 2004 in the amount of \$371,444. The plan was effective as of July 1, 2003, and upon transfer, the funds were invested at GMA in the Citistreet Program with investments being directed by the employee. No new funds, other than earnings, are paid into the plan. The plan will accept the current life insurance policies, and GMA will administer these as part of the plan. The plan is eligible for rollover at termination or retirement.

Deferred Compensation Plan - The third plan is the 457(b) plan of deferred compensation that will be funded 100% by the employees. The plan calls for volunteer contribution up to the levels allowed by the IRS. The cost of the plan will be borne by the participating employees. The funds will be invested under the Citistreet Program at GMA, and the employee will direct such investments. The employee will have a “one-time” opportunity to buy whole life insurance without a physical when joining the plan. The plan is portable and eligible for rollover.

City Charter Unfunded Retirement Plan - Single Employer Defined Benefit Pension Plan

Plan Description, Contribution Information and Funding Policies - Prior to the adoption of the City of Calhoun Employees' Pension Plan, the City Charter provided that an employee with thirty years of service should be retired and receive a pension at a rate of 60 percent of the highest pay per year. Benefits are funded via annual budget appropriations. The amounts are disbursed on a weekly basis, and are reflected as contributions made and benefits paid in plan financial statements. The Charter did not require payments to beneficiaries. The Charter did not mandate any funding requirements, i.e., employer/employee contributions. Upon the adoption of the new plan, effective July 1, 1981, employees made irrevocable decisions regarding their plan choice. Only current covered employees are eligible for coverage.

Participation in this plan is comprised of the following:

		June 30, 2015
Retirees Currently Receiving Benefits:		
General government	2	
Water and sewerage system	<u>1</u>	
Total Retirees Currently Receiving Benefits		3
Active Employees - Fully Vested		---
Active Employees - Nonvested		---
Terminated Employees, entitled to benefits, but not yet receiving benefits		---

Plan Assets, Annual Pension Cost and Net Pension Obligation - There are no assets legally reserved for future funding of the obligations associated with this defined benefit plan. All obligations, including administrative costs, of the plan are paid in conjunction with appropriated annual budgets of funds, which experience costs associated with this plan. The plan is reported in the City’s financial statements as a pension trust fund and the actuarial valuation is available as a separate report. A separate audited financial report is not available. Current year annual pension costs for the plan previously provided in the City Charter are shown below. Actuarial valuations are performed annually to determine the pension costs and associated net pension obligation resulting from the "pay as you go" funding called for in the charter. Benefits are recognized when due and payable in accordance with the terms of the plan. Actuarial gains and losses are amortized over a 5 year period under the closed method. The unfunded

City of Calhoun, Georgia
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

accrued actuarial liability was restated in 2007 and is also being amortized over a 5 year period. An assumption change occurred in 2008 and is being amortized over a 10 year period. Administrative costs are financed from the fund applicable to each participant. Trend information for the previous years is shown below:

Fiscal Year	Pension Costs (ARC Adjusted)	Employer Actual Plan Contributions	% of Pension Costs Contributed	Net Pension Obligation
2015	\$ 9,159	\$ 89,361	976%	\$ 538,993
2014	18,118	97,456	538%	619,195
2013	25,342	97,456	385%	698,533
2012	113,333	130,893	115%	770,647
2011	121,521	149,263	123%	788,207
2010	123,168	167,306	136%	815,949

The pension costs for fiscal year ended June 30, 2015 are comprised of the annual required contribution (ARC), interest on the net pension obligation and adjustments to the ARC. The net pension obligation at June 30, 2015 is as follows:

Net pension obligation, beginning of year	<u>\$ 619,195</u>
Annual pension cost	
Annual required contribution (ARC)	(13,823)
Interest on net pension obligation	<u>22,982</u>
Pension costs	9,159
Adjustment to the ARC	-
Employer contributions	<u>(89,361)</u>
Increase (decrease) in net pension obligation	<u>(80,202)</u>
Net pension obligation, end of year	<u><u>\$ 538,993</u></u>

The following are the actuarial assumptions used in this plan:

Actuarial valuation date	6/30/2015
Actuarial cost method	Projected Unit Credit
Amortization method	Level Dollar
Asset valuation method	Market Value
Actuarial assumptions	
Investment rate of return	4%
Projected salary increases	No Active Employees
Inflation	None
Post employment retirement increases	None
Mortality	Unix's Pension 1984 Mortality Table

The required schedule of funding progress immediately following the notes to the financial statements presents multiyear trend information about whether the value of plan assets is increasing or decreasing over time relative to the total pension liability.

City of Calhoun, Georgia
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

3-J. Net Investment in Capital Assets

The “net investment in capital assets” on the government-wide statement of net position as of June 30, 2015 is as follows:

	Governmental Activities	Business Type Activities
Net Investment in Capital Assets:		
Cost of capital assets	\$ 153,790,439	\$ 198,865,445
Less accumulated depreciation	43,412,954	81,816,361
Book value	110,377,485	117,049,084
Less capital related debt, net of deferred refunding amounts, bond premiums and discounts	(34,748,153)	(22,237,276)
Net investment in capital assets	\$ 75,629,332	\$ 94,811,808

3-K. Deficit Fund Balances

The deficit fund balance of the hotel/motel fund of \$5,850 was the result of the requirement to classify fund balance as nonspendable for prepaid items. The deficit fund balance will be eliminated during the subsequent fiscal year as prepaid items are recognized.

Note 4 - Other Notes

4-A. Risk Management

The City maintains liability insurance coverage with traditional carriers for group insurance coverage, public official liability, comprehensive law enforcement liability, commercial auto and uninsured motorists, property, public employee dishonesty, commercial general liability, and public official bond coverage. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Coverage for workers’ compensation is provided through the Georgia Municipal Association (GMA) Workers’ Compensation Self-Insurance Fund which is a group self-insured program authorized by state statute and administered by GMA. The fund was created in 1982 to provide workers’ compensation statutory coverage to local government entities in Georgia. The fund is the largest source of workers’ compensation coverage for municipal governments in Georgia with nearly 540 members. Municipalities, municipal authorities and commissions, housing authorities, regional development centers, and municipal school districts are eligible to participate in the fund. The premiums paid by the City to the fund are expensed. Other than normal audits associated with workers’ compensation coverage, the risk pool has made no additional assessments to its participants since its formation. However, the legislation permitting the formation of the fund does provide for assessment of the fund’s membership if contributions and surplus are not sufficient to meet operating expenses or claim loss expenses.

4-B. Contingent Liabilities

Grants - Amounts received or receivable from grantor agencies are, subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

Lawsuits - The City was a defendant in lawsuits at June 30, 2015. In the opinion of City management, the outcome of these contingencies will not have a material effect on the financial position of the City.

MEAG - The City, together with 47 other cities and one county in the State, has entered into Power Sales Contracts dated March 1, 1976 with the Municipal Electric Authority of Georgia (MEAG) under which the City purchases certain power and energy for resale to its electric system customers. Under the contract entitlement, if the City were unable to purchase budgeted power, MEAG would be obligated to make a good faith effort to sell the power elsewhere. If MEAG were unable to sell the power at a price above its cost, the difference would be an obligation of the City. The contracts are agreements to pay the cost of generating power budgeted for the City. The obligation to pay MEAG certain amounts, whether or not power and energy are received, is a general obligation of the City to which its full faith and credit are pledged. If payments under the Power Sales Contracts are not made from

For the Fiscal Year Ended June 30, 2015

revenues of the electric distribution system, the City is required under the contracts to include in its general revenue or appropriation measures sums sufficient together with other available revenues to make such payments. During the fiscal year, the City purchased electric power under these contracts for a total cost of \$30,234,041 net of off-system sales which reduced costs. Rebates of \$818,215 are reflected in the net power purchases of \$29,415,826.

On February 22, 1999, the City approved a resolution adopting the provisions of a Municipal Competitive Trust agreement between the City and MEAG. MEAG established the Trust for the mutual benefit of MEAG and its wholesale customers (Cities) who elect to become participants. The Trust was created to provide a means to mitigate the expected differential between "after deregulation" market rates for power and the associated costs of generating that power.

The Trust originally created three types of accounts that are held by MEAG in the name of the City. The flexible operating trust account includes funds that are available to the City for operating costs and rate stabilization. As of June 30, 2015, the balance in this account was \$7,111,816. The intermediate flexible operating trust account has a balance of \$3,716,636 as of June 30 and is somewhat restrictive in nature, but the funds are available for a variety of uses, thus this account is included on the Electric funds books. The City of Calhoun also contributed to the generation trust account which has been established to set aside funds to provide generation for the future. As of June 30, 2015, the balance in this account was \$4,997,646 for a total of \$15,826,098 to be included in current restricted investments in the electric fund.

The funds in the credit support operating account are restricted for use to offset rate increases exceeding certain criteria and for loans for capital improvements that will reduce future operating costs. The funds in the reserve funded debt account can be only applied to charges related to MEAG's bond obligations. The balance of these accounts at June 30, 2015, was \$3,673 and \$5,406,392, respectively. Due to the restrictive nature of these funds, neither is shown in the cash balance for the electric fund. The intermediate generation trust account provides a more restricted investment account to provide for future generation and the balance of that account at June 30, 2015 is \$11,550,429. This account has been included in long-term investments on the City's books, but is only available for very restricted purposes.

In March 2008 the City voted and signed contracts for the City to participate in the expansion of two additional generating units at Plant Vogtle thus obligating the City to future debt through MEAG in the purchase of approximately 25 megawatts of capacity. This generation is estimated to cost \$8,674 in the year 2019 while the cost per kW has risen, this should generally be offset by the reduction in financing costs due to lower interest rates. The City has secured power sales agreements with other entities that will cover a substantial portion of this obligation. The City of Calhoun will maintain 10 megawatts through the life of the project and 15 megawatts were sold through a purchased power agreement for twenty years. Our allotted capacity will secure a future power resource in 2019 which should accommodate the community's power needs for the next 30 to 35 years.

4-C. Related Organizations

The City of Calhoun, Georgia, Housing Authority: The Housing Authority has been established under federal laws to carry on activities within the City. The City does appoint board members at the recommendation of the existing board but provides no financing or participation in management or operating decisions of the Authority. The Authority issues separate, audited financial statements with a March 31 fiscal year.

4-D. Joint Ventures

Northwest Georgia Regional Commission: Under Georgia law, the City in conjunction with other cities and counties in the Northwest Georgia area is a member of the Northwest Georgia Regional Commission (NWGRC). Membership in NWGRC is required by the Official Code of Georgia Annotated (OCGA) section 50-8-34 which provides for the organizational structure of the NWGRC. Membership in the NWGRC includes the chief elected of each county and municipality of the area. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of a NWGRC. During fiscal year 2015, the City paid dues in the amount of \$15,899 to the NWGRC. Separate financial statements may be obtained from the Northwest Georgia Regional Commission, 1 Jackson Hill Drive, Rome, Georgia 30162.

The Calhoun-Gordon County Library: The Calhoun-Gordon County Library is a part of the Dalton, Georgia Regional Library System. This system consists of boards from four member counties. Of the five board members comprising the Gordon County Library Board, one is an appointee of the City. Other board members represent appointees from the City and County school boards and the Gordon County Board of Commissioners. The library board retains asset/equity ownership. The City, local school boards and the Gordon County Board of Commissioners make regular contributions to the Calhoun-Gordon County Library Board. Though the City does provide various support services for the library, the City's ability to significantly influence operations is

City of Calhoun, Georgia
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

moderate or comparable in relation to influences of other governments involved. Payments/expenditures to/for the library for the fiscal year ended June 30, 2015, were \$126,412. The library issues an annual list of cash receipts and disbursements on a June 30 fiscal year basis. Separate schedules may be obtained from the Calhoun-Gordon County Library, 100 N Park Avenue, Calhoun, GA 30701.

The Calhoun-Gordon County Airport Authority: This Authority is a legally separate entity with full corporate powers, including power to establish rates necessary to finance any debt the Authority might incur. The City and Gordon County, Georgia appoint members of the Airport Authority. The City shares appointment powers with the County equally. The City does not significantly influence operations with contributions in excess of the County. The City and County participate in providing local funding when the Authority is recipient of grants that require matching funding. Both the City and County have entered into agreements to participate as joint lessees in order to guarantee certain debt of the Authority. Additionally, on August 1, 2001, the City, along with Gordon County, entered into an intergovernmental contract with the Calhoun-Gordon County Airport Authority. In the contract, the City and County each agree to provide one-half the debt service payments required on the Authority's 2001 bond issue. The issue, with total debt principal of \$685,000, financed construction of a new airport terminal. Debt service requirements total \$64,088, per year through the fiscal year 2016. The City's portion (one-half) of the annual debt service is \$32,044. The airport is leased to and operated by a for-profit entity. Total expenditures paid by the City for the Airport Authority for fiscal 2015 were \$149,377. Separate financial statements may be obtained from the Calhoun-Gordon County Airport Authority, 1957 Hwy. 41 South, Calhoun, GA 30701.

4-E. Hotel-Motel Lodging Tax

The City of Calhoun levies an 8% Hotel/Motel tax in accordance with OCGA 48-13-51. Amounts levied in excess of 3% (62.5% of the taxes levied) are expended for the purpose of promoting tourism in accordance with OCGA 48-13-50 (b).

		% of		
	<u>Tax Rate</u>	<u>Receipts</u>		<u>Total</u>

	<u>8%</u>	<u>100%</u>		<u>\$ -</u>

4-F. Prior Period Adjustment

In fiscal year 2015, the City made a prior period adjustment to fines receivable for fines that were deemed uncollectible by the City's attorney who advised that any cases older than seven years were not enforceable. As a result, fines receivable were reduced at the government-wide level. Fines receivable and deferred fine revenue were both reduced by the same amount at the fund level.

Effective July 1, 2015, the City implemented the provisions of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions- an amendment of GASB Statement No. 27*, as well as Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date- an amendment of GASB No. 68*, which significantly changed the City's accounting for pension amounts and the related pension disclosures. This adjustment has been made to record a net pension liability and deferred outflows of resources at June 30, 2014.

These changes resulted in a change to the beginning net position of the City as follows:

	Governmental Activities	Business-type Activities	Total Primary Government
Net position as previously reported, June 30, 2014	\$ 95,007,915	\$ 121,557,345	\$ 216,565,260

Notes to the Schedule:

The 2015 information will be determined after fiscal year end and included in the 2016 valuation report.

Historical information prior to implementation of GASB 67/68 is not required, but this schedule will present 10 years of information once accumulated.

Valuation date

The actuarial determined contribution rate was determined as of January 1, 2015, with an interest adjustment to the fiscal year. Contributions in relation to the actuarially determined contribution rate will be reported for the fiscal year ending June 30, 2016.

Methods and assumptions used to determine contribution rates:

Actuarial cost method	Projected unit credit
Amortization method	Closed level dollar for remaining unfunded liability
Remaining amortization period	Remaining amortization period varies for the bases, with a net effective amortization period of 10 years
Asset valuation method	Sum of actuarial value at beginning of year and the cash flow during the year plus the assumed investment return, adjusted by 10% of the amount that the value exceeds or is less than the market value at the end of the year. The actuarial value is adjusted, if necessary, to be within 20% of market value.
Actuarial assumptions:	
Net investment rate of return	7.75%
Projected salary increase	3.25% plus service based merit increases
Cost of living adjustments	0.00%
Retirement age	Where normal retirement is only available on or after age 65 retirement age is assumed to be 60% at ages 65 to 69 and 100% at age 70
Mortality	Mortality rates were based on the RP-2000 Combined Healthy Mortality Table with sex-distinct rates, set forward two years for males and one year for females.

City of Calhoun, Georgia
Statistical Section
(Unaudited)

This part of the City's comprehensive annual financial report presents detailed information as a context for understanding this year's financial statements, note disclosures, and supplementary information. This information has not been audited.

Contents	<i>Exhibit</i>
Financial Trends	I - X
<p>These tables contain trend information that may assist the reader in assessing the City's current financial performance by placing it in a historical perspective.</p>	
Revenue Capacity	XI - XIX
<p>These tables contain information that may assist the reader in assessing the viability of the City's three most significant "own-source" revenue sources, utility charges for services, property taxes and sales taxes. Electric user charges are the primary "own revenue source." Some similar data for the water and sewerage charges also is presented. The principal sales tax remitters information is not available from the Georgia Department of Revenue, the organization which collects the sales taxes from businesses and remits the City's share to the City.</p>	
Debt Capacity	XX - XXV
<p>These tables present information that may assist the reader in analyzing the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.</p>	
Demographic and Economic Information	XXVI - XXVII
<p>This table offers demographic and economic indicators that are commonly used for financial analysis and that can inform one's understanding the City's present and ongoing financial status.</p>	
Operating Information	XXVIII - XXXII
<p>These tables contain service and infrastructure indicators that can inform one's understanding how the information in the City's financial statements relates to the services the City provides and the activities it performs.</p>	

Data Source:

¹ Unless otherwise noted, the information in these tables is derived from the comprehensive annual financial reports for the relevant year. The City implemented GASB Statement No. 34 in fiscal year 2003, tables presenting government-wide information include ten years of data.

Notes:

¹ Accounting standards require that Net Position be reported in three components in the financial statements: net investment in capital assets; restricted; and unrestricted. Net Position are considered restricted only when (1) an external party, such as the State of Georgia or the federal government, places a restriction on how the resources may be used, or (2) enabling legislation is enacted by the City. There are no restrictions currently reported as a result of enabling legislation.

Notes:

¹ The City issued \$21,000,000 in general obligation bonds for the school in FY 2011 and \$12,000,000 in FY 2012 that primarily was the cause for the large increase in fund balance in those years, due to unspent bond proceeds. In FY13, the majority of those funds had been spent, lowering the fund balance substantially, and by FY14, the balance of the funds were expended.

² GASB 54 was not applied retroactively to years prior to fiscal year 2011.

Notes:

¹ Includes all governmental fund types.

² In fiscal year 2006, the City established a utility internal service fund which accounts for all utility billing services which previously were included within the general fund and then charged back to the utilities.

³ In fiscal year 2013 the 2002 School bonds and the majority of the 2003 School bonds were paid off, causing a large amount of principal payments in that year.

Notes:

¹Taxes recognized for the year presented are reported in the subsequent fiscal year.

²Excludes homestead property exemptions. All prior years restated.

³All property is assessed at 40% of fair market value.

⁴Tax rates expressed in rate per \$1,000 of annual taxes values (i.e., mills). Includes the school tax levied on behalf of the Calhoun City Schools, a discretely presented component unit.

% Change From 2006-2015	13.1%	31.7%	29.6%	-60.0%	28.8%	28.3%

Notes:

¹ Tax rates expressed in rate per \$1,000 of annual taxes values (i.e., mills).

² Overlapping rates are those of governments that overlap the City's geographic boundaries.

³ Since City property owners do not pay Gordon County school tax, this government's tax rates are not presented.

⁴ The State of Georgia levies one tenth of one mill on each county's taxable property to help finance their certification of each Georgia county's tax digests.

⁵ The City of Calhoun levies the property taxes for the Calhoun City Schools, a discretely presented component unit.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Honorable James F. Palmer, Mayor
and the Members of the City Council
City of Calhoun, Georgia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standard* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Calhoun, Georgia, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the City of Calhoun, Georgia's basic financial statements, and have issued our report thereon dated December 31, 2015.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Calhoun, Georgia's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Calhoun, Georgia's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Calhoun, Georgia's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify a certain deficiency in internal control, described in the accompanying schedule of findings and questioned costs, as item 2015-01, that we consider to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Calhoun, Georgia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

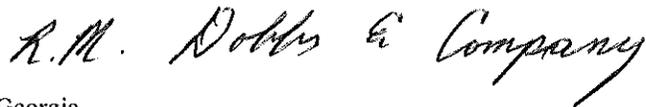

This report is replacing a previously issued report dated December 31, 2015. Subsequent to release of the previously issued report, the City of Calhoun, Georgia learned that certain federally funded government programs awarded had not been included on the schedule of expenditures of federal awards (SEFA), which identifies all federal programs and related awards expended. We have changed our original report to identify a certain deficiency in internal control as a significant deficiency included as item 2015-01 on the accompanying reissued schedule of findings and questioned costs.

City of Calhoun, Georgia's Response to Findings

City of Calhoun, Georgia's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. City of Calhoun, Georgia's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of at testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

To the Honorable James F. Palmer, Mayor
and the Members of the City Council
Calhoun, Georgia

Report on Compliance for Each Major Federal Program

We have audited the City of Calhoun, Georgia's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the City of Calhoun, Georgia's major federal programs for the year ended June 30, 2015. The City of Calhoun, Georgia's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the City of Calhoun, Georgia's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City of Calhoun, Georgia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City of Calhoun, Georgia's compliance.

Opinion on Each Major Federal Program

In our opinion, the City of Calhoun, Georgia, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2015.

Report on Internal Control over Compliance

Management of the City of Calhoun, Georgia, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City of Calhoun, Georgia's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City of Calhoun, Georgia's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Other Matter

This report is replacing a previously issued compliance report dated December 31, 2015. Subsequent to release of the previously issued compliance report, the City of Calhoun, Georgia was notified by Georgia Environmental Finance Authority (GEFA) that the following federally funded programs were not included on the Schedule of Expenditures of Federal Awards: Clean Water State Revolving Loan Program (CFDA Number 66.458) and Drinking Water State Revolving Loan Program (CFDA Number 66.468). Additional procedures have been performed for the GEFA programs identified and the reissued accompanying schedule of findings and questioned costs, identified in the first paragraph, has been changed from the previously issued schedule to include the GEFA programs as major programs tested.

NOTE A - BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards includes the federal grant activity of the City of Calhoun, Georgia and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of State, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basis financial statements.

NOTE B - LOANS OUTSTANDING

Balance of Federal loans outstanding:

CW SRF #99-001	\$ 1,846,403
DW SRF #00-026	\$ 3,408,517
CW SRF #02-002	\$ 1,606,363
DW SRF#10-007	\$ 2,770,000
CW SFR#13-001	\$ 911,310
DW SRF#13-003	\$ 3,379,248

NOTE C - HOME PROGRAM

Home loans receivable assigned by the Department of Community Affairs to the City include various loans made to qualified applicants, most of which may be forgiven over applicable loan periods.

NOTE D - REISSUANCE

Subsequent to the original issuance of the financial statements for the year ended June 30, 2015, it was discovered that programs awarded through the Georgia Environmental Finance Authority had not been included on the schedule of expenditures of federal awards. Accordingly, the accompanying schedule has been corrected to include these programs.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2015**

SUMMARY OF AUDITOR'S RESULTS

1. The auditor's report expresses an unmodified opinion on whether the financial statements of the City of Calhoun, Georgia were prepared in accordance with GAAP.
2. One significant deficiency was disclosed during the audit of the financial statements. No material weaknesses are reported.
3. No instances of noncompliance material to the financial statements of the City of Calhoun, Georgia which would be required to be reported in accordance with *Government Auditing Standards*, were disclosed during the audit.
4. No significant deficiencies in internal control over major federal award programs were disclosed during the audit.
5. The auditor's report on compliance for the major federal award program for the City of Calhoun expresses an unmodified opinion on all major federal programs.
6. There were no audit findings required to be reported in accordance with 2 CFR section 200.516(a).
7. The programs tested as major programs are: Urban Development Action Grant (CFDA #14.221), Capitalized Grant for Clean Water State Revolving Funds (CFDA #66.458), and Capitalized Grants for Drinking Water State Revolving Funds (CFDA #66.468).
8. The threshold for distinguishing between Type A and B programs was \$300,000.
9. The City of Calhoun, Georgia was determined to be a low-risk auditee.

FINDINGS – FINANCIAL STATEMENTS AUDIT

Significant Deficiency

2015-01 – SEFA Preparation

Condition: The City was notified by the Georgia Environmental Finance Authority (GEFA), following review of the City's Comprehensive Annual Financial Report, that federal expenditures for the Capitalization Grants for Drinking Water and Clean Water State Revolving Loan Funds, had not been included on the schedule of expenditures of federal awards (SEFA).

Criteria: The City is responsible for the preparation of the financial statements and the SEFA. The requirement to present a schedule of expenditures of federal awards means that the City has to identify all of its federal programs (direct and indirect, major and nonmajor) and related awards expended. Paragraph 17.16 of the GAS/SA Audit Guide states the auditor should evaluate the severity of each identified deficiency in internal control that relates to the auditee's ability to prepare a complete and accurate schedule of expenditures of federal awards to determine whether the deficiency is a significant deficiency or material weakness in internal control over financial reporting, internal control over compliance, or both.

Cause: Management of the City did not believe the expenditure of these federal loans were required to be included on the SEFA but did disclose the loan balances in the notes to the SEFA.

Effect of Condition: The omission of federal expenditures from the SEFA have resulted in a revision of the SEFA, additional audit procedures extended to major programs identified, and reissuance of the auditor's reports for the year ended June 30, 2015.

Recommendation: We recommend that the City review the general ledger for all federal revenues, federal loans, and federal expenditures to ensure the accuracy and completeness of the SEFA. All claims for reimbursement should be reviewed, and if for federal funds, these amounts are included on the SEFA. We also recommend that more than one person review the SEFA and compare

it to the general ledger and claims for reimbursement, to determine that expenditures of all federal funds received have been included on the SEFA prior to submitting for audit.

Management's Response to Findings: The recommended procedures have been established.

INDEPENDENT AUDITOR'S REPORT

To the Honorable James F. Palmer, Mayor
And Members of the City Council
City of Calhoun, Georgia

We have audited the accompanying Project Cost Schedules for projects constructed with Special Sales Tax Proceeds for the City of Calhoun, Georgia as of June 30, 2015. These Project Cost Schedules are the responsibility of the City of Calhoun, Georgia's management. Our responsibility is to express an opinion on the Project Cost Schedules based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance that the Project Cost Schedules are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the Project Cost Schedules. We believe that our audit provides a reasonable basis for our opinion.

The accompanying Project Cost Schedules were prepared to present each identified project and information required by Section 48-8-121 OCGA and is not intended to be a complete presentation of the City of Calhoun, Georgia's assets and liabilities.

In our opinion, the accompanying Project Cost Schedules present fairly, in all material respects, the original estimated cost of each project, expenditures incurred and the estimated percentage of completion of each project as of June 30, 2015, in conformity with accounting principles generally accepted in the United States of America.

This report is intended solely for the information and use of the Mayor and City Council, management, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Note - Transfers out of the 2011 SPLOST in the amount of \$493,800 were comprised of repayments on a loan recorded in the Golf Enterprise fund in the amount of \$17,720 which was recorded in Recreation above. \$238,079 of the amount transferred out was for repayments on a long-term advance to the General fund for a new police fleet and they have been included, along with interest, on the police fleet line above. When the fleet was originally purchased, the capital outlay and an advance was recorded in the General fund. This advance is being repaid with SPLOST proceeds. Repayment will be complete in FY 2016. Transfers were also made out of the 2011 SPLOST for capital improvements in the Enterprise funds in the amount of \$238,001. Reclassifications in the amount of \$429,492 were made between Peters Street and Public Works Prior Years' Expenditures to correct balances posted to the incorrect line. Transfers were made out of the 2005 SPLOST for capital improvements in Enterprise funds in the amount of \$149,343. The Library budget was amended to include additional state MMR funding and local funds provided by the Regional Library.
